

ITU Regional Training Workshop on "Human exposure to Electromagnetic Fields (EMF) & Specific Absorption Rate (SAR)" in the Arab Region, 2-3 Dec. 2019, Amman, Jordan

# WHO EMF PROJECT

Rakesh Kumar Bhatnagar  
Senior ITU EMF Consultant

## PEOPLE

Last but not least, WHO is people. Over 8000 public health experts including doctors, epidemiologists, scientists, managers, administrators and other professionals from all over the world work for WHO in 147 country offices, six regional offices and at the headquarters in Geneva, Switzerland.

## **WHO CORE ACTIVITIES**

- 1.Articulate ethical and evidence-based policy positions**
- 2.Setting norms and standards, and promoting and monitoring their implementation**
- 3.Shaping the research agenda, and stimulating the generation, translation and dissemination of valuable knowledge**
- 4.Providing technical support, catalysing change and developing sustainable institutional capacity**
- 5. Monitoring the health situation and assessing health trends**
- 6.Providing leadership on matters critical to health and engaging in partnerships where joint action is needed**

## **WHO's SUSTAINABLE DEVELOPMENT GOALS .....**

# SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

1 NO  
POVERTY

2 ZERO  
HUNGER

3 GOOD HEALTH  
AND WELL-BEING

4 QUALITY  
EDUCATION

5 GENDER  
EQUALITY

6 CLEAN WATER  
AND SANITATION

7 AFFORDABLE AND  
CLEAN ENERGY

8 DECENT WORK AND  
ECONOMIC GROWTH

9 INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

10 REDUCED  
INEQUALITIES

11 SUSTAINABLE CITIES  
AND COMMUNITIES

12 RESPONSIBLE  
CONSUMPTION  
AND PRODUCTION

13 CLIMATE  
ACTION

14 LIFE  
BELOW WATER

15 LIFE  
ON LAND

16 PEACE, JUSTICE  
AND STRONG  
INSTITUTIONS

17 PARTNERSHIPS  
FOR THE GOALS

SUSTAINABLE  
DEVELOPMENT  
GOALS

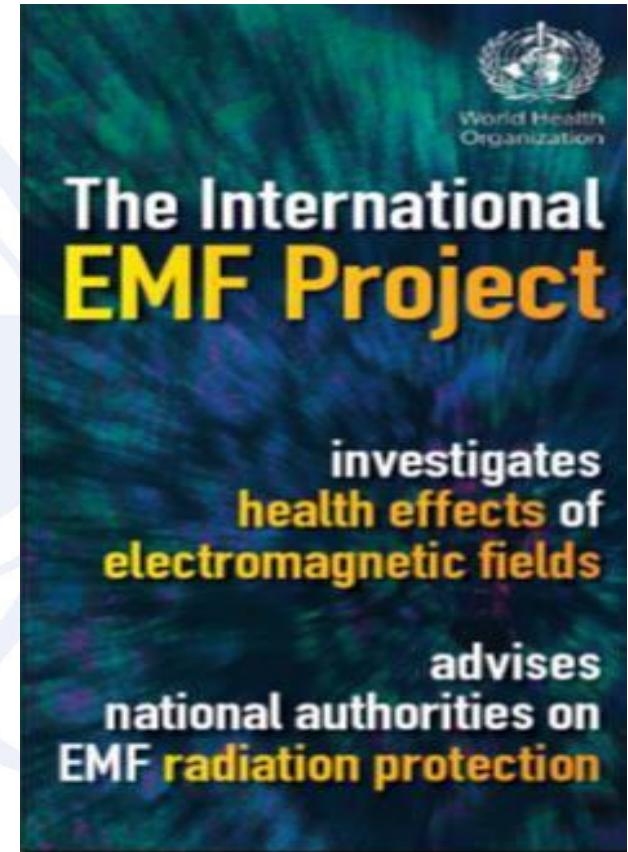

- **WHO EMF PROJECT**

Established in 1996

- Open to any WHO Member State government department or representatives of national institutions concerned with radiation protection

- Objectives

- Review the scientific literature on health effects of EMF exposure and formally assess health risks;
- Promote a focused agenda of high quality EMF research;
- Encourage acceptable harmonized standards; internationally
- Provide information on risk perception, risk communication, risk management

