# Developing an *intelligent* ‘*connected*’ Villages- 5 G utilisation

“Use of Technology to improve the quality of life of the people we serve”

# ITU Innovation Center

The Innovation Centre will bring together the main stakeholders of the digital innovation ecosystem (entrepreneurs, finance, support networks, public sector, academia and private sector) and serve as a global centre to reduce technological inequities.

It will also allow for spotlighting of the Indian innovation ecosystem through South-South and Triangular cooperation, while supporting ITU's mission with new capabilities and accelerating digital development.

## Areas of Focus:

The Innovation Centre will provide work on the following areas of focus:

- Connectivity
- Digital Applications and Services
- Digital Innovation Ecosystems
- Digital Public Goods
- Other areas to be identified over the course of the IC workplan implementation.

Thank you
