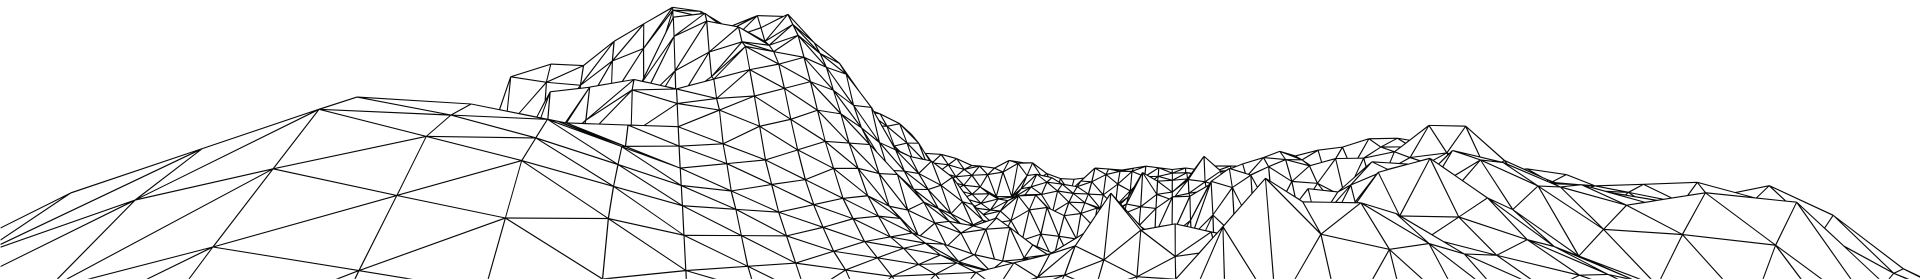
MINISTRY OF ECONOMY AND SUSTAINABLE DEVELOPMENT OF GEORGIA

GEORGIA'S INNOVATION & TECHNOLOGY AGENCY

Establishment and the development of the innovation and technology ecosystem in Georgia



.

