

ITU Academy platform

Presented by:

Elena Stankovska-Castilla, Human Capacity Building Division

Outline

- ITU Academy: bridging the gap between innovation and capacity building
- What is the ITU Academy platform?
- ITU Academy platform: advantages and features

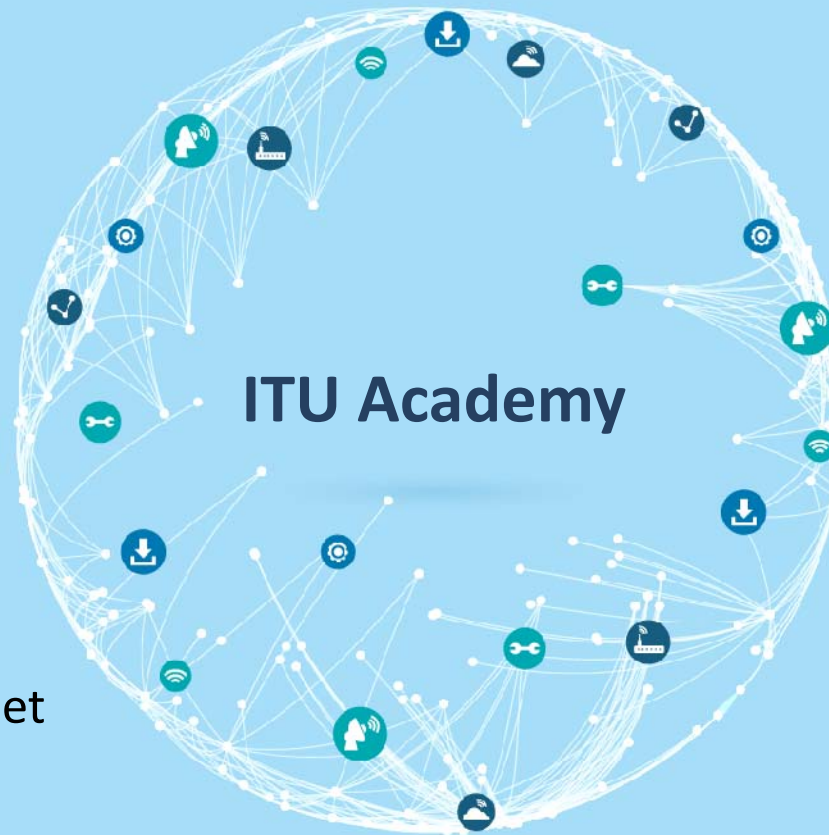

ITU Academy: bridging the gap

Artificial intelligence

Blockchain

Internet of Things

Future broadband Internet

ICT applications

Machine learning

Big Data analytics

Wireless technologies

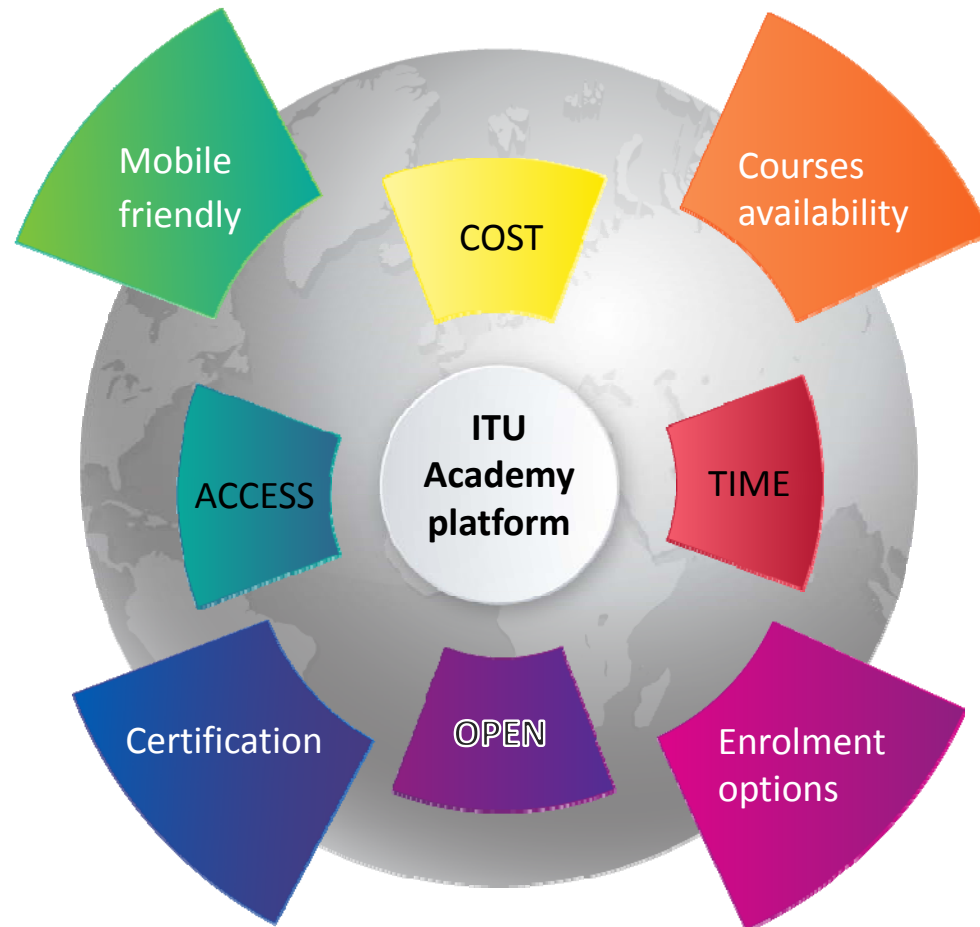

What is the ITU Academy platform?

ITU Academy Platform

- It responds to a growing demand for ICT training, teaching and research
- Leading platform of all ITU capacity building activities
- Offers general and specialized courses on all aspects of the digital skills development spectrum
- Topics include: innovation and entrepreneurship, digital inclusion, Internet of Things, cybersecurity and many others
- ITU Academy as a capacity building initiative serves our partners who wish to share expertise, resources and capacity building know-how across the world.
