

Online validation tool

BR/TSD/TPR

International Telecommunication Union

How to use the online validation tool?

The screenshot shows a web browser window displaying the ITU Online Validation Login page. The page features a blue header with the ITU logo and navigation links. A central blue box contains the title "Validation of Terrestrial Frequency Assignment/Allotment Notices" and a description of the tool's purpose. Below this is a disclaimer. The main content area contains a "TIES Login" form with fields for "Username" (containing "pinngao") and "Password" (containing "*****"). A "Remember me next time" checkbox and a "Login" button are also present. Two red arrows point to the "Username" and "Password" fields, with labels "TIES Username" and "TIES Password" respectively. The footer includes copyright information and a page number "11/1001".

Validation of Terrestrial Frequency Assignment/Allotment Notices

This tool is to assist administrations to validate their frequency assignment/allotment notices before their official submission via WISFAT.

Disclaimer: Please note that GE06D notices are not fully validated yet and TB notices are not supported

How to use the online validation tool?

- If there are any errors or warning it will display them on the screen. You may correct and upload again.

The screenshot displays the 'OnlineValidation' web application. The page title is 'OnlineValidation'. Below the title, it states 'The processing system is currently **ONLINE**' and provides a contact email: 'pnter_dp@itu.int'. There are buttons for 'New Validation', 'Logout', and 'Refresh'. A section titled 'Jobs History for user: pinnago' contains a link 'Test Packages 22866: click to show all'. Below this is a 'Job summary' section with a 'Delete' link and a table:

job id	job name	job status
22866	fxm07_with error	Completed

Next is the 'Job Input' section with a table:

Adm	E-notice file	Number of Notices
SEY	FXM07_with_error.txt	1

The 'Job Output' section shows the following information:

Parse status: **T_PARSE_NTC_INCOMPLETE**
Total number of errors: 1
Total number of warnings: 1

Notice 1 (Line 4)
Line 1 (4) : Warning : Principal Site (GRAND ANSE PRASLIN) Geographic Coordinates are 955.7 km from SEY; the Coordinates are located in the sea.
Line 1 : Error : t_bdwidth_cde : mandatory key missing or the associated key value is invalid.

At the bottom of the page, there is a JavaScript snippet: `javascript:_doPostBack('ct003ContentPlaceHolder1$UserSubmissionCtrl1$gvAllSubmission$ct02$InkJob_id','')` and a page number '14_1001'.

Thank you for your attention!
