Commenting on Special Sections

Álvaro de Vega

Space Services Department

ITU/BR/SSD

General concepts

➤ What is a comment?

- An indication from an administration on **whether or not it accepts the technical characteristics** of an assignment to a satellite network, just as it has been submitted to the Bureau
- The acceptance of the characteristics of an assignment may imply the **acceptance of potential interference** to radiocommunication services or **the inclusion of the territory** of the commenting administration in the service area of the incoming satellite network

➤ Why do Administrations have to comment?

- To protect their radiocommunication services against potential interference
- To exclude the territory of an administration from the service area

➤ Which Administrations have to comment?

- All Administrations may need to comment, **even if they are not responsible of any satellite network** (potential interference to terrestrial services or to assignments/allotments in the Plans) and **even if they are not identified as potentially affected** in the corresponding Special Section

General concepts

➤ When do Administrations have to comment?

- Within **4 months** from the date of publication of the corresponding Special Section
 - *Except for exclusion of territories or replies to BR assistance*

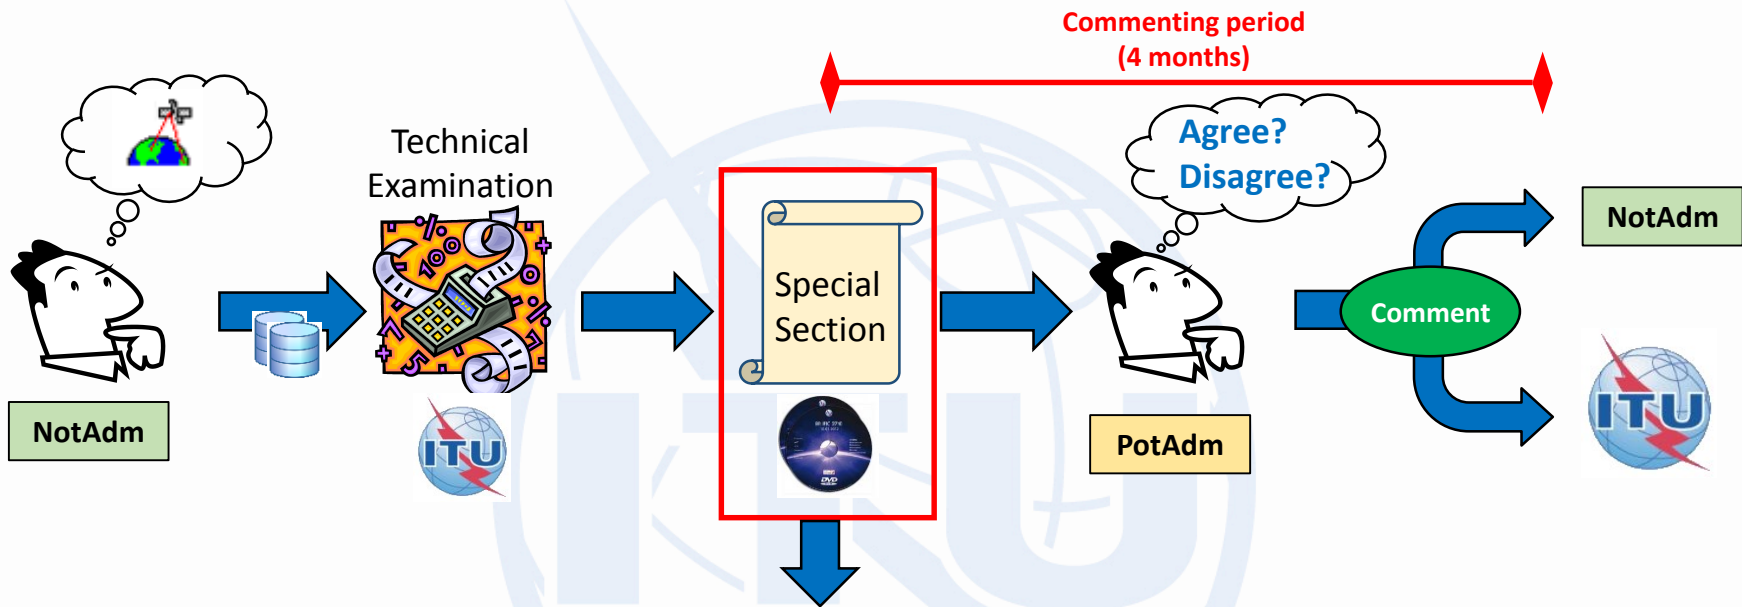

➤ How do Administrations have to comment?

-  Using BR software SpaceCom
-  Correspondence (telefax, letter, email)
-  Using e-submissions system to submit comments

➤ To whom should comments be sent?

- To the notifying administration 
- To the Bureau

The screenshot shows the Space Information System (SNS v8) interface. At the top, the ITU logo and the text "Space Information System (SNS v8)" are visible. Below this, there are two main sections: "Select a task:" and "Select a database:".

Select a task: This section contains a task card for "SpaceQry" with the following details:

- Version: 8.0.0.0
- Description: Query SNS formatted databases
- Contact: brsas@itu.int

Next to the "SpaceQry" task card is a "SRS convert" task card. A red circle with the number "3" is placed over the "SRS convert" card. To the right of the "SRS convert" card, there are two buttons: "Start" (highlighted with a red box) and "Quit".

Select a database: This section shows a list of available databases. The first option is "Microsoft Access" (highlighted with a red box and a red circle with the number "1"). Below it, a text box contains the path "C:\BR IFIC\SPS_ALL_JFIC2834.mdb". A "Browse" button (highlighted with a red box and a red circle with the number "2") is located below the text box. To the right of the "Microsoft Access" option is a "BR IFIC DVD" option.

On the right side of the interface, there is a "New Window" button (green plus icon). Below it, a status bar shows "Selected task" as "SpaceQry" and "Selected database" as "C:\BR IFIC\SPS_ALL_JFI". At the bottom right, there is a user profile for "devega" and a settings gear icon.
