Singapore (country code +65)

Communication of 26.IX.2001*:

Infocomm Development Authority of Singapore (IDA), Singapore, further to their communication of 25 January 2001 published in Operational Bulletin No. 734 of 15.II.2001, recalls that Singapore will migrate to an eight-digit telephone numbering plan in 2002. IDA announces a revision to the timetable for implementation of changes to the numbering plan for Public Switched Telephone Network (PSTN) in Singapore and the period for international parallel access.

Background

With effect from 1 March 2002, the E.164 numbering plan of the Republic of Singapore will become a uniform national eight-digit plan. Digit "6" will be added in front of the existing seven-digit N(S)N for PSTN to form the new eight-digit N(S)N for PSTN. The international public telecommunication number structure of Singapore will have ten (10) digits in all (including country code +65).

CC + N(S)N, where: CC is the country code consisting of two (2) digits, and N(S)N is the national (significant) number consisting of (8) eight digits. In Singapore's context, the N(S)N is the same as subscriber number (SN).

Timetable for implementation of the new plan

Country	Date and local time	Date and time (UTC)
Singapore	1 March 2002 at 0100 hours	28 February 2002 at 1700 hours

International parallel access

To facilitate overseas calls to Singapore during the initial period of the change in the numbering plan, a six-month (instead of the previously communicated one-year period) parallel access will be in place, from 1 March 2002 to 31 August 2002.

During this period, overseas calls to Singapore accessing both seven-digit N(S)N (e.g. +65 234 5678) and eight-digit N(S)N (e.g. +65 6234 5678) will be completed.

From 1 September 2002 to 28 February 2003, overseas calls to Singapore accessing seven-digit N(S)N (e.g. +65 234 5678) will be routed to a recorded announcement and the call will be discontinued. Only calls to Singapore using the eight-digit N(S)N (e.g. +65 6234 5678) will be completed.

From 1 March 2003, overseas calls to Singapore accessing seven-digit N(S)N (e.g. +65 234 5678) will be routed to a service unavailable tone.
