

Emergency telecommunications table-top simulation guide

Practical Disaster Response: How to Develop Tabletop Exercises (TTX)

Online training course

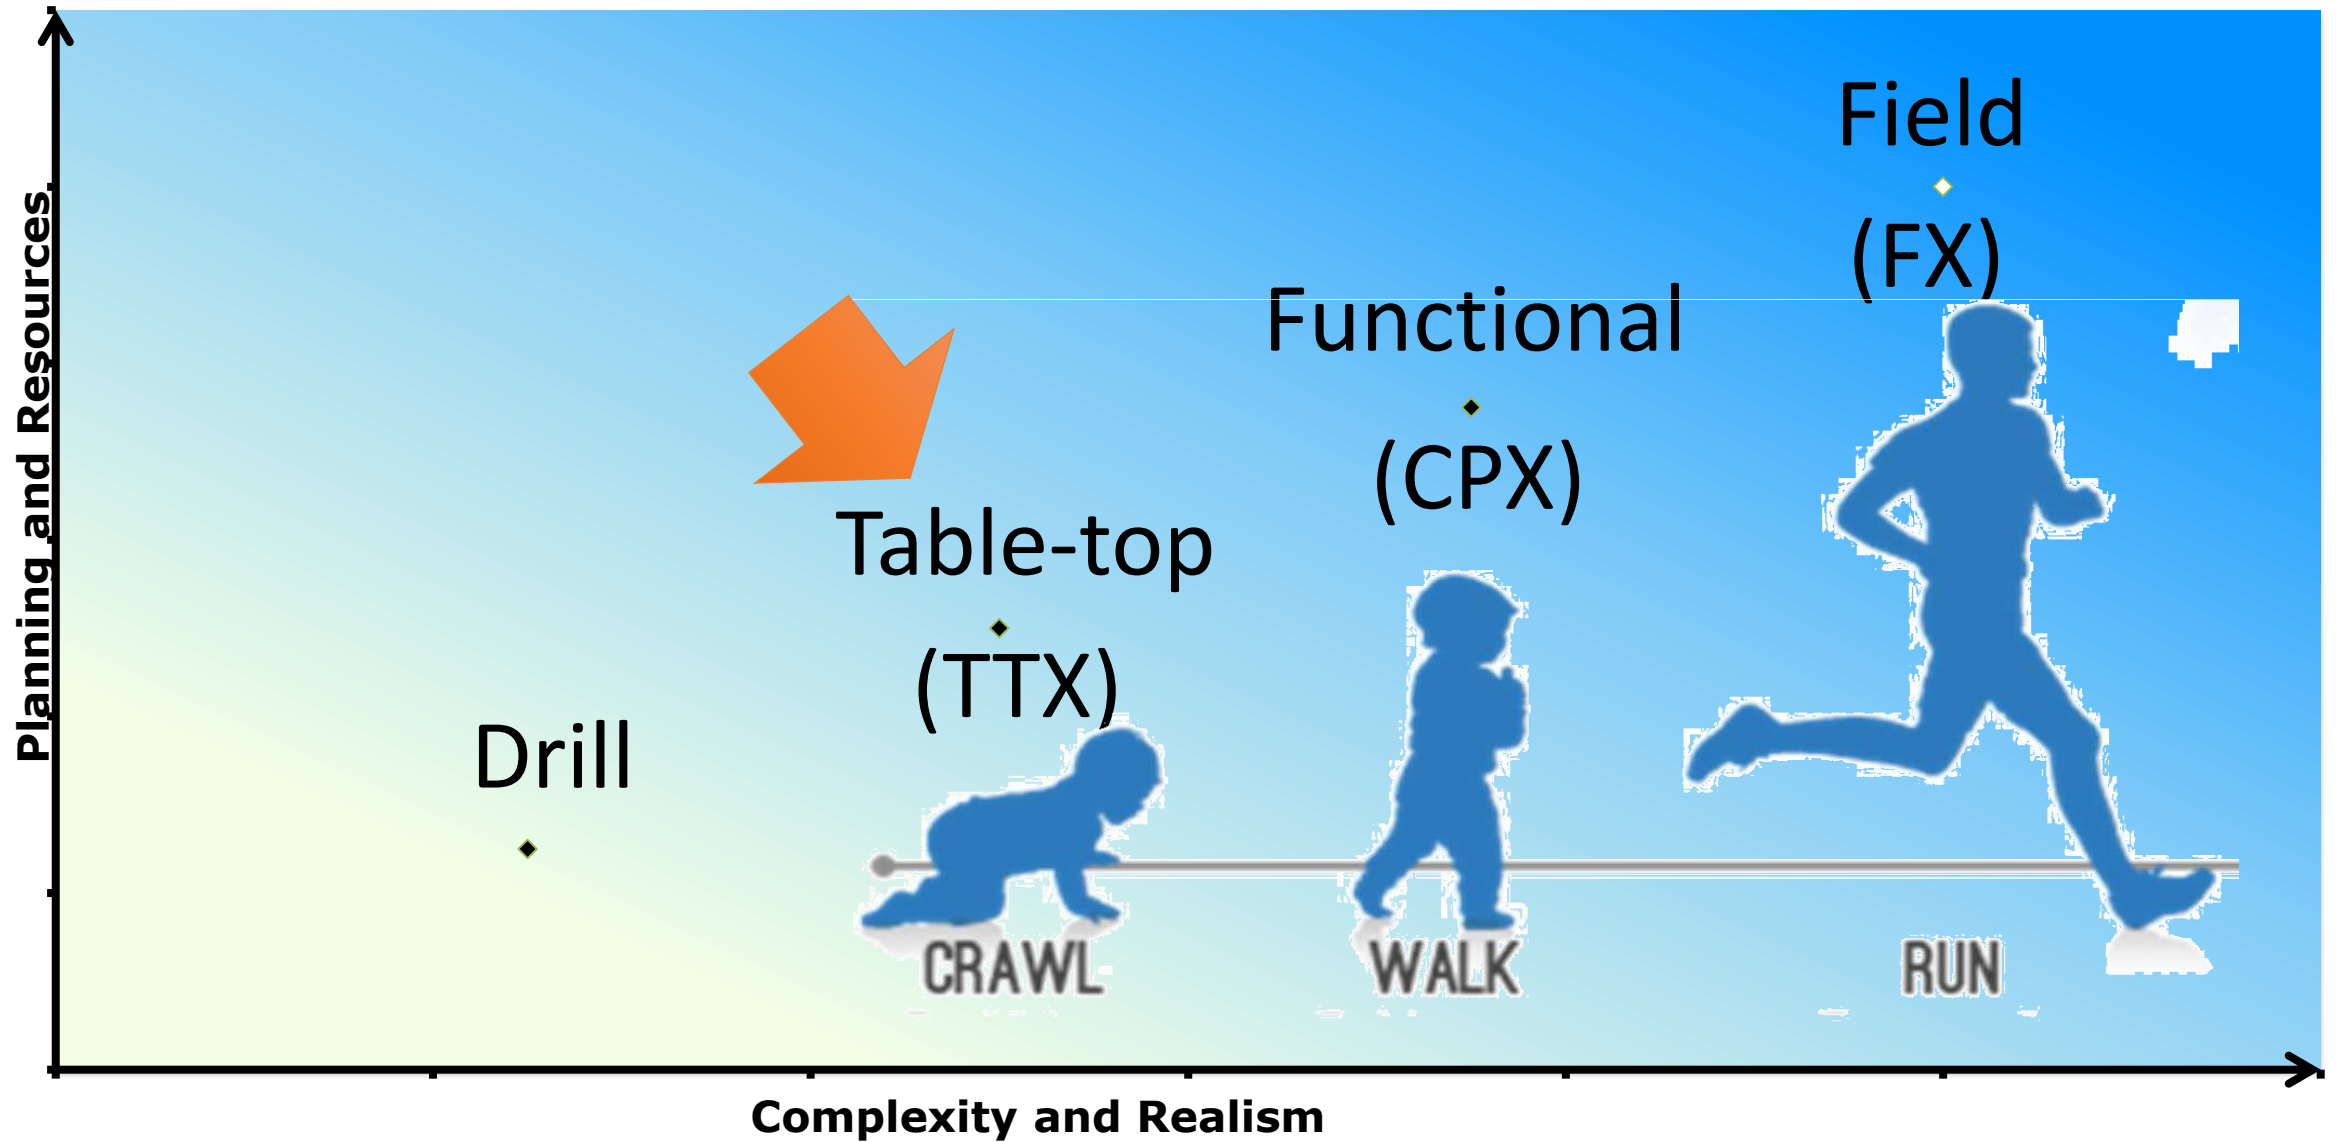

20 January 2021

What is a Simulation Exercise?

