
Web Dialogue: ITU-D Study Groups Public Webinar on ICTs for climate action and rebuilding greener economies after COVID-19

SPEAKER BIO

BIOGRAPHY

Ms Sara Venturini leads the GEO Secretariat's work to advance the use of Earth observations in support of climate action by member countries and partners.

She has over 10 years' professional experience collaborating with UN bodies and advising governments and organisations on developing climate change adaptation policies, accessing climate finance, and participating in multilateral negotiations under the UNFCCC and the IPCC.

She has worked with countries in the Caribbean and Indian Ocean, the Western Balkans, Central Asia, the Middle East, and Europe.

She holds a PhD in Climate Change Science and Management from Ca' Foscari University of Venice, Italy.
