

Certification bodies - Concept, requirements, activities, human capacity, market analysis and regional references

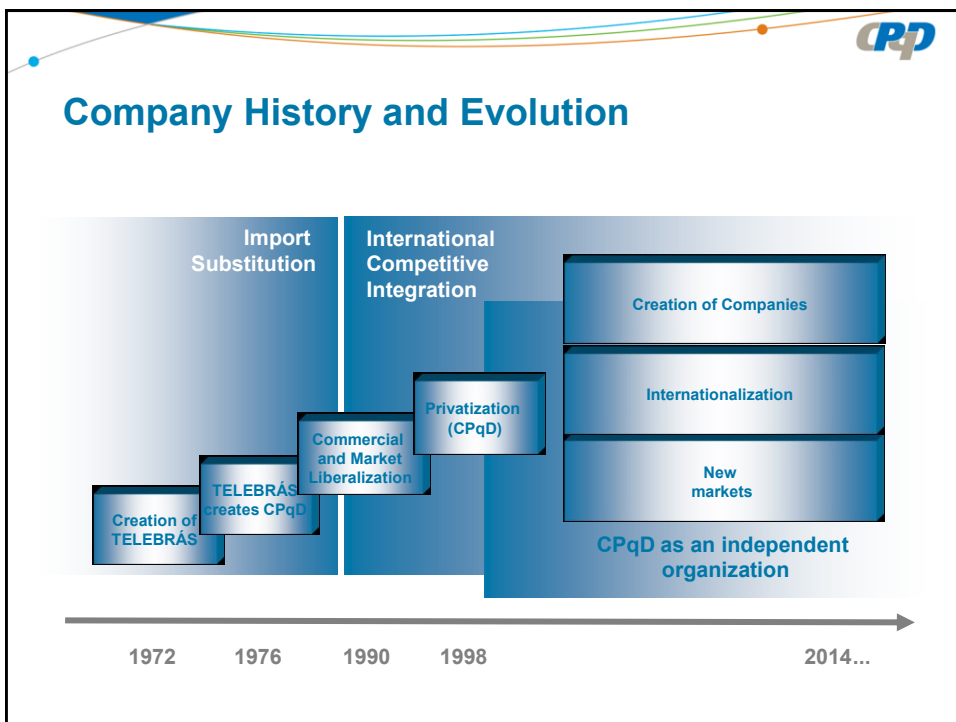

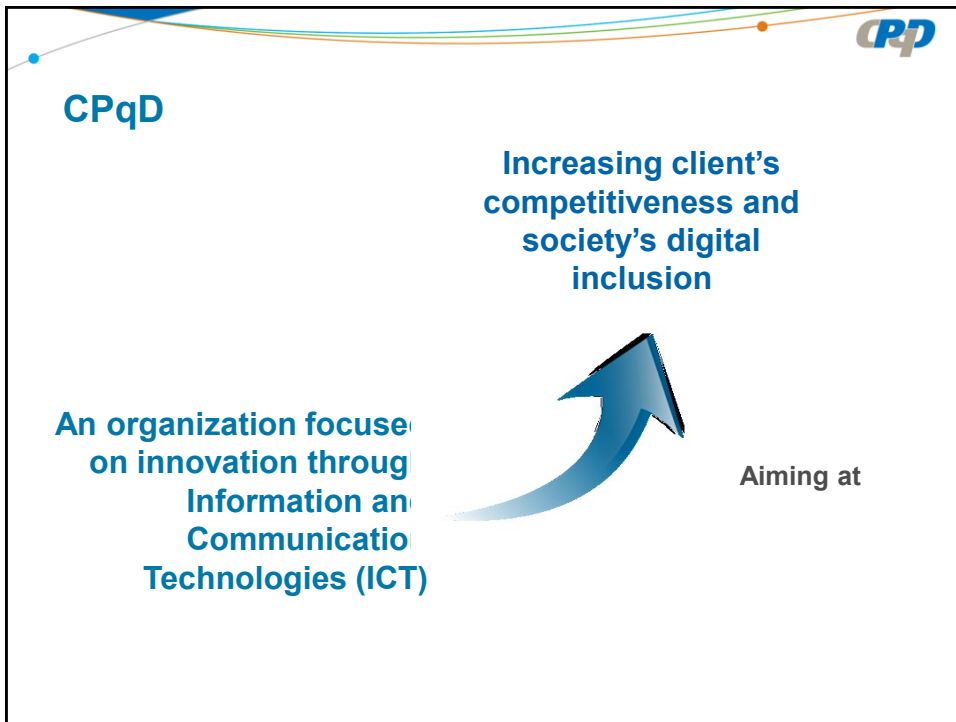

Péricles de Paiva Teles, CPqD - Brazil
Workshop - Conformity and Interoperability assessment study for Caribbean Region
St. Augustine - Trinidad and Tobago, 2 - 4 December 2014