International Stakeholder Seminar on Radiofrequency Policies			
5 June 2013, ANSES, Maisons-Alfort, France			
LIST OF PARTICIPANTS			
Surname	First Name	Country	Organization
SKVARCA	Jorge	Argentina	World Health Organization PAHO/AMRO (representative)
MARTIN	Lindsay	Australia	ARPANSA
MASON	Alan	Australia	ARPANSA
ROWLEY	Jack	Australia	GSMA
RENHARDT	Martin	Austria	Ministry of Health
AL-SHEHAB	Maha Saleh	Bahrain	Ministry of Health
DE GRAVE	Charlotte	Belgium	Bruxelles Environnement
KNECHCIAK	Cécile	Belgium	Bruxelles Environnement
LOBNIG	Sabine	Belgium	Mobile Manufacturers Forum
DOMINGUES	Luís	Brazil	Centro de Pesquisas de Energia Elétrica
BULCAO	Jose	Brazil	Ministry of Mines and Energy (representative)
ISRAEL	Michel	Bulgaria	Ministry of Health
JOHANSEN	Christoffer	Denmark	Danish National Board of Health
HIETANEN	Maila	Finland	Finnish Institute of Occupational Health

# WHO Environmental Health Criteria Radiofrequency Fields

## Development of a first draft

- Set search criteria and quality criteria, include several languages
- Published peer-reviewed literature since 1993 (> 1000 refs)

## Expert consultation (Fall 2014)

- Over 700 comments

## WHO feedback based on evolving internal processes

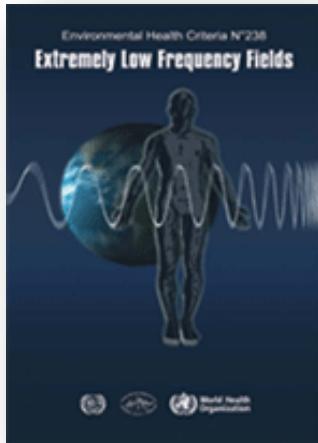

- *“although the types of questions that are being examined and the statements that will be issued are not typical ones related to interventions, they will have global impact and must be based on a systematic review of the evidence and transparent, explicit processes that minimize bias. Thus the basic principles for guideline development apply”.*

- Systematic reviews, risk of bias analysis, GRADE process

## Over the past 2 years

- Enlisted help of a contracted methodologist
- Risk-of-bias analysis on a subset of cancer data (pilot with NIEHS using OHAT approach)

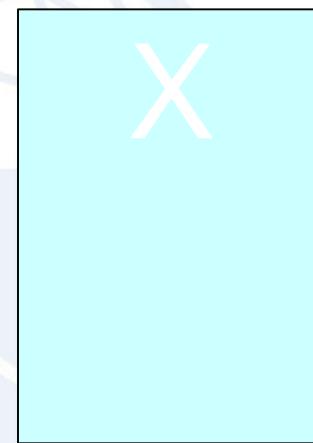

# Non Ionizing Radiation landscape

Scientific basis  
Effects, risks,  
sources, levels,  
trends. Many  
international reviews

Recommendations  
System of RP  
(philosophy, principles,  
limits). Other bodies  
CIE, ICES

