

Mrs. Nyurka Rodríguez
Independent Consultant
Telecommunications and ICT

Nyurka Rodriguez holds a Bachelor of Science in Electrical Engineering from Northeastern University, Boston, Massachusetts, United States, and an Advanced Management Program Diploma from the Instituto de Estudios Superiores de Administración, IESA, in Caracas, Venezuela. Nyurka worked for the Venezuelan Public Telecommunications Provider (CANTV) in Caracas, Venezuela, for over twenty six years in the regulatory area, international relations and planning. She was a team Leader representing CANTV and the government of Venezuela in multiple International Telecommunication Union ITU meetings, such as the Plenipotentiary Conference, World Telecommunication Standardization Assembly, World Telecommunication Development Conference, ITU Telecom Americas, Study Groups of ITU Radiocommunication, Standardization and Development Sectors. She works as a consultant in telecommunications and ICT project management, development of projects for the use of ICT in the implementation of smart and sustainable cities and communities, and as a senior consultant in telecommunications for the Venezuelan Chamber of Telecommunication Service Providers. Also works in the development of training programs in social, economic and policy aspects of telecommunication and ICT issues. Teaches online courses on the use of ICT in smart and sustainable cities and communities, Internet of things and digital economy at the ITU Academy of the International Telecommunication Union ITU.
