

Space WISC Users management

Attila Matas (BR/SSD/SPR)

What is SpaceWISC?

- Space **W**eb-based **I**nterface for **S**ecure **C**ommunication
- An online submission and publication system **ONLY** for **APIs** subject to Coordination procedure (Sub section-IB of Article 9 of the RR), in response to **Resolution 908** (WRC-12)

Updated ITU Rules of Procedure on Receivability

*In case of API on satellite networks or satellite systems that are subject to coordination procedure under Section II of Article 9, **submission shall be made exclusively via the ITU web interface SpaceWISC**, available at <https://extranet.itu.int/itu-r/spacewis> instead of e-mail or surface mail. (MOD RRB14/66)*

What is SpaceWISC?

- A joint ITU PILOT project of Space Services Department (coordinated by SPR), IAP (SAS) and ITU IS department
- Web based online secure communication with administration
 - ❖ API *online capture* or *upload, validation*
 - ❖ API *submission* to the BR
 - ❖ API/A *publication system*
 - ❖ API/A *query*
 - ❖ *Comments from administrations under No. 9.5B* submitted via the SpaceWISC, shall be considered as “a copy of these comments to the Bureau” specified in No. 9.5B of the Radio Regulations (RR) and will be made available on the SpaceWISC website

SpaceWISC users - 1

In order to hold a *Manager*, *Administration* or *Operator* role, a [TIES account is mandatory](http://www.itu.int/TIES/) ! For more info see: <http://www.itu.int/TIES/>

- ***Manager role*** – will be held by a member (or representative) of an administration having the full set of privileges needed in order to create API notices, submit them to the Bureau and manage access rights of other members of the administration (i.e. authorization to add and/or remove administration(s) and operator(s)/user(s) for its administration), as well as perform functions pertaining to an Administration or Operator role.
- *Administrations are invited to communicate to the Bureau, via fax number **+41 22 730 5785**, the initial list of one or more person(s) entrusted with the **Manager role**, indicating the person's name, title, e-mail address, telephone number and TIES username.*

SpaceWISC users -2

Administration role – will be held by members (or representatives) of the administration responsible for the processing of API notices and authorized by the member of the administration with Manager role.

- They will be authorized to **create API notices** and **submit / withdraw them to/from the Bureau.**
- Accounts with an Administration role, may add /remove accounts with an Operator role.

SpaceWISC users -3

- **Operator role** – will be authorized to **capture, edit and update their own API notices** and, once they are complete, **submit them to their administration**. Accounts with this role **will not have the privileges needed to submit API notices direct to the Bureau**.
- Operators within the same satellite company (operating agency) may be grouped in order to share the preparatory works on the API notices before submit them to their administration.
- The Bureau shall be responsible for creating operator groups for operators within the same satellite company (operating agency). Administrations are invited to communicate to the Bureau, via the brmail@itu.int address, the initial list of one or more person(s) working in the same satellite company (operating agency), indicating the operating agency number – see Table 12A/12B of the **Preface**: <http://www.itu.int/ITU-R/go/space-preface/en> and operator's TIES username.
