ITU-T Kaleidoscope 2010

Beyond the Internet?

Innovations for future networks and services

Pune, India, 13-15 December 2010

www.itu-kaleidoscope.org/2010

Organized by:

Beyond the Internet?
Innovations for future networks and services
Sinhgad Technical Education Society, Narhe Campus, Pune, India
13–15 December 2010

Beyond the Internet? *– Innovations for future networks and services* is the third of peer-reviewed academic conferences aiming at increasing the dialogue between the international ICTs standardization world and academia. Kaleidoscope 2010 will review innovative technologies and their impact on the evolution of Internet architectures, services and applications, as well as their potential for standardization and the associated societal and economic challenges.

PROGRAMME HIGHLIGHTS

Keynote speakers:

- **Shri Gurudas Kamat**, Minister of State, Communications and Information Technology, India
- **Detlev Otto**, CTO, Nokia Siemens Networks, Germany
- **Tadao Saito**, CTO, Toyota Infotechnology Center, Japan

Invited papers:

- "*Future of the Information and Communication Technologies under Cloud Computing Environment*" – **Hiroshi Yasuda**, Tokyo Denki University and University of Tokyo, Japan
- "*Computational thinking will take us beyond the Internet*" – **Peter Wentworth**, Rhodes University, South Africa
- "*Challenges the Internet poses to the policy–maker*" – **Arun Mehta**, Bidirectional Access Promotion Society (BAPSI), India

UNIVERSITY EXHIBITION

The University Exhibition will create a unique opportunity to see, discuss and share studies currently being done in Indian universities. Few places are available on a first-come, first-served basis. Please contact **kaleidoscope@itu.int** if you are interested in exhibiting.

STANDARDS CORNER

ITU-T Kaleidoscope 2010 will host the Standards Corner, a tutorial on ITU-T standardization.

JULES VERNE'S CORNER

This year, the first Jules Verne's Corner – *"MAKE POSSIBLE THE IMPOSSIBLE"* – will also be organized. It is a self-defining event dedicated to the views of visionary minds, able to think ahead 50 years and beyond as Jules Verne himself did in his literature.

IPTV INTEROPERABILITY TESTING EVENT (16-17 December 2010)

At the same venue, on 16 and 17 December, GISFI has agreed to host an ITU IPTV Interoperability Event. Kaleidoscope participants are welcome to attend; details about the event will appear soon at **www.itu.int/interop**

For complete information on the event, please visit:
