

ITU at a glance

*Getting to know the United Nations specialized agency
for information and communication technologies*

Our governance

ITU: Elected Officials (2015-2018)

Mr. Houlin Zhao
ITU Secretary-General

Mr. Malcolm Johnson
ITU Deputy Secretary-General

Mr. Brahim Sanou
Director
Telecommunications Development Bureau

Mr. Francois Rancy
Director
Radiocommunications Bureau

Mr. Chaesub Lee
Director
Telecom Standardization Bureau

01 | *About us*

what we do

Meet us

What we do

'Committed to
Connecting the World'

3
Sectors

ITU Radiocommunication

Coordinating radio-frequency spectrum and **assigning** orbital slots for satellites

ITU Standardization

Establishing global standards

ITU Development

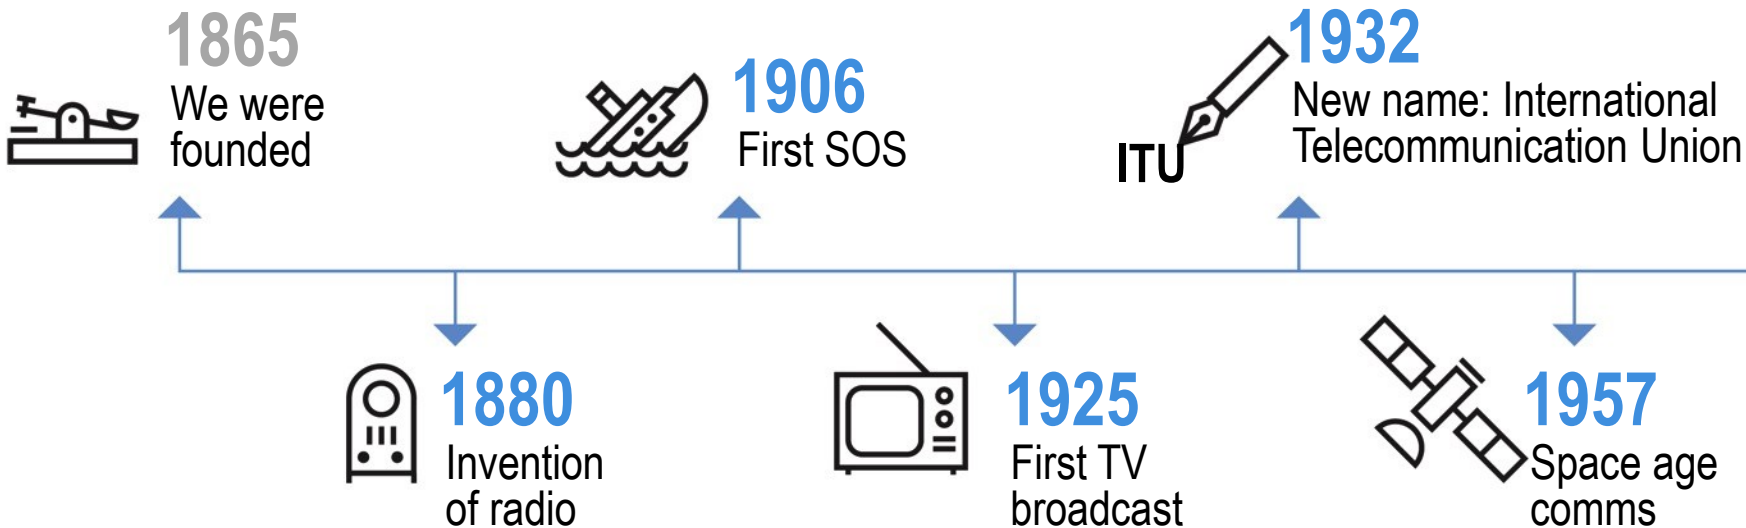

Bridging the digital divide

04 | *Meet us*

who are we?

WHO ARE WE?

ITU is the United Nations
**specialized agency for
information and communication
technologies (ICTs)**

Promoting global
collaboration for
a **connected
world**

WHO ARE WE?

Our numbers

193

MEMBER
STATES

700+

PRIVATE SECTOR
ORGANIZATIONS

90+

ACADEMIA
MEMBERS

WHO ARE WE?

Organization

3
SECTORS

Each sector has separate mandate, but all work cohesively towards connecting the world

05 | *Meet the sectors*

ITU-R

/RADIOCOMMUNICATION/

**KEY
ROLE**

Global management of **radio-frequency spectrum and satellite orbits**

Ensures equitable and **efficient use of radio-frequency spectrum** to accommodate huge growth in demand for spectrum

ITU-R **coordination of orbital slots** prevents radio interference **preventing malfunctioning** of satellite services

MAJOR ACHIEVEMENTS

IMT-2000 and **IMT-Advanced** technical frameworks underpin mobile 3G and 4G networks

Recommendations on **3DTV**, **Ultra High Definition TV (UHDTV)** standards

Excellent track record in maintaining harmonious **satellite coordination**

WORLD RADIOCOMMUNICATION CONFERENCE (WRC)

Reviews and revises the Radio Regulations

Excellent track record in maintaining harmonious **satellite coordination** and ensures reliable radio services remain **available at all times**

Addresses all radiocommunication matters
of a global nature

Reviews and instructs the Radio
Regulations Board (RRB) and the
Radiocommunication Bureau

05 | *Meet the sectors*

ITU-T /STANDARDIZATION/

**KEY
ROLE**

Crucial role in **defining operation and interoperability of technologies** that underpin global communications network

200 - 300 new global standards approved every year, with over **4,000** in use today

Standards enable global communications by ensuring ICT networks and devices **speak the same language globally.**

MAJOR ACHIEVEMENTS

Optical Core Networks

40GB per second

Coming next:
Beyond 100GB
per second

G.fast

New broadband
standard
designed to
deliver access
speeds of up to
1Gbit/s over
existing
telephone wires

H.264

The Prime Time
Emmy award
winning **video**
codec and its
successor, H.265

WORLD TELECOMMUNICATION STANDARDIZATION ASSEMBLY (WTSA)

Sets the overall direction and structure for ITU-T, in every 4 years – next one in Q4 2016

Establishes ITU-T Study Groups and approves top **priorities** and **work programmes**

A composite image featuring a woman in a green headscarf talking on a mobile phone in the background, and a child in traditional beaded headgear in the foreground. The background is a desert landscape under a clear blue sky. A semi-transparent green rectangle is overlaid on the left side of the image, containing text.
