

Brief Biodata

Presently, I work as the Managing Director of Tene Agricultural Solutions Pvt Ltd., Bengaluru. Tene-ag is into developing IT products tailored to meet the requirements of the agricultural sector. Team Tene-ag is a blend of both Agri and IT professionals, and works in collaboration with the State Agricultural Universities and Extension service providers in India. Among other things, I design IT products.

Previously, I was working as Scientist with the Govt. of India for over 15 years. My research revolved around insect-plant interactions, population ecology of phytophagous insects and biodiversity assessment.

I am trained in Agriculture with specialisation in Agricultural Entomology.