~~To do~~ *in the future*
A chance
by doing...

Types of Simulations

Introducing the TTX Guide

Objective:

- Increase emergency preparedness for enhanced readiness when disasters strike.

Purpose:

- To test and refine emergency telecoms plans and policies.
- Verify whether networks, redundant communications capacity, personnel, and other telecoms systems are in place.

Key Audience:

- Designed to assist Member States and stakeholders in disaster risk reduction and management at national-level, to plan design and conduct TTXs.

Emergency telecommunications table-top simulation guide

In partnership with:

Overview of the Guide

STEPS OF A TTX

Scope of the Guide: Contributions to resilience-building

Application context:

- Focuses on desk-based exercises.
- Participants in small groups are presented a disaster scenario, and expected to respond to presented “problems”.
- Through this, participants build an understanding of systems, policies, procedures, resources and structures to support emergency preparedness and response.
- Through a debrief post-TTX, participants identify gaps to be addressed through preparedness and resilience measures.

The Table- Top Exercise Online Course

Module 1: Introduction

Course overview

Module 1: Introduction (20min)

At the end of this module, you will understand different types of simulation exercises and their purpose.

Module 2: Pre-TTX / Plan

Introduction to Phase 1: Plan

Module 2: Pre-TTX / Planning (30 min)

At the end of this module, you will be able to complete the first phase of a TTX by using the provided tools and resources in this course.

Module 3: Pre-TTX / Design and set-up

Introduction to Phase 2: Design and set-up

Module 3: Pre-TTX / Design and set-up (20 min)

At the end of this module, you will be able to complete the second phase of a TTX simulation by using the provided tools and resources in this course.

A tall, dark metal telecommunication tower with various antennas and equipment, set against a dark teal background.

Module 4: During TTX / Conduct

Introduction to Phase Three: Conduct

Module 4: During TTX / Conduct (20min)

At the end of this module, you will be able to complete the third phase of a TTX simulation by using the provided tools and resources in this course.

A yellow and black ADAC rescue helicopter with 'NOTARZT' written on its side, parked on a field.

Module 5: Post-TTX / Results and Follow-up

Introduction to Phase 4: Results and Follow-up

Module 5: Post-TTX / Results and Follow-up (20 min)

At the end of this module, you will be able to complete the fourth phase of a TTX simulation by using the provided tools and resources in this course.

TTX Toolkit and Resources

Annex 3. 1: Further reading

1. A practical guide for developing and conducting simulation exercises to test and validate pandemic influenza preparedness plans (WHO, 2018)

Planning Checklist for TTX Simulation		Before the exercise		
TASK	DETAILS	DATE DUE	FOCAL POINT	STATUS
Log	Concept note	Define the purpose and scope of the simulation and draft concept note		In process, completed
Resources	Facilitation team identified and confirmed			
	Budget prepared			
	Funding sources agreed			
Co-Role	Invitations: (Note: should be sent as early as possible to ensure the appropriate people are available to participate)	Participants identified		
	Participants invited			
	Participant list created			
	Admin note and reminder sent			
	Venue selected (security approved, appropriate size)			
	Venue is accessible for all stakeholders			
	Room layout agreed with venue manager			
	Venue setup			
	Supplies and equipment delivered and set up			
	Catering	Catering package (meals and refreshments)		
	Catering confirmed and times provided			

Note: This checklist should be adapted to your local context.

- Badge

Quiz: Module 1

You now have the opportunity to demonstrate your knowledge of the content from module 1.

There are 5 questions and you require a score of 60% in order to obtain your badge at the end of the course.

[START QUIZ >](#)

Quiz: Module 2

You now have the opportunity to demonstrate your knowledge of the content from module 2.

There are 3 questions and you require a score of 60% in order to obtain your badge.

[START QUIZ >](#)

Quiz: Module 3

You now have the opportunity to demonstrate your knowledge of the content from module 3.

There are 3 questions and you require a score of 60% in order to obtain your badge.

[START QUIZ >](#)

Quiz: Module 4

You now have the opportunity to demonstrate your knowledge of the content from module 4.

There are 3 questions and you require a score of 60% in order to obtain your badge.
