## Telegram Service

### Bosnia and Herzegovina

Communication of 20.XI.2003:

#### *Re-opening of the Telegram Service*

*BH Post, Sarajevo*, announces the re-opening of the telegram service in Bosnia and Herzegovina. As from 30 October 2003, all telegrams to and from Bosnia and Herzegovina are transited via *Unitel*.

All telegrams for delivery in Bosnia and Herzegovina should use the Telegram Destination Indicator "BHXX". Only ordinary rate telegrams are accepted. Addresses may be TFX (Telephone delivery), FAXx (Facsimile delivery) or full postal addresses. The terminal accounting rate requirement for telegrams to Bosnia and Herzegovina is 0.229 SDR per ordinary word. The cascade accounting is done by Unitel Telegram Services.

The List of *Telegram Destination Indicators*, published in accordance with ITU-T Recommendation F.32, will be updated accordingly.\*

### Cyprus (country code +357)

Communication of 21.XI.2003:

*Cyprus Telecommunications Authority (CYTA Nicosia)*, Nicosia, announces its decision to neither route nor accept telephone traffic via transit carriers as of 1 January 2004, as the volume of switched transit traffic originating from and terminating to CYTA has been declining to the extent that it no longer justifies the administrative costs involved in its settlement.

As a result, none of the accounting agreements currently in place between CYTA and Telecom Operators with which it does not maintain direct links will be valid after 31 December 2003, and no statements of account will be exchanged with those carriers for telephone traffic routed beyond this date. The telecom operators concerned are therefore kindly requested to switch to the hubbing method for routing their traffic to CYTA from 1 January 2004 onwards.

Moreover, Transit Carriers are kindly requested to stop providing their transit facilities for traffic termination to CYTA as of the above date. Any traffic routed to CYTA via the direct routes after this date will be considered as originating from the direct relation concerned and will be settled with the corresponding terminal shares.
