 - b) The "9" is initially considered as being the eighth and seventh digit of the national (significant) mobile number in Lima and in the Provinces, respectively, with the use of other digits becoming possible as and when the Administration deems it appropriate.

- c) In this stage, the numbering of the public mobile service is considered to be geographic and will be treated as such.
 - d) Codes are being created for the numbering areas that will identify a particular department and will serve the function of national long-distance code (TC – Trunk Code).
 - e) This stage will come into effect six (6) months as from the date of publication, in the official bulletin (*diario oficial*) of Peru, of the Resolution approving the present Basic Technical Plan.
- Second stage:
- a) Implementation of the virtual mobile area, whereupon the numbering of the public mobile service will be considered non-geographic and be treated as such. The national destination code (NDC) for these services will take the destination network (DN) value "9".
 - b) An additional digit in the fixed subscriber number, giving it a length of eight (8) digits in numbering area "1" (Lima and Callao) and seven (7) digits in other numbering areas.
 - c) Implementation of number portability, in accordance with the timetable established by the *Ministerio de Transportes y Comunicaciones*.
 - d) The Administration will, by means of a Ministerial Resolution, determine the entry into force of this phase.

Communication of 1.I.2003:

Cable and Wireless (St. Lucia) Ltd, Castries, announces the following numbering plan for Saint Lucia:

Saint Lucia is in the World Zone 1 (WZ1) Plan, Country Code = "1", NPA = "758". All trunk codes (TC) (NXX) are three digits, and subscriber numbers (SN) four digits in length.

The dialling format for the NPA 758 is as follows:

All home NPA (HNPA), local calls will be dialled on a seven-digit basis with no prefix, i.e.: NXX + XXXX , e.g. 450 1234, where 450 is the NXX , and 1234 is the subscriber number (SN).

All Foreign NPA (FNPA), direct dialled calls will be dialled with a prefix "1" + ten digits", i.e.:

1 + NPA + NXX + Subscriber Number (SN).

For example: 1 + 758 + 450 +1234, where

- 1 = Prefix
- 758 = NPA
- 450 = NXX
- 1234 = SN

Operator assisted calls including credit card, collect and third party calls will be dialled with a "0" prefix, and ten digits, i.e.: 0 + NPA + NXX + XXXX.

For example: 0 + 758 + 450 +1234, where

- 0 = Prefix
- 758 = NPA
- 450 = NXX
- 1234 = SN

Collect calls to subscribers of the mobile cellular networks and special service codes are prohibited in Saint Lucia, and no out-payments will be made for such calls.

International dialling format: +1 758 NXX XXX
