

OpsSmart

Food Safety, Management & Compliance Through Traceability

Worapat Sasibut, Project Manager
OpsSmart Technologies (Thailand) Co., Ltd.
worapats@opssmartglobal.com

OpsSmart

- Food traceability and quality assurance solution
- Over 10-year experiences in food safety and traceability business
- US and Thailand operational offices
- Full stack supply chain customers

Challenges

- Complexity and changes in supply chain
- Distance among stakeholders
- Many documents and data
- Lacking of IT professionals that understand business area
- Many systems involved
- Effort to identify issues, stop damages or reduce risks
- High price software and services
- Consumer confidence

Solutions

- Web application – cloud enabled
- Configurable software
- Integration
- Professional services
- Comply to standards and regulations
- Communication channel to consumers

Case Study - Betagro

- Thai multi-billion dollars meat processor
- Many farms, processing plants and departments
- High complexity production processes
- Difficulty of analyzing data
- Many hardware and software systems implemented

Case Study - Tesco Lotus

- Many food suppliers and products
- Ensure product safety and quality
- Improve consumer confidence
