Christine Arida, Executive Director for Telecom Services Planning, National Telecom Regulatory Authority of Egypt

Christine Arida is Executive Director for Telecom Services Planning at NTRA, Egypt. She has more than 25 years of work experience with the government of Egypt, in areas of Internet development and related public policies. During her work at NTRA she has participated in establishing the "DNS Entrepreneurship Center for Africa and the Middle East" in 2014, has lead the drafting of Egypt's National Broadband Plan "eMisr" in 2011 and has participated to the launching of Egypt's IDN ccTLD "dotMasr" in 2010. From 2001 to 2006 she has worked for the Ministry of Communications and Information Technology, where she participated in drafting "Egypt's Telecommunication Master Plan" in 2004 and drafting "Egypt's Broadband Agenda 2004 – 2007".

Ms. Arida represents the government of Egypt at the IGF MAG, is a co-founder of the Arab IGF and presently leads its secretariat. She is board member of ISOC Egypt Chapter, serves as chair of the Arab gTLDs Project Steering Committee at the League of Arab States and is founding member of AfriNIC.

Ms. Arida started her career at the Cabinet's Information and Decision Support Center in 1992, where she was among the team who first connected Egypt to the Internet. She holds a B.Sc. degree in Electronics and Communication Engineering from the Faculty of Engineering, Cairo University.