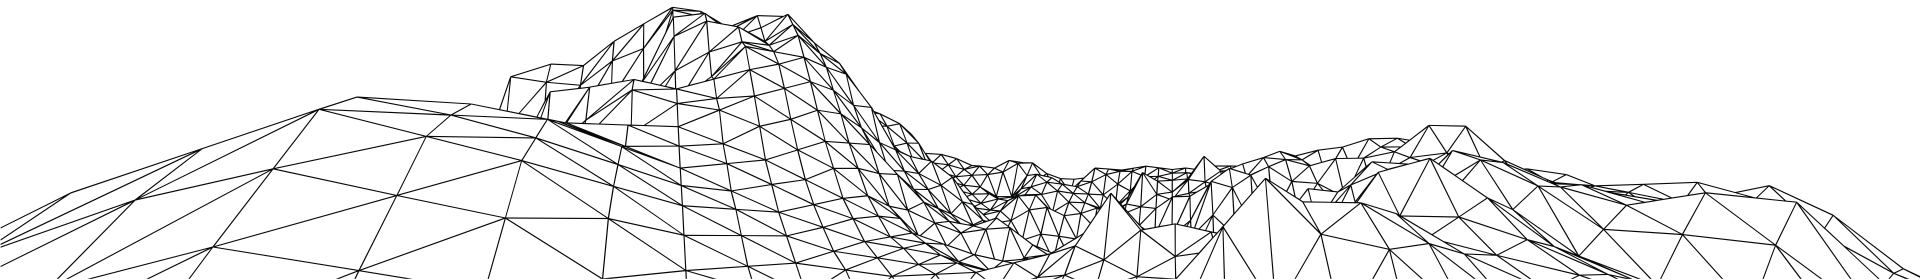
GEORGIA'S INNOVATION & TECHNOLOGY AGENCY

GITA Vison

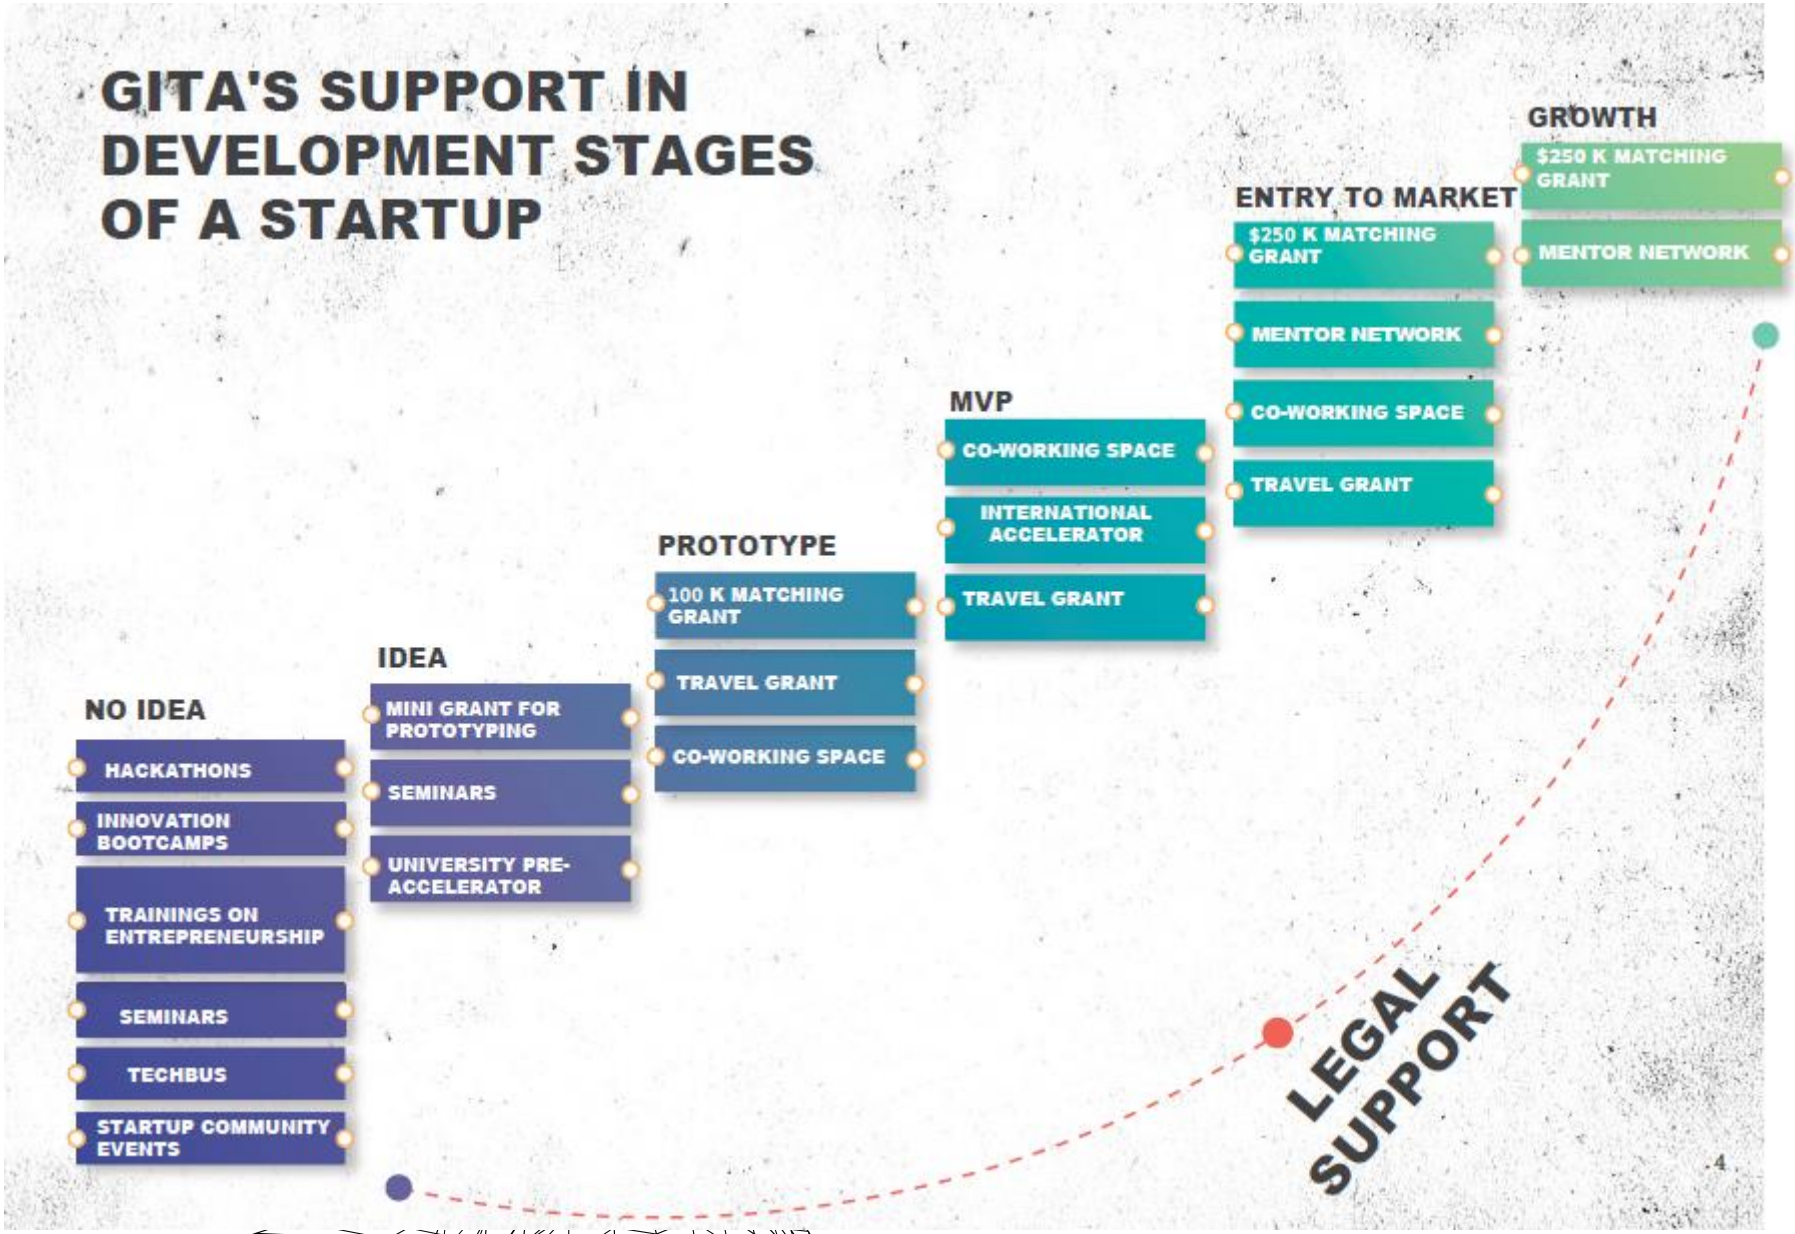
GITA under the supervision of the Ministry of Economy and Sustainable Development of Georgia is a main coordinator and mediator in the process of implementing national innovation policy.

The main mandate of GITA

- ❑ create entrepreneurial ecosystem and coordinate its development process;
- ❑ stimulate innovation, modern technologies and R&D, facilitate commercialization and usage of R&D;
- ❑ Support to innovative Start-ups and their competitiveness growth, facilitate cooperation between the representatives of scientists and business, promote digital literacy all over the country



GITA'S SUPPORT IN DEVELOPMENT STAGES OF A STARTUP



Technology Transfer Pilot Program TTPP

Objectives

The objectives of the program are :

1. Build capacity of GITA and public partner organizations in technology transfer and commercialization process, from the initial disclosure until deal closure;
2. Test whether inventions coming from public universities and research institutions have commercialization viability;
3. Facilitate contracting between private or public customers and scientific teams.

Industrial stakeholders (TTPP)
