

## **João Olívio Freitas**

Executive Technical Director  
Timor-Leste National Communications Authority

Mr. João Freitas received Bachelor of Engineering degree in Electrical and Electronics from Atma Jaya Catholic University, Jakarta, Indonesia in 2009, then Master of Engineering degree in Telecommunications from the University of Melbourne, Australia in 2012.

Before coming to joining Timor-Leste National Communications Authority, he has been working for different institutions and agencies including SingTel Optus Australia as an Associate Network Engineer (in an internship program), Timor-Leste Ministry of Transport and Communications (ICT Consultant), and Information System Manager for US Embassy and Australian Embassy in Timor-Leste respectively.

Currently Mr. Freitas is the Executive Technical Director for Sector Regulation in Timor-Leste National Communications Authority. He also sits on the Board as one of the Board Members since 2015.
