

TATA COMMUNICATIONS

# CDN NETWORKS FOR MEDIA DELIVERY AND DISTRIBUTION

TATA COMMUNICATIONS

# KEEPING YOUR CONTENT FLOWING

## TATA COMMUNICATIONS CDN

Whether you're a Media House or an Enterprise:

- Your content is the most valuable thing your business possesses. However there is little point in creating content if it cannot flow freely
- Its value is only realized when it can be delivered to any user, on any device, in any location, whilst providing a superior experience
- Your CDN should allow your content to flow around the globe at light speed

**YOU WANT YOUR CUSTOMERS TO HAVE AN**  
**UNBEATABLE &**  
**SEAMLESS DIGITAL**  
**EXPERIENCE**

**BUT THE WORLD AROUND US IS CHANGING RAPIDLY AND  
SO IS THE WAY PEOPLE CONSUME CONTENT.**

### **Enterprise 2.0**

- **VIDEO IS MANDATORY**
- **WEBSITE IS A GATEWAY TO YOUR BRAND**
- **BYOD IS NOW THE NORM**

### **Media 2.0**

- **Any Content, Any Device, Any Location**
- **Instant Gratification**
- **Actionable Analytics**

## MEDIA CUSTOMER EXPERIENCE

YOUR CUSTOMER IS ENGAGING WITH YOU DIGITALLY

Digital acquisition

Digital engagement

Digital retention

### CUSTOMER EXPERIENCE IS CRITICAL

This typically translates to  
**User Experience**

# YOU NEED TO KEEP UP WITH THESE **CHANGES WHILE AT THE SAME TIME ENSURE:**

- 1. Revenue Maximization through:**
  - a. Better User Experience
  - b. Greater Stickiness
  - c. Decreased Abandonment
- 2. Cost Minimization through**
  - a. More efficient infrastructure
  - b. Greater Scalability
  - c. Improved Origin Server offload

## COMPLEXITY IN TECHNOLOGIES AND ENDPOINTS IN PURSUIT OF MAXIMIZING MEDIA EXPERIENCE

Media houses use **many applications** to engage with customers. Each is increasingly rich and complex

**Mobile Networks** may be fluctuating and unreliable

The **variety and complexity of devices** to optimize

**Security Threats, Content theft, piracy** are ever increasing

**CREATING, DELIVERING AND  
MANAGING THE  
DIGITAL EXPERIENCE  
IS NO EASY TASK!**

**TCL HAS EXTENSIVE CAPABILITIES TO HELP YOU DELIVER**

- Any content
- To any device
- Over any connection
- In any location
- No matter how much your traffic spikes

## HOW TO SOLVE THIS

### SCALE

- ✓ Infrastructure
- ✓ Architecture

### SPEED

- ✓ Caching techniques
- ✓ Media capabilities

### SECURITY

- ✓ Platform related
- ✓ Application related

## INFRASTRUCTURE REQUIREMENTS OF A ROBUST CDN ARCHITECTURE

### Super Nodes

A set of super nodes consisting of racks of servers, having HA and redundancy.

### Tier 1 ISP

Super nodes riding on a Tier 1 backbone with huge IP capacities

### Multi tiered caching

Parent and child tiers to reduce offload

### Anycast

Any cast IP leveraging the strength of BGP to resolve closest edges

### Integrations

Tightly integrated to security and hosting offerings

SPEED @ SCALE WITH TATA

# TATA CDN

is based on a Tier 1 ISP

is built up of SUPER NODES

has a TIERED ARCHITECTURE

uses ANYCAST

WHY TATA  
COMMUNICATIONS

We own data centres and colocation centres with over one million sq. ft. of space

Our customers can reach **99.7%** of the global GDP using our network and services