TURNING INTO REALITY

Agenda

- CPqD
- Brazilian certification process
- OCD recommended structure
- Brazilian Market
- Regional references

CPD

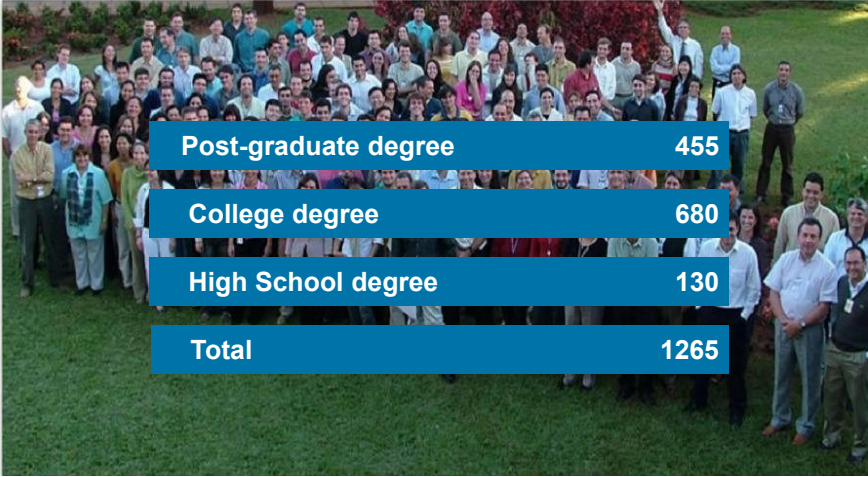

Benefits for Society

- Intellectual Capital
- Job Creation
- Bargaining Power
- Digital Inclusion
- Wealth Generation

CPD

Our Team

Post-graduate degree	455
College degree	680
High School degree	130
Total	1265

Certifications

CMMI Level 3

ISO 9001:2008 & ISO 14001:2004

OCD – Designated Certification Body
(by Anatel – the Brazilian Regulatory Agency for Telecom)

Accredited laboratories (Inmetro)

457 National patent applications
 253 International patent applications
 1.154 Copyrighted software programs

Updated 10/13/2014

CPqD Premises

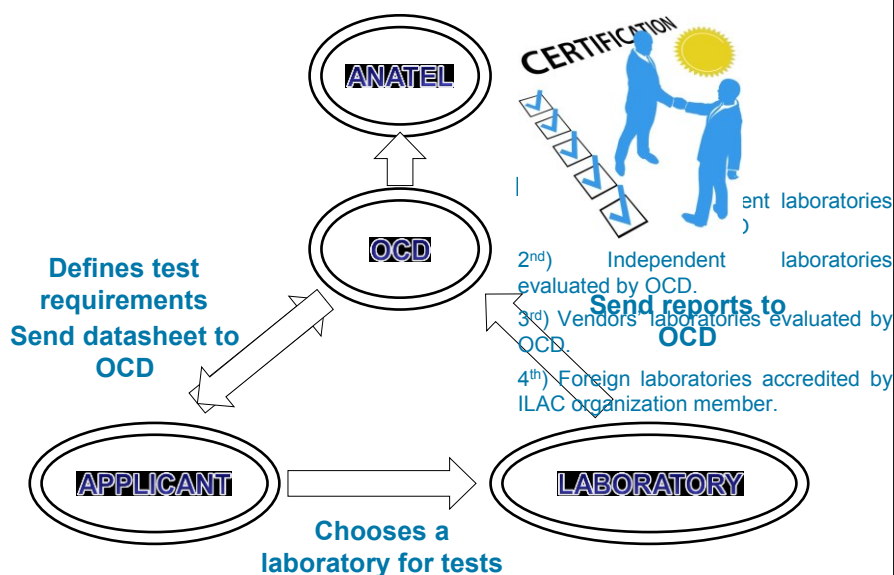

Brazil's certification process

- Resolution 242 (November, 2000) - General rules for certification and approval of telecommunication products
 - Mandatory for any telecommunication product. Defines all players, including the OCD.
- Resolution 323 (November, 2002) – Standard for certification of telecommunication products
 - Defines the process of product certification.

Brazil's certification process

Conformity Certification – main infos

Certificado de Conformidade XXXX

O CPQD certifica que o produto descrito a seguir está em conformidade com os documentos normativos indicados.

