

ITU-MPTT- World Bank National Workshop on Numbering Planning and Policies for Somali's ICT stakeholders

World Bank Country Office, Nairobi,-Kenya, 8-9 November 2017

WORKSHOP AGENDA

Introduction:

The rapid change in Information and Communication Technologies (ICT) during the past decade has increased the necessity for updating the national numbering plan (based on ITU-T Recommendation E.164).

This workshop is aiming to give attendees a better understanding of priorities for Somalia with regard to numbering planning, numbering policies and the impact and implication of National Numbering Plan implementation, including administrative and regulatory issues.

Objective:

The workshop will provide participants an opportunity to discuss a plan and framework for the planning and management of Somali national telephone numbers. Consultants contracted by ITU and WBG will present a draft numbering plan and a framework for discussion.

NB: The programme below is indicative, and may vary depending for example on participants' interests on the day.

DAY 1	TOPIC	TIME	TITLE
	REGISTRATION AND OFFICIAL OPENING	8.30 – 9.00	REGISTRATION AND OFFICIAL OPENING WB & ITU & MPTT
	Session1: Global Telecommunications Trends in Numbering	9.00 – 10.00	Topics to be covered: <ul style="list-style-type: none"> ▪ Number structure ▪ Numbering plan construction elsewhere ▪ Numbering plan design principles ▪ Stakeholder requirements Speakers: <ul style="list-style-type: none"> - ITU - ITU-WB experts

	10.00 – 10.15	Coffee/Tea Break
Session2: legislations and Regulations of Numbering	10.15-11.30	<p>Topics to be covered:</p> <ul style="list-style-type: none"> ▪ Validation of the Draft numbering plan framework of Somalia ▪ The numbering plan ▪ The numbering database ▪ The numbering regulation <p><i>Speakers:</i> - ITU-WB experts</p>
	11.30 – 12.15	NNP Framework Discussion Groups (Facilitated by ITU-WB Experts)
Session3: Numbering in relation to Services	12.15-13.15	<p>Topics to be covered:</p> <ul style="list-style-type: none"> ▪ Fixed numbers ▪ Mobile numbers ▪ Short codes ▪ New service numbers ▪ Voice over Internet Protocol (VoIP) ▪ Internet of Things (IoT) ▪ <p><i>Speakers:</i> - ITU-WB experts</p>
	13.15 – 14.15	Lunch Break
Session4: Numbering administration and management	14.15-15.15	<p>Topics to be covered:</p> <ul style="list-style-type: none"> ▪ Roles of operators and regulators ▪ Reserving, allocating and withdrawing numbers ▪ Auditing number records ▪ Secondary number allocation ▪ Charging for numbers ▪ Trading in numbers ▪ Changing numbers ▪ Recycling numbers ▪ Rights of callers and number holders <p><i>Speakers:</i> - ITU-WB experts</p>
15.15 – 15.30	Coffee/Tea Break	

	Session5: Numbers for Competition and Convergence	15.30 – 16.30	Topics to be covered: <ul style="list-style-type: none"> ▪ Number portability ▪ ENUM ▪ Other kinds of numbering <i>Speakers:</i> - ITU-WB experts
		16.30 – 17.15	NNP Framework Discussion Groups (Facilitated by ITU-WB Experts)
		17.15 –17.45	Presentations (Plenary)
DAY 2	TOPIC	TIME	TITLE
	SOMALIA ICTS STAKEHOLDERS MEETINGS (TO BE ARRANGED ON DEMAND)
