

Mr. Osama Ghanim ,Chief Technology Officer (CTO) for Nour Smart Solutions & Founder – INNOVABIA Innovation & Entrepreneurship

- A Techno business engineer with strong presence in IT & Innovation & IoT fields. An ideal for creating future solutions to modern challenges. Founder and Chief Innovation Director (CID) for the first dedicated MENA region Innovation Management company namely INNOVABIA based and located in Dubai Knowledge Village (INNOVABIA). A very passionate individual about innovation and entrepreneurship. A strong advocate for the right of every person to know what is and how to innovate in every business and life matter. Focuses his current career in the transformation toward innovativeness for everybody in everything.
- Achieved sound contribution to the Innovation, Entrepreneurship & SME Development fields at the MENA at the regional level. Some of the achievements that added to the Innovation & Entrepreneurship field are:
 1. Wrote book about the “Innovation & Creativity Culture”,
 2. Developed Innovation Model named “Climate Innovation Model ©”,
 3. Developed an Innovation index under name “Ebtikarna ©”
 4. Author of KIDSOVATION© Educate Entrepreneurship & Innovation in K12 Schools
 5. Author of EduPreneurship Curriculum © for the Higher Education
- Always ahead of time to bring what the future hides to our market. Working in Innovation at the private corporates level as well as startups through entrepreneurship and the SME world and not excluding the public sector as a large innovation space.
- A Senior Innovation Strategy Consultant with accumulative experience of 23 years out of which 15 years in Senior Business positions with extensive involvement in Innovation, Strategy Consultation and Strategic Planning. Originally achieved sound achievements in the Information Technology and eBusiness areas.
- Frequently speaking in regional and international event about Innovation. Participated in many regional entrepreneurship competitions and/or awards both as organizer and as judge. Professional and passionate trainer since 1983 in various technology and management subjects yet selective in subjects that are new and suite the time we live in.
- Developed the “Innovation Climate Model”, a universal new and brave attempt to gather all spectrum of Innovation of all types for any organization in one model. There is one tailored model for the government sector specifically.
