Space WISC

Attila Matas (BR/SSD/SPR)

What is SpaceWISC?

- Space **W**eb-based **I**nterface for **S**ecure **C**ommunication

- An online submission and publication system **<u>ONLY</u>** for **API**s subject to Coordination procedure (Sub section-IB of Article **9** of the RR), in response to **Resolution 908** (WRC-12)

> **Updated ITU Rules of Procedure on Receivability**
> *In case of API on satellite networks or satellite systems that are subject to coordination procedure under Section II of Article **9**, submission shall be made exclusively via the ITU web interface SpaceWISC, available at https://extranet.itu.int/itu-r/spacewisc instead of e-mail or surface mail. (MOD RRB14/66)*

- More info and hands on during the SpaceWISC workshop **on WED 10.12.2014 at 10:45 in Salle C (ITU Tower)**
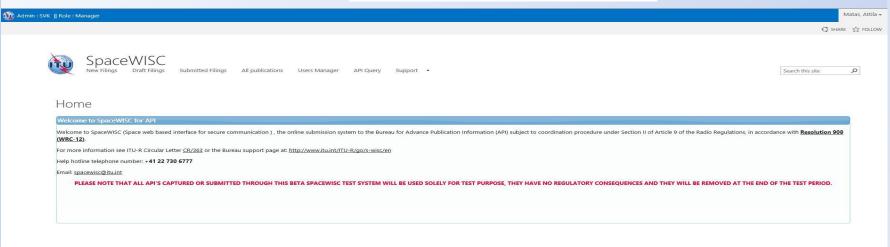

- **SpaceWISC homepage: www.itu.int/go/spacewisc**

  ➢ Contains the link to enter the SpaceWISC system

  https://extranet.itu.int/itu-r/spacewisc

- **For all those with TIES account, please try to log in to SpaceWISC with your TIES username/password**

WRS-2014 – user access to SpaceWISC

- **If you know** your **TIES** username/password (i.e. you can access ITU-R Study group documents) *but you are unable to access SpaceWISC*, please contact **ASAP** the BR SpaceWISC team to add your TIES account to an Administration *only for the SpaceWISC TEST during the WRS-14 SpaceWISC workshop*

- For all those *without* **TIES** account, please contact **ASAP** the BR SpaceWISC team for a *temporary username/password* that you will use *only during the duration of the WRS-14 SpaceWISC workshop*