Over **25%** of the world's Internet traffic uses our network

We're the world's **fifth largest** wholesale Internet provider

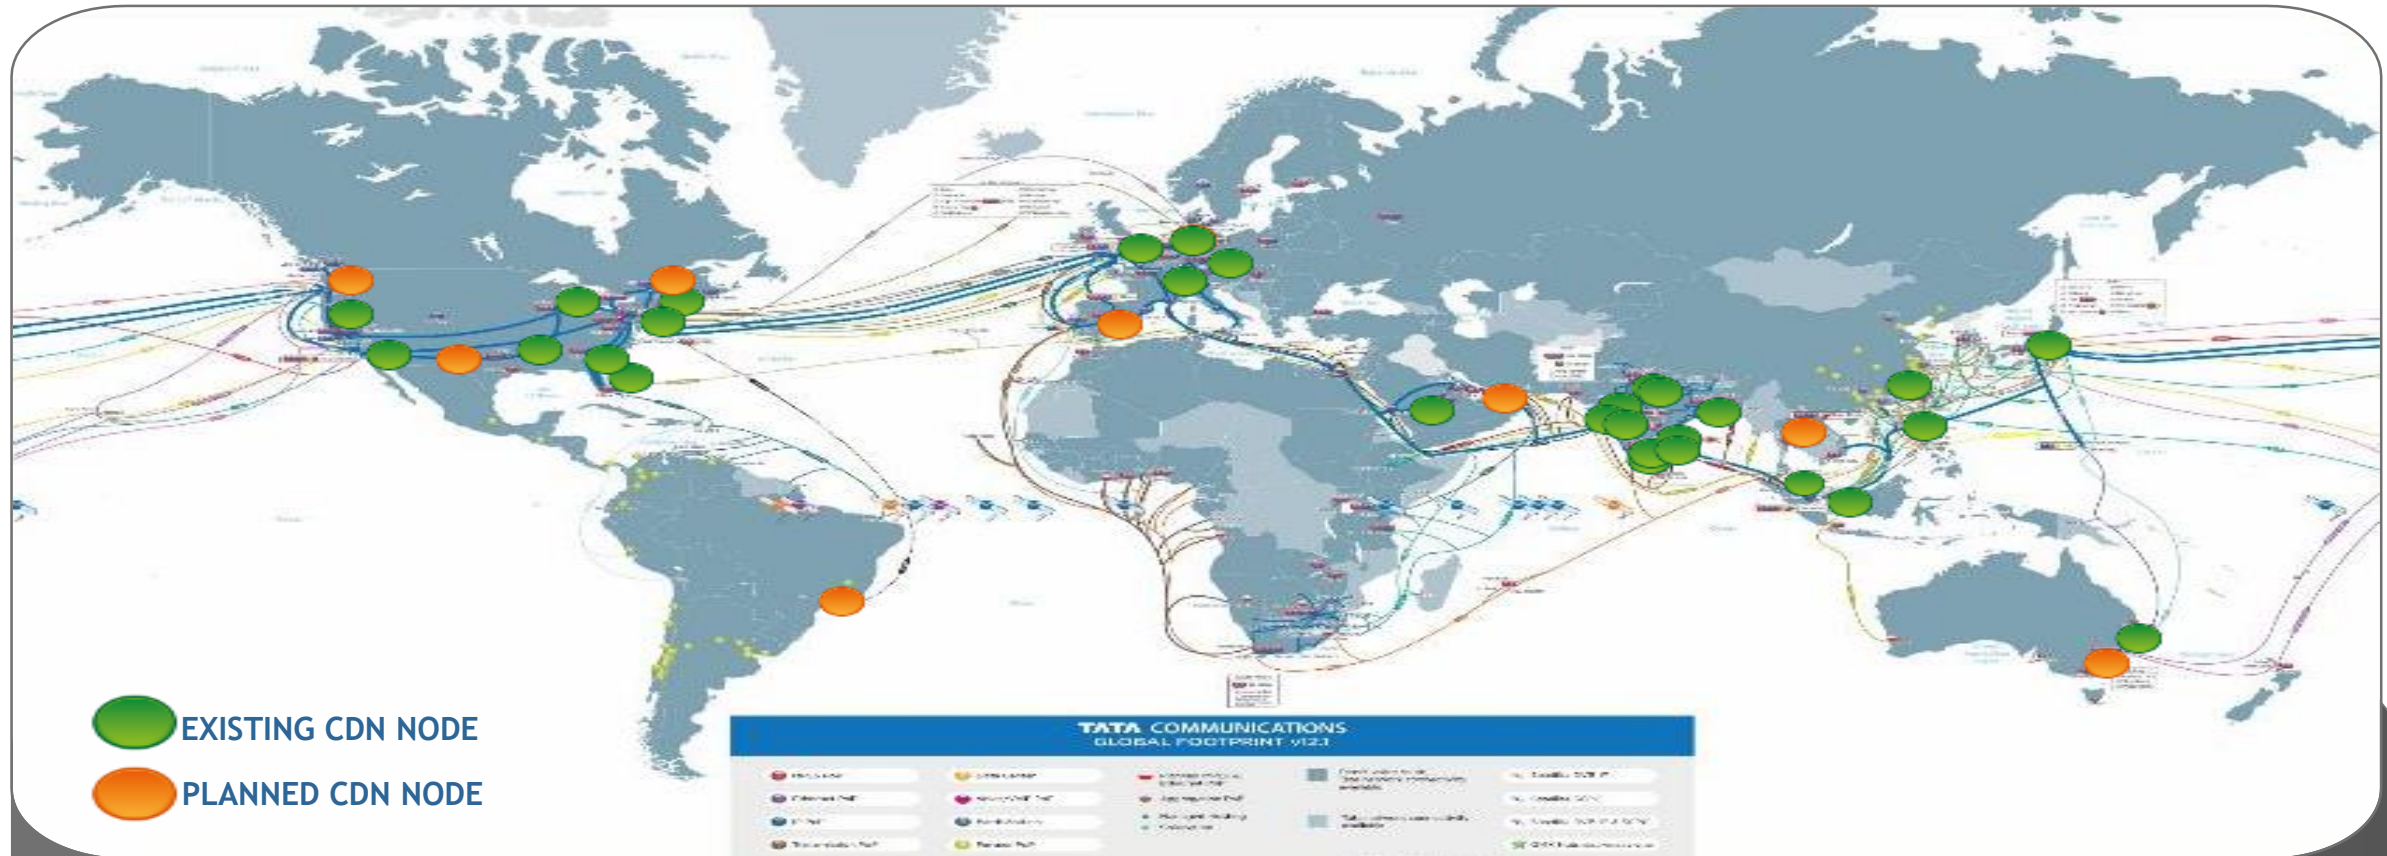

We've invested **\$1.5 bn** Building the only wholly-owned subsea cable network that circles the globe

**Close to 100** of the world's mobile network operators use Our network

# TCL CDN NETWORK MAP

US, Europe, Middle East, India, APAC

# TATA CDN OFFERING

APIs

Live streaming  
VOD &  
Downlinking

App delivery  
and large File  
downloads

Whole site  
acceleration

Image optimization  
and dynamic  
acceleration

Content security

Multi-screen  
delivery

Flexible cloud  
storage

24x7x365 live  
support

Business intelligence  
and analytics

## Downlink and Delver

- Downlink feed from World class Teleport Downlink facility
- Do Live Transcoding , transmuxing and delivery
- High Redundancy
- 24X7 Monitoring and Support

## Transcoding

- VOD transcoding into various formats
- Multiple Profile based on end user network condition , devices and type of content
- Multiple Protocol supported
