Title: Electronic meetings for GTO

Abstract

The evolution of technologies allows us to make virtual meetings in real time, so why not take advantage. Philippines administration support having only e-meetings.

Introduction

The creation of the Global Telecommunication Organization raises some questions, such as working method. This proposal studies the possibilities to replace physical meetings by electronic meetings to reduce expense and at the same time make the work efficient and fast.

Proposal

Philippines administration supports this proposal which offer many advantages:

➢ Reducing unnecessary expenditure which can be used in training workshops, and continuous improvement of work

➢ Needless of GTO buildings and staff that provide and support physical meetings.

➢ Protecting the environment by reducing energy consumption and greenhouse gas emissions.

➢ The participation amount will decrease, that will encourage all countries to participate in all GTO works, and as the GTO meetings are virtual the participation of members at each meeting will be maximum.