Produto: asdfasdf
Modelo: ASDFASDFASDF

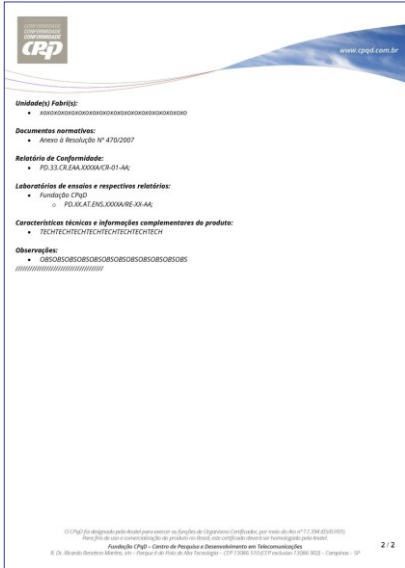

Fabricante: XXXXXXXXXXXXXXXXXXXX
Av. XXXXXXXXXXXXXXXXXXXX
NNNN-NNN - XXXXXXXX - YY

Solicitante: XXXXXXXXXXXXXXXXXXXX
Av. XXXXXXXXXXXXXXXXXXXX
NNNN-NNN - XXXXXXXX - YY P

Certificação inicial: 04 de dezembro de 2014
Acompanhamento até: 04 de dezembro de 2015

Péricles de Paiva Teles
Gerente de Certificação
Emissão 04 de Novembro de 2014

O CPQD foi designado pelo Anatel para exercer as funções de Organismo Certificador, por meio do Anel nº 17.094.02/001, para fins de emissão e acompanhamento de produtos de acordo com o certificado de homologação pelo Anatel.
Fundação CPQD - Centro de Pesquisa e Desenvolvimento em Telecomunicações
R. Dr. Ricardo de Almeida Mattos, s/n - Parque II de Alto Tecnologia - CEP 13068-510 (COP) - Campinas - SP 1 / 2

Unidade(s) Fabrica:

- XXXXXXXXXXXXXXXXXXXXXXXXXXXX

Documentos normativos:

- Anexo à Resolução Nº 470/2007

Relatório de Conformidade:

- PS.EI.CI.SIA.XXXXXX-01-AA

Laboratório de ensaios e respectivos relatórios:

- Fundação CPQD
 - PS.06.AT.ENS.XXXXXX-00-AA

Características técnicas e informações complementares do produto:

- TECHNICAL INFORMATION

Observações:

- XXXXXXXXXXXXXXXXXXXXXXXXXXXX

O CPQD foi designado pelo Anatel para exercer as funções de Organismo Certificador, por meio do Anel nº 17.094.02/001, para fins de emissão e acompanhamento de produtos de acordo com o certificado de homologação pelo Anatel.
Fundação CPQD - Centro de Pesquisa e Desenvolvimento em Telecomunicações

Key points

- Minimum technical requirements for product qualification;
- Product classification divided in 3 categories:
 - Cat I – for end user application;
 - Cat II – for professional application and use of radio spectrum;
 - Cat III – for infrastructure application.
- Safety concern for end user;
- Process defined by a Governmental agency, supported by private foundations/companies, working as certification bodies.

ANATEL
Anatel: HHHH-AA-FFFF

Benefits of certification process

- Assure minimum quality and security for user;
- Maintenance of telecommunication structure;
- Knowledge development as a result of international experience + local research.

Structure required for a certification body

- Technical team with high background on current and state-of-art technologies;
- Combination of different profiles and experience levels (long-term experts & New engineers);
- Time-to-market allied with quality;
- Organization structure based on process mapping.

Brazilian Market Analysis

- More than 3.800 process until Oct/14
 - 2.100 new products certified this year
 - More than 4.700 process in 2013
 - 3.100 new products in 2013
-
- Estimated values related to certification+tests on Brazilian Market:
 - Over USD 22 Million dollars per year.
 - High competition among companies
 - Challenge on offering commodities

Latin America Certification overview

- Argentina
 - CNC (Comisión Nacional de Comunicaciones)
 - Certification based on type approval

Latin America Certification overview

- Chile
- SUBTEL (Subsecretaria de Telecomunicaciones)
 - Certification based on external reports

Latin America Certification overview

- Colombia
- CRC (Superintendencia de Telecomunicaciones)
 - Satellite equipment, product connected to PSTN and cellular products.
Other RF products aren't homologated

Latin America Certification overview

- Ecuador
- SUPATEL (Superintendencia de Telecomunicaciones)
 - certification using in-country tests

Latin America Certification overview

- Mexico
- COFETEL (Comisión Federal de Telecomunicaciones)
 - NOM NYCE certification

Final remarks

- Certification process can bring benefits for all parts
- Industry: better competition, privileges for those who are legally established in Brazil
- Society: security and quality of products
- Government: management of current technologies and products available. Network maintenance.
