**Subject: NTRA-ITU Regional Training for Cybersecurity Development
Cairo-Egypt, 11 -15 Dec. 2022**

Dear Madam/Sir,

We are pleased to invite your organization to participate in the **NTRA-ITU Regional Training on Cybersecurity Development** to be conducted in collaboration with the National Telecom Regulatory Authority of Egypt (NTRA) in **Cairo- Egypt, during the period 11 - 15 Dec. 2022**, through its Egyptian-African Telecom Regulations Training Center (EG-ATRC) at its premises in the Smart Village.

The training objective is to allow participants to access to relevant, useful and actionable resources to enhance their cybercapacity, and ultimately their national capacity and skills through a set of cybersecurity/regulatory on Job Training and educational activities that are tailored to the needs of LDCs as highlighted in the latest iterations of the Global Cybersecurity Index (GCI) and Regulatory Tracker. These activities are aimed at creating multidisciplinary skills including engineering, technical, organizational, lawful, incident response, etc.

Upon completion of this training, participants will be able to:

- Apply the theoretical and practical knowledge of IT and cyber security and security methods for computer, network, and electronic communication.
- Have an overview of the core components of what it takes for a country to become cyber-prepared, highlighting the critical aspects that governments should consider when developing their national strategies and implementation plans.
- Implement the essential elements required when developing a National Cyber Incident Response Plan and the best practices for disaster recovery planning.

- Handle cyber incident response activities, incident resolution approaches and the good practices of information sharing, and effective communication related to incidents of national significance.
- Testing, implementation, and maintenance of the National Cyber Incident Response Plan.
- Apply Forensic investigation scenarios that enable participants to acquire hands-on experience on various forensic investigation techniques and standard tools necessary to carry out a computer forensic investigation successfully.

Due to the limited seats, we kindly invite your entity to send nominations for this training program and to register online through the event's link, no later than **5 Dec. 2022**. Detailed information on this training is described in the training outline as well as the Practical Information, which can be downloaded from the event's link ([Click here](#))¹.

NTRA will offer a limited number of sponsorships for accommodation for participants, for those interested countries should communicate with Ms. Maha Badr, Manager of EG-ATRC at NTRA, email: (EG-ATRC@tra.gov.eg), no later than **5 Dec. 2022**.

Should you require any further information on this program, please do not hesitate to contact: Eng. Ahmed ElRaghy, Senior Advisor at ITU Arab Regional Office, email: (Ahmed.Elraghy@itu.int) and Ms. Maha Badr, Manager of EG-ATRC at NTRA, email: (EG-ATRC@tra.gov.eg).

Looking forward to your active participation in these important events.

Yours faithfully,

Eng. Hossam Abdellah ElGamal

Executive President
Telecommunication and Post Regulatory Authority
Egypt

Adel M. Darwish

Regional Director
