## Telegram Service

### Jordan

Communication of 21.II.2012:

#### *Change in the Telegram Service*

The *Jordan Telecommunications Company*, Amman, announces that with immediate effect all international telegrams to and from Jordan must be routed through Unitel. The telegram destination indicator JOAM allocated to Jordan remains in force and must be used for all telegrams to Jordan. This applies for both ITA2 and APU80 telegrams.

Responsibility for international rates and settlements will reside with Unitel which will handle all accounting and settlements relating to telegram traffic to and from Jordan on a cascade accounting basis.

Telegram operating companies are therefore kindly requested to contact Unitel directly as shown below to arrange for the provision of access and negotiate accounting rates to apply.

## National Numbering Plan (According to ITU-T Recommendation E.129 (11/2009))

Web:[www.itu.int/itu-t/inr/nnp/index.html](http://www.itu.int/itu-t/inr/nnp/index.html)

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their webpage concerning the national numbering plan as well as their contact points, so that the information, which will be made available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: [tsbtson@itu.int](mailto:tsbtson@itu.int)), administrations are kindly requested to use the format as explained in Recommendation ITU-T E.129. They are reminded that they will be responsible for the timely update of this information.

From 15.II.2012 the following countries have updated their national numbering plan on our site:

# RECAPITULATORY LIST OF SERVICE RESTRICTIONS

## *Note from the TSB*

1. In pursuance of the provisions of Chapter VI of the Constitution of the International Telecommunication Union (Geneva, 1992) and the provisions of Article 7 of the International Telecommunication Regulations (Melbourne, 1988), Administrations/ROAs should notify the ITU of their service restrictions, either temporarily or permanently, relating to the various international telecommunications services offered to the public, the suspension of services and the subsequent return to normal conditions, either generally or only for certain relations and/or for certain kinds of correspondence, outgoing, incoming or in transit. The TSB of the ITU shall immediately bring such information to the attention of all other Administrations/ROAs, using the more appropriate means of communication.

2. For many years, information concerning the *Service Restrictions* has been individually published in the ITU Operational Bulletins and then collected in a "Recapitulatory Table of Service Restrictions" which was published as Annex to the ITU Operational Bulletin.

3. This present Recapitulatory List of Service Restrictions replaces the "Recapitulatory Table of Service Restrictions" published in the Annex to the ITU Operational Bulletin No. 691 of 1 May 1999 and contains all subsequent communications published in the ITU Operational Bulletins up to No. 1000 of 15 March 2012.

4. Every effort has been made to ensure that the information contained in the present List is accurate. Administrations/ROAs are requested to check the information published therein and to inform the TSB of any changes that should be made for its updating (Fax: +41 22 730 5853; E-mail: tsbtson@itu.int).

5. Furthermore, the information contained in this Annex to the ITU Operational Bulletin No. 1000 is also available on the ITU web site: <http://www.itu.int/itu-t/bulletin/annex.html>

6. The designations employed and the presentation of material in this List do not imply the expression of any opinion whatsoever on the part of the ITU concerning the legal status of any country or geographical area, or of its authorities.
