

PLENARY MEETING

**Revision 1 to
Document 10-E
29 August 2022
Original: Chinese**

Note by the Secretary-General

**CANDIDACY FOR THE POST OF MEMBER OF
THE RADIO REGULATIONS BOARD (RRB)**

Further to the information published in Document 3, I have the pleasure in transmitting to the Conference, in annex, the candidacy of:

Mr Jianjun CHENG (People's Republic of China)

for the post of member of the Radio Regulations Board.

Houlin ZHAO
Secretary-General

Annex: 1

MINISTRY OF INDUSTRY AND INFORMATION TECHNOLOGY

PEOPLE'S REPUBLIC OF CHINA

13 West Chang'an Ave., Beijing 100804, China

July 14, 2021

To: Mr Houlin ZHAO
Secretary-General of the
International Telecommunication Union
Geneva, Switzerland

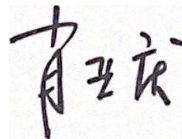

Dear Mr Secretary-General,

I have the honour to inform you that China will present its candidature for the election to the next Council of the International Telecommunication Union (ITU) at the ITU Plenipotentiary Conference in 2022. China has the honour to nominate Mr Jianjun CHENG for a seat on the Radio Regulations Board (RRB) of the International Telecommunication Union.

Mr Jianjun CHENG has extensive experience in the field of radiocommunications, especially in spectrum management and international coordination. He is familiar with the Radio Regulations and the Rules of Procedure of the International Telecommunication Union. He has participated in many World Radiocommunication Conferences, Radiocommunication Assemblies and ITU-R Study Group meetings. He has solid professional competence, broad international vision and considerable experience in international cooperation. I am confident that if elected, Mr Jianjun CHENG will contribute to the rational and economic use of, and equitable access to, the radio-frequency spectrum resources by all countries.

As a Member State of the ITU Council, China has long participated actively in the work of ITU and is committed to fulfilling the purposes of the Union. We are willing to work with all the Member States to provide continuous support to the work of the Union, jointly promoting the coordinated and harmonized development of the global information and communication technology industry, while making positive contribution to building a community with a shared future for mankind.

Please accept, Sir, the assurance of my highest consideration.

XIAO Yaqing

Minister of Industry and Information
Technology of the People's Republic of China

Attachment: Curriculum Vitae of Mr Jianjun CHENG

Jianjun CHENG

Candidate for the post of Member of the Radio Regulations Board (Region E) for the term 2023-2026

PERSONAL INFORMATION

Date of birth: 4 April 1971
Current Position: Director General of the State Radio Monitoring Center (also known as the State Radio Spectrum Management Center), China
Nationality: Chinese
Languages: Chinese (mother tongue), English

EDUCATIONAL BACKGROUND

1997 Master of Science, Radio Technology. Department of Electronics Engineering, Tianjin University
1993 Bachelor of Science, Radio Technology. Department of Electronics Engineering, Tianjin University

PROFESSIONAL EXPERIENCE

2021-Present Director General, State Radio Monitoring Center (also known as the State Radio Spectrum Management Center), China
2019-2021 Director General, Communications Regulatory Bureau of Fujian Province, China
2017-2019 Director General, Communications Regulatory Bureau of Heilongjiang Province, China
2015-2017 Deputy Director General, Department of International Cooperation, Ministry of Industry and Information Technology, China
2013-2015 Deputy Director General, Bureau of Radio Regulation, Ministry of Industry and Information Technology, China

2008-2013	Director of Space Service Division and later Supervision and Inspection Division, Bureau of Radio Regulation, Ministry of Industry and Information Technology, China
2005-2008	Director of Space Service Division, Bureau of Radio Regulation, Ministry of Information Industry, China
2002-2005	Second Secretary and later First Secretary, Chinese Embassy in the United Kingdom
1998-2002	Senior Staff of Space Service Division, Bureau of Radio Regulation, Ministry of Information Industry, China
1997-1998	Engineer, State Radio Monitoring Center (also known as the State Radio Spectrum Management Center), China

INTERNATIONAL EXPERIENCE

Mr Jianjun CHENG has extensive experience in the field of radiocommunications, especially in spectrum management and international coordination. He is familiar with the Radio Regulations and Rules of Procedure of the International Telecommunication Union. He has participated in several World Radiocommunication Conferences, Radiocommunication Assemblies and ITU-R Study Group meetings.

