Access codes/numbers for mobile networks

Note from TSB

1. Several requests have been received in ITU, asking that a distinction should be made between the fixed and mobile telephone numbers. A List of access codes/numbers for mobile networks has been prepared from the information received on the telephone service for publication in the ITU Operational Bulletin. Administrations/ROAs are requested to verify the information in this list and to inform ITU on any modifications that they wish to make.
2. This List of access codes/numbers for mobile networks replaces that published in ITU Operational Bulletin No. 789 of 1.VI.2003. Since then, a number of notifications has been received at TSB and these notifications have been published separately in various issues of the ITU Operational Bulletin. The present list recapitulates all the different amendments that have been published up to ITU Operational Bulletin No. 816 of 15.VII.2004.
3. This List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU home page, at the web address: www.itu.int/itu-t/bulletin, and can be consulted by subscribers, by remote access.
4. Please address any comments or suggestions concerning this List to the Director of TSB:
