Title: Proposal funding model for all Member States

1-Abstract:

Find a new funding mechanism to manage the GTO that will replace the ITU.

2-Introduction:

The new mechanism should encourage all countries to participate in the GTO with the intention to have a maximum of member participants, because the GTO been to bring together all entities that have a relationship with telecommunications over the world.

To achieve all this, a structure, strategy, working methods and funding should be treated and studied.

So, taking the point of funding: what is the new funding mechanism that can be adopted to manage the GTO?

3-Possibility:

First and for having a maximum of participants, the amount of participation should be choice for all countries with thresholds set for developed countries, developing countries and for countries with economies in transition.

Secondly, the amount can be determined by pay, consider their capacities.

4-Proposal:

We proposed to sets the amount of participation from developing and developed countries and also for countries with economies to transitions, consider their capacities to putting them in comfortable financial situation.
