Subject: **Correction to the title and summary of Recommendation ITU-T Y.3800 (10/2019)**

Dear Sir/Madam,

Below is a correction to the title and summary of Recommendation ITU-T Y.3800 (10/2019), which was announced as having been approved in TSB AAP-69, dated 1 November 2019:

**Title:** Overview on ~~Framework for~~ networks supporting quantum key distribution

#### **Summary**

Recommendation ITU-T Y.3800 specifies an framework for overview on networks supporting quantum key distribution (QKD).

This Recommendation aims to provide support for design, deployment, operation and maintenance to implement QKD networks (QKDNs) in terms of standardized technologies.

The relevant network aspects for conceptual structure, layered model and basic functions are within the scope of the Recommendation to support its implementation.

Yours faithfully,

Chaesub Lee  
Director of the Telecommunication Standardization Bureau
