

Ethan Lavan is Director of Orbital Resources at Eutelsat since 2010. Prior to joining Eutelsat, Lavan was responsible for regulatory policy and management of service and spectrum licences at global level for Inmarsat Global, the UK-based mobile satellite services operator, which he joined in 2002. From 1989 to 2001, he held various responsibilities at Alcatel Space Industries, including regulatory standards coordination for the SkyBridge broadband satellite programme.
