National
Telecommunications
Plan

PONADIS

PHYSICAL IMPAIRMENT

People who have difficulty walking, climbing stairs, using their hands, or fingers require equipment for telecommunications and information technologies with specific conditions and characteristics that allow an independent and autonomous use.

Disability/Deficiency Condition	Technological Need	Technological Solution
Do you have difficulty walking or climbing stairs?		
Yes, a high difficulty	Laptop Computer	High Performance Laptop Computer
Can not perform this activity at all	Laptop Computer	High Performance Laptop Computer
Do you have difficulty using their hands or fingers?		
Yes, a high difficulty	Desktop Computer Ergonomic Trackball Mouse Arm rests Keyboard with large keys (twice the standard size)	High Performance Desktop Computer Ergonomic Trackball Mouse Arm rests Keyboard with large keys (twice the standard size)
Can not perform this activity at all	Desktop Computer Eye tracker for PC Dictation Software	High Performance Desktop Computer Tobii Dynavox PCEye (software or hardware).

VISUAL IMPAIRMENT

People who have a visual impairment , even when wearing glasses, require equipment for telecommunications and information technologies with specific conditions and characteristics that allow an independent and autonomous use.

Disability/Deficiency Condition	Technological Need	Technological Solution
Do you have difficulty seeing, even if you wear glasses?		
Yes, a high difficulty	Laptop Computer Screen Reader software Magnifier Written documents magnifier	High Performance Laptop Computer JAWS MAGIG ó ZOOMTEX Ruby
Can not perform this activity at all	Laptop Computer Screen Reader software Book and written documents scanner	High Performance Laptop Computer JAWS OpenBook y Pearl

HEARING IMPAIRMENT

People who have a hearing impairment, even when using a hearing aid, require telecommunication and information technologies with specific conditions and characteristics that allow an independent and autonomous use.

Disability/Deficiency Condition	Technological Need	Technological Solution
Do you have a hearing impairment, even when using a hearing aid ?		
Yes, a high difficulty	Laptop Computer	High Performance Laptop Computer
Can not perform this activity at all	Laptop Computer	High Performance Laptop Computer

Nueva Delhi Conference

Generate a dialogue between the developers and the people with disabilities towards the democratization of the ICT's

Focused on the accessibility guidelines established by the W3C

Accessible Telephony

Telecommunications do not have an accessible format (audible, visual, pictographic)

Digital TV

Encourage people with disabilities to use technologies (4G)
