## National Committee for Child Online Safety

Share

### The National e-Safety Working Group

The National Committee for Child Online Safety was launched in June 2013, following the path of the national workgroup concerned with online safety, which was formed between October 2009 and January 2012, with the aim of activating a national strategy for protecting and empowering children online with the belief that empowerment is the key to online protection. The group works on preventive, protective and corrective mechanisms addressing children, parents and educators.

The National e- Safety Working Group sought a number of objectives including: Dissemination and awareness raising