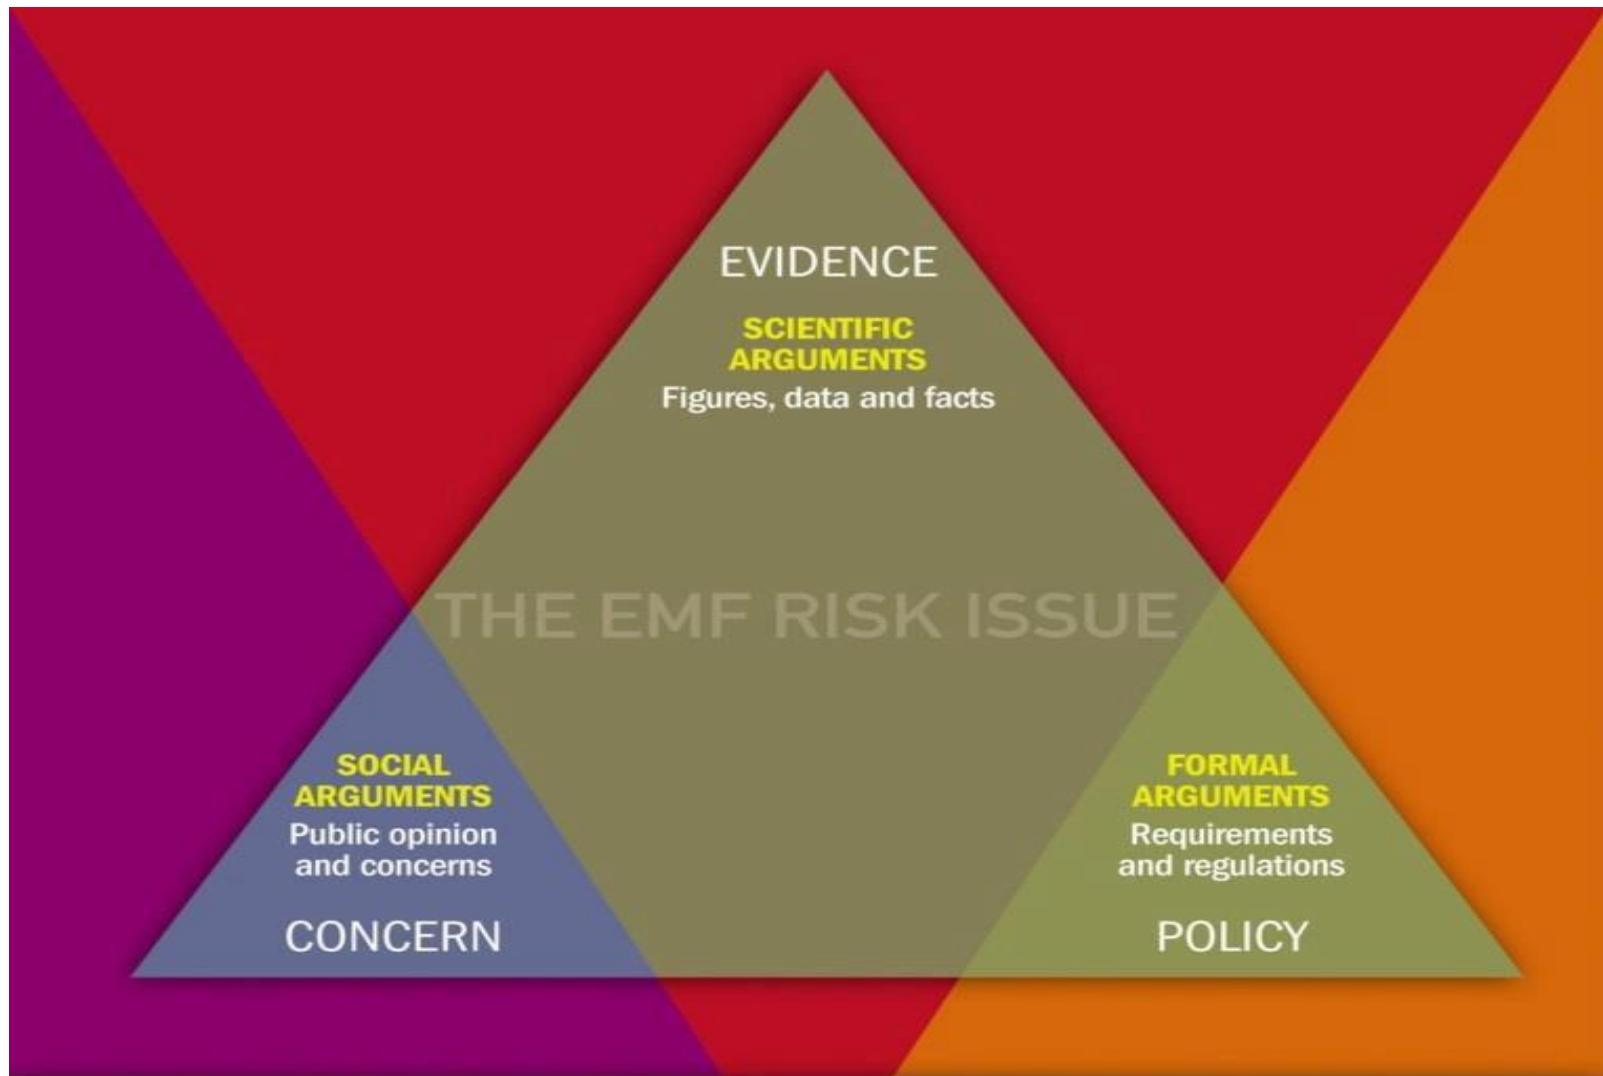

Standards  
(safety requirements,  
regulatory language,...)

National  
regulations

**5 G**
