# What is our higher purpose?

The global animation industry was USD 395.77 billion in 2016 and will reach USD 788.33 billion by 2022 at a CAGR of 12.17% during the forecasted period.

The major animation markets include the United States, Canada, Japan, China, France, Britain, Korea and Germany. The outsourced computer animation production market is increasingly being tapped by North American and European film and television program producers.
