Note: For data comparability and coverage, see the technical notes. Figures in italics are estimates or refer to years other than those specified.

... Data not available

- Zero or quantity less than the unit shown.

Source: ITU World Telecommunication/ICT Indicators Database.

(1) Estimated based on 3 times the number of subscribers. (2) Incl. users of the international network and also those having access only to the Cuban network. (3) Not from official survey data. Country estimate based on the assumption that every connection (except leased lines) serves 4 users (average household size is 6) and a leased line serves 10 users. Mobile Internet users are not included. (4) Calculated based on % of Internet users as reported in surveys (5) Active period 3 months. (6) Only for those providers certified by the local compliance office. Does not include independent ISP's. (7) Refers to data collected at the end of Jan 2009 (8) No differentiation between active and non-active subscriptions. (9) Estimated based on survey's results. Population age 7+. (10) Estimation based on GPRS subscribers, fixed and mobile.
