Data Transmission Service (ITU-T Recommendation X.121)

International numbering plan for public data networks

Austria

Communication of 2.XII.2010:

A1 Telekom Austria AG, Vienna, announces that its international X.25 and X.75 Public Switched Data Network (PSDN) Services, formally known as "Dataswitch" will be discontinued with effect from 1 January 2011.

As of 1 January 2011, the X.75 gateway service will no longer route transiting traffic and terminating traffic to and from the data network identified with the 232 2 code (DNIC) according to ITU-T Recommendation X.121.

The DNIC 232 2 remains, however, allocated to "Dataswitch". The DNIC will continue to be used internally.

Group of countries shared country code 388 (ITU-T Recommendation E.164)

Note from TSB

Administrations, Recognized Operating Agencies (ROAs) and operating agencies are invited to note that, as reported in ITU Operational Bulletin 917, Study Group 2 considers that the use of European Telephony Numbering Space (ETNS) code 388 3, assigned to 24 countries, is not in conformance with the code 388 3 assignment criteria.

TSB has requested that ETNS codes 388 3 be reclaimed as of 31 December 2010. The code 388 3 has been returned to spare on 31 December 2010.

National Numbering Plan (According to ITU-T Recommendation E.129 (11/2009))

Web: www.itu.int/itu-t/inr/nnp/index.html

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their webpage concerning the national numbering plan as well as their contact points, so that the information, which will be made available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: tsbtson@itu.int), administrations are kindly requested to use the format as explained in Recommendation ITU-T E.129. They are reminded that they will be responsible for the timely update of this information.

From 15.XII.2010 to 31.XII.2010 the following countries have updated their national numbering plan on our site:

**LIST OF ISSUER IDENTIFIER NUMBERS FOR THE
INTERNATIONAL TELECOMMUNICATION CHARGE CARD
(IN ACCORDANCE WITH ITU-T RECOMMENDATION E.118 (05/2006))**

(POSITION ON 1 JANUARY 2011)

List of Issuer Identifier Numbers for the international Telecommunication charge card (In accordance with ITU-T Recommendation E.118)

Note from TSB

This List replaces the List annexed to Operational Bulletin No. 919 of 1.XI.2008. It contains all the Issuer Identifier Numbers (IIN) registered by the ITU, which have been notified in the ITU Operational Bulletin up to and including No. 971 of 1.I.2011.

For your information, this List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU website www.itu.int/itu-t/bulletin/annex.html, .

An IIN is used to identify a telecommunication company in a country, which is working in an international environment. According to ISO Standard 7812-2 , the criteria for approval and rejection of applications are:

"4.3.1 Criteria for approval of an application for a single IIN

Applications for a single IIN shall meet all the criteria for approval below and shall not comply with any of the criteria for rejection in 4.3.2 :

- a) the applicant applying for a single IIN shall not already have an IIN assigned to it in its own right (outside of any card scheme);
- b) the IIN shall be for immediate use, preferably within 12 months of the date of issue of the IIN;
- c) the card being issued shall be for use in an international interchange environment (see ISO/IEC 7812-1);
- d) the applicant shall be a single corporate entity operating under a specific legislative regulation.

4.3.2 Criteria for rejection of an application for a single IIN

An applicant for a single IIN shall be rejected by the Sponsoring Authority when any one of the following conditions exist:

- a) the applicant is not a card issuer;
- b) the applicant has previously been assigned an IIN in its own right (outside of its membership of any card scheme) which it is still using and the applicant has not provided adequate supplementary information as justification for issue of an additional IIN (see 4.2);
- c) the cards issued by the applicant would not be used in an international and/or interindustry interchange environment;
- d) the IIN will be used to identify or differentiate between products, services or technologies (i.e. including but not limited to integrated circuit cards), or solely to facilitate routing, or to identify geographic location;
- e) the IIN will be used to identify or differentiate between branches or subsidiaries within the applicant's organisation (i.e. these branches or subsidiaries are not separate corporate entities);
- f) the applicant has requested a specific number or the reservation in the register of a specific number or made a request which is outside the scope of this part of ISO/IEC 7812;
- g) no card will be issued for immediate use, e.g. within 12 months from the date of issue of an IIN."

Furthermore under point 4.2 d), of ITU-T Recommendation E.118, the ITU shall collect a one-time fee for the assignment and registration of each new Issuer Identifier Number. This fee is currently 80 Swiss francs.

Applicants will find attached to the List, a registration form, which is intended to facilitate requests for assignment and registration. Applicant applying for a single IIN is requested to fill-in the registration form and submit it to the approval-organisation in his country before it is sent to ITU for registration, accompanied with evidence of payment to the ITU of the one-time registration fee.

In order to keep the list up-to-date the companies listed are requested to send all modifications concerning their company and contact address to ITU, TSB/OBNA, Fax No. +41 22 730 5853, E-mail: tsbtson@itu.int. The designations employed and the presentation of material in this List do not imply the expression of any opinion whatsoever on the part of the ITU concerning the legal status of any country or geographical area, or of its authorities.
