

Dr. Peter Lovelock

Peter Lovelock is Director of the Technology Research Project *Corporate* (TRPC), an IT and telecommunication-based think-tank with offices in Singapore, Hong Kong and China. He brings more than 25 years experience in telecoms, technology and media to these undertakings, including regulatory assessments, implementation and execution projects, and due diligence and market entry strategic guidance projects throughout Asia.

The TRPC provides in-depth research and consulting services to companies, as well as to institutions such as the World Bank and the IFC, the ITU, ASEAN and APEC, the European Commission, and for regulators in Hong Kong, Indonesia, Japan, Thailand, Taiwan, Singapore, Vietnam, Sri Lanka and India.

In recent years, Peter has provided advice to Microsoft on cloud computing, eBay on eCommerce and payments, and the Singapore Government on ASEAN's ICT Masterplan, worked with companies such as BTPN Bank in Indonesia and Yellow Pages to establish new digital businesses; provided regulatory and broadband advice to the governments of India, Indonesia, Singapore, Japan, Mongolia, and Kazakhstan; worked on regional restructuring projects, as well as authoring reports on global data networks and bandwidth developments, broadband wireless access technologies and market growth, social media and multimedia strategies, mobile payments and authentication, and convergence policies in Japan, Singapore, China and Australia, among others.

Dr Lovelock is a strategic advisor to the Yellow Pages group, the ADB, and ICANN, as well as a senior advisor to Microsoft, and sits on the board of the International Institute of Communications (IIC). TRPC provides Executive Director and Secretariat support to the Asia Cloud Computing Association (ACCA) among others.

Between 1999 and 2004 Peter built and ran China's leading IT research consultancy. Prior to that, Peter worked as a senior policy analyst at the ITU in Geneva.