Since 1998, he has taken a leading role in China's delegations to WRC-2000, WRC-07, WRC-12, PP-14 and WRC-15, responsible for preparations for conferences, coordination of satellite and space service matters as well as development of China's contributions. In addition, he has been deeply involved in the discussions of rules, procedures and technologies at ITU-R Study Group meetings such as SG4 and SG7. He drafted a number of contributions submitted to the Radio Regulations Board on the review of the Rules of Procedure.

2021-2022

- Head of the Chinese delegation to the 2022 session of the ITU Council.
- Deputy head of the Chinese delegation to the 2022 World Telecommunication Development Conference (WTDC-2022), the 45th Asia-Pacific Telecommunity Management Committee meeting and the third meeting of the APT Conference Preparatory Group for WRC-23 (APG23-3).
- Participation in the 2022 Mobile World Congress and the China-Latin America Digital Technology Cooperation Forum.

2015-2021

- He chaired or participated in intergovernmental dialogues and international industrial cooperation meetings in the field of industry and information technology on numerous occasions. He conducted extensive exchanges with his counterparts of various countries and international organizations, including the "5G+ Industrial Internet for World Development Forum" of Digital China Summit editions 2020 and 2021, the Fifth BRICS Communications Ministers Meeting in 2019, etc.

2000-2015

- He led China's preparations for WRC-2000, WRC-07, WRC-12, PP-14, and WRC-15 and participated in these conferences, serving as China's coordinator for agenda items on satellite and space services. He also served as Chairman of APG Working Group IV on WRC-12.

- As head of the Chinese delegation, he participated in many ITU-R Study Group, Working Party, APG and AWG meetings on satellite and space services. He also led Chinese delegations to satellite coordination meetings.

1998-1999

- He participated in meetings of the Inter-conference Representative Group (IRG) and the associated Group of Technical Experts (GTE) during the re-planning process of the broadcasting-satellite service in Regions 1 and 3.

COMMITMENTS

China has a long history of active participation in various activities of the International Telecommunication Union and has provided strong support to the Union in fulfilling its mandate and mission. With the rapid evolution of radiocommunication services, China will continue to support the ITU Radiocommunication Bureau in fulfilling its mandate, while at the same time assisting the Radio Regulations Board in playing its important role in applying provisions of the Radio Regulations, coordinating and solving radio-frequency interference cases.

Mr CHENG has over 20 years of experience in radio regulation and international cooperation with solid professional competence, broad international vision and considerable experience in the regulation of communications. He has built up professional expertise and experience in radio-spectrum engineering and interference monitoring. He is familiar with ITU rules and procedures and has developed insights into radiocommunication services and geographical environments in countries all over the world. For many years, he had been responsible for the international coordination of China's satellite frequencies and orbits. He has been heavily involved in various activities of the International Telecommunication Union and the Asia-Pacific Telecommunity and maintained long-term exchange and cooperation with his counterparts in many countries. His many years of service in senior/executive positions in China's ICT regulation and his unique insights into industry development trends are complemented by his excellent communication and coordination skills. The above-mentioned professional experience led him to realize the importance of reasonable, equitable, effective and economic use of radio spectrum and associated orbit resources, and a full appreciation of the concerns of Member States in accessing satellite frequency and associated orbit resources.

If elected as a member of the Radio Regulations Board, Mr Jianjun CHENG will strictly follow the Constitution, the Convention, the Radio Regulations of the International Telecommunication Union and all applicable resolutions and decisions adopted by previous world radiocommunication conferences, making every effort to apply his professional knowledge and practical experience in fulfilling the duties and missions of a Board member. He will facilitate the objective application of the Radio Regulations and the Rules of Procedure while making sure that concerns and suggestions of Member States are heard and taken into account properly so that the Radio Regulations Board can make fair and transparent decisions.
