Precious Metal Concentrations

- NZ Mine
 - Gold 2.9 ppm
 - High Quality 8 – 10 ppm
 - Low Quality 1 – 4 ppm
 - Silver 30 ppm
- Landfills
 - Gold 10 – 1,600 ppm
 - Silver 200 – 20,000 ppm
 - Palladium 5 – 970 ppm

Extended Producer Responsibility vs Product Stewardship

EPR:

You make it, you deal with it

PS:

Everyone shares the gain, everyone shares the pain

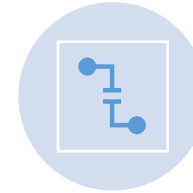

Legislative Tools

Product Ban

Material Ban

Disposal Ban

Take Back
Services

Refundable
Deposits

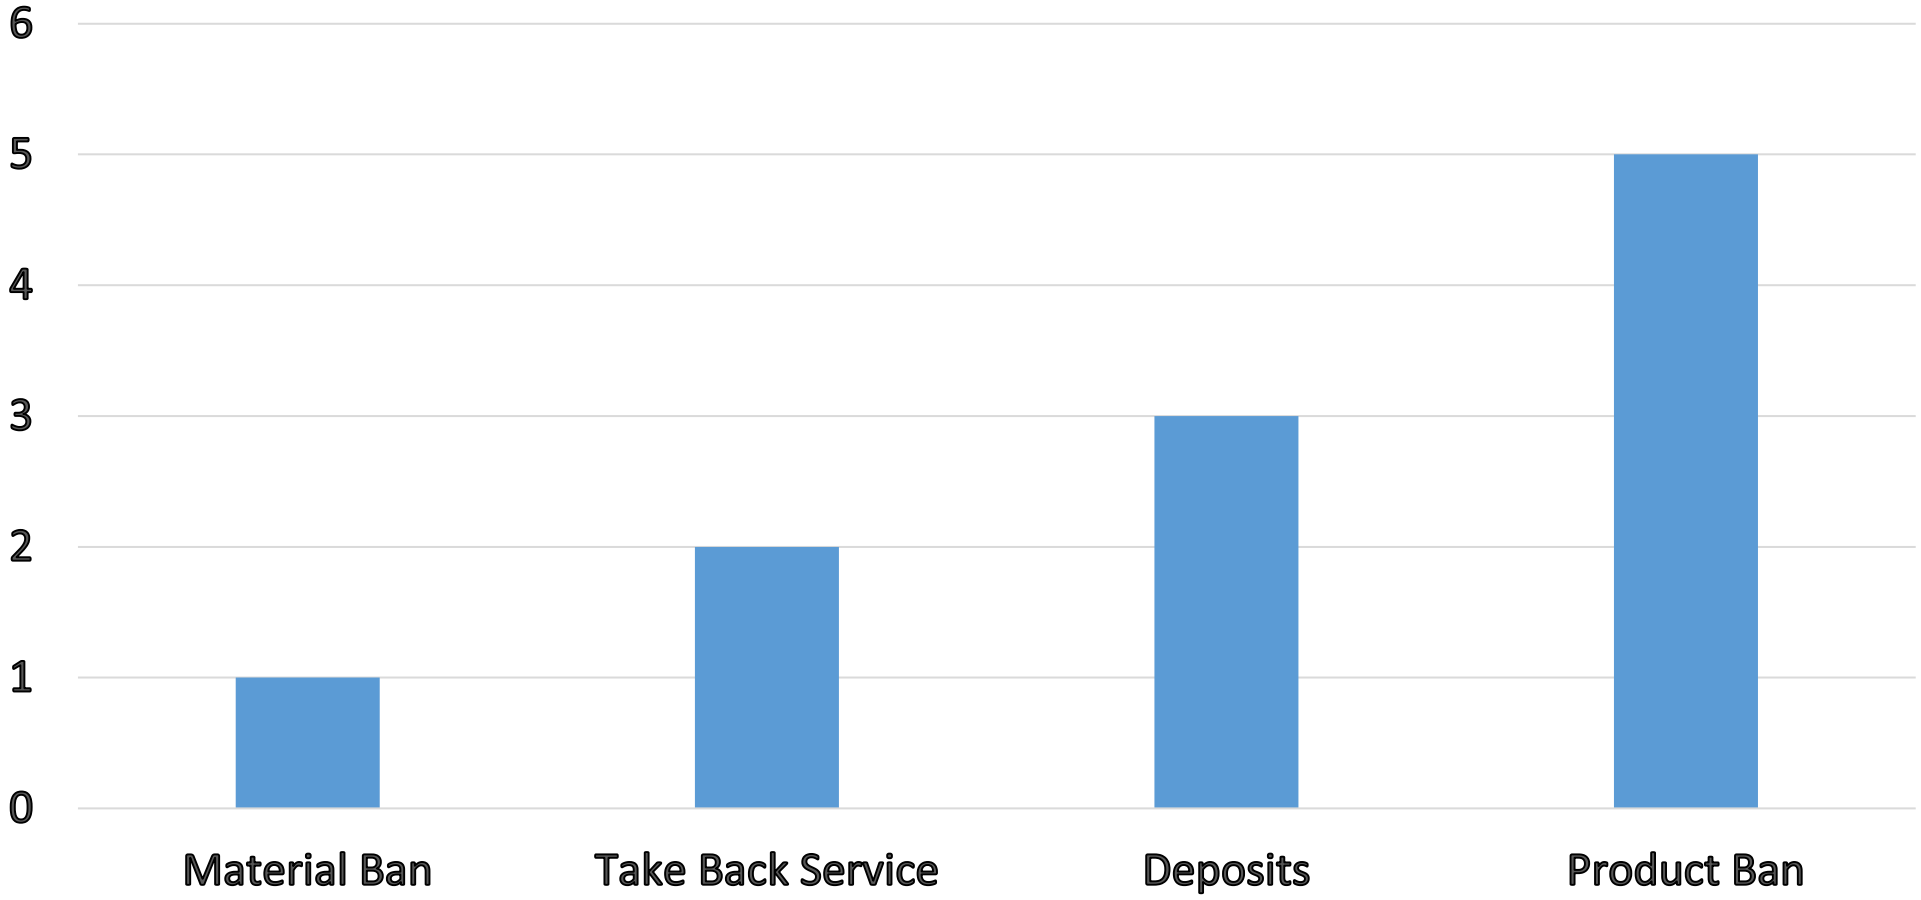

Product
Labelling

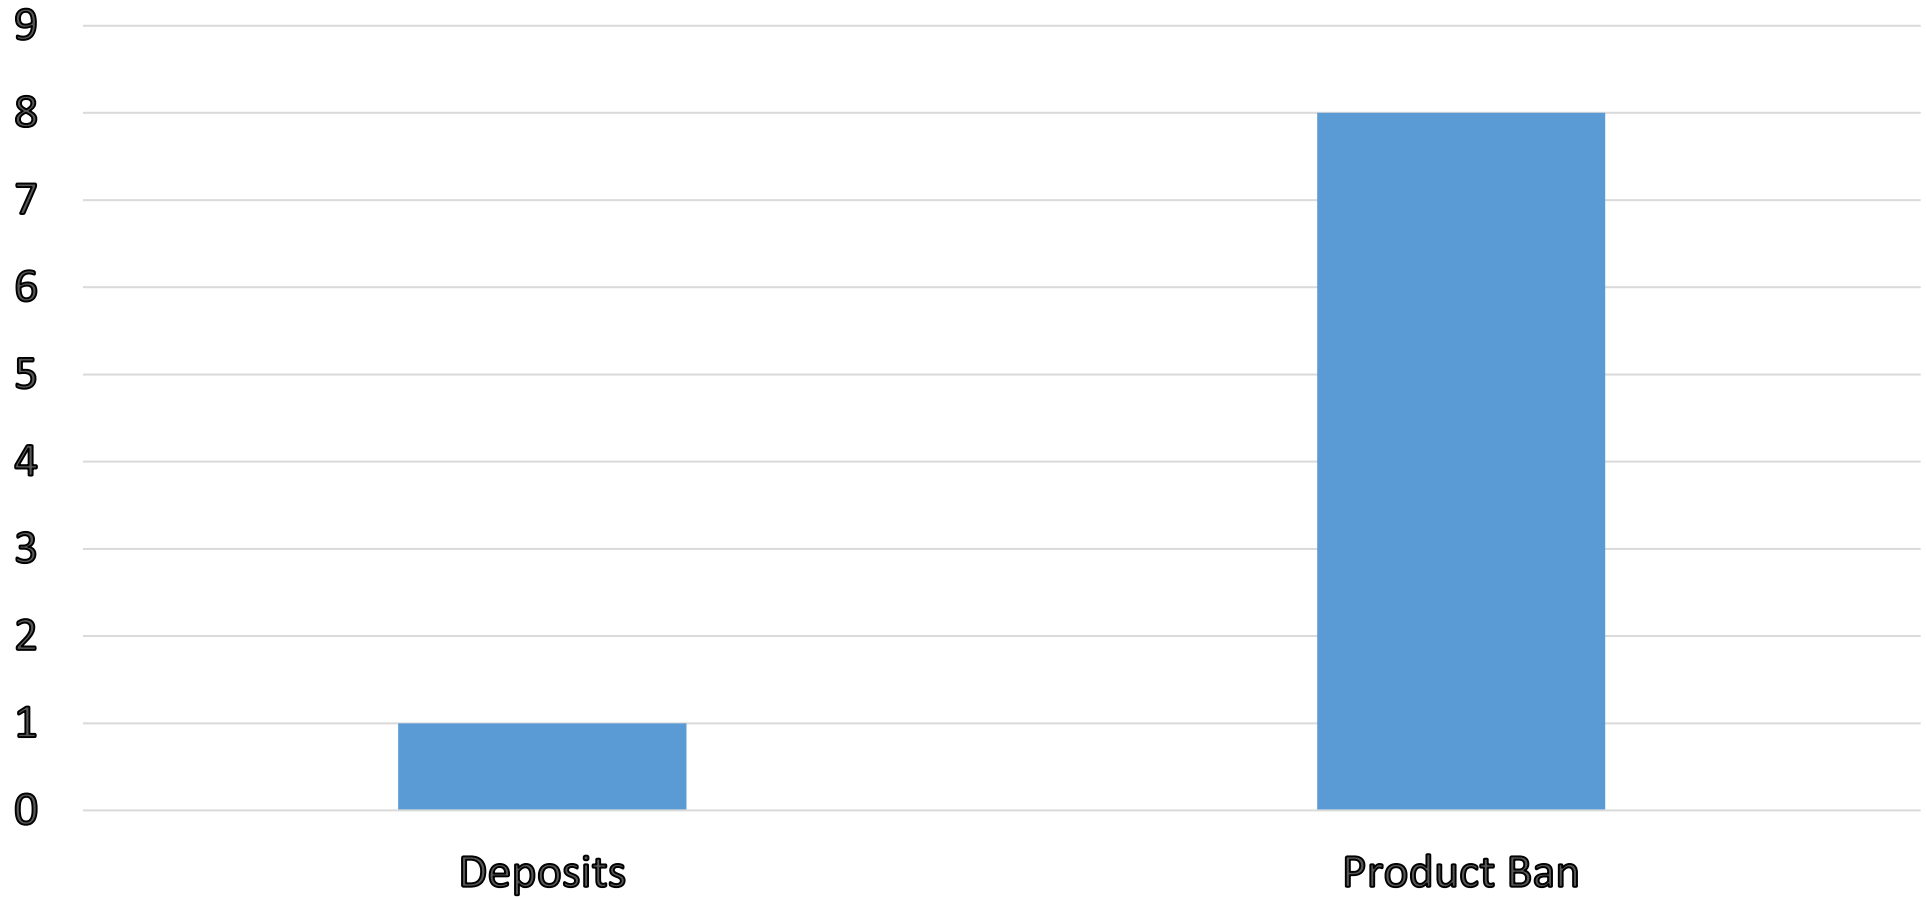

Quality
Standards

Asian Legislation

Pacific Islands Legislation

Opportunities in Diversion

Reduced
environmental
impact

Economic gain

Jobs

Gaps

- Limited internal programmes.
- Little data on quantities.
- No company/country responsibility.

Interventions

Development of guidelines, policies and legislative frameworks

Integrated approach – exporters and importers

Regional pilot programmes.
