|--------------------------------|---|
| Name of Organization: | UNESCO |
| Event Title: | Launch of the UNESCO-HUAWEI Project "Technology-enabled Open Schools for All" |
| Event Description: | As the COVID-19 pandemic unequivocally exposed the urgent need to build crisis-resilient education systems, UNESCO, with the financial support of Huawei, has initiated the Technology-enabled Open Schools for All project. The project is designed to support Member States to design, pilot test and scale up technology-enabled open school systems to ensure that education, as a human right will not be disrupted. UNESCO has reached an agreement with Egypt, Ethiopia and Ghana as the first group of countries to implement the project activities. Through the inception phase of the project, the project teams of the three countries, international experts and specialists of UNESCO field offices have completed the needs assessment and the elaboration of the country-level work plans. In this context, UNESCO is cooperating with Member States and partners to officially launch the project. |
