CPM1-15

- was held in Geneva from 20 to 21 February 2012.

- Organized the preparatory studies for WRC-15 and proposed a structure for its Report to WRC-15.

- Nominated eight (8) Chapter Rapporteurs who will assist the Chairman in managing the development of the draft Report to WRC-15.

- All the preparatory work, as agreed by CPM15-1, will be performed within the framework of the foreseen work programme and organization of the ITU-R Study Groups. However, a dedicated Joint Task Group (JTG 4-5-6-7) was established to deal with complex issues related to WRC-15 Agenda items 1.1 and 1.2.

Notes

▶ NOTE 1 - The Special Committee (SC) activities consist of two categories:
a) work assigned directly to the SC by CPM15-1, for which the SC or its Working Party may initiate its studies as appropriate, and
b) tasks related to regulatory aspects of work assigned by CPM15-1 to the Study Groups and their Working Parties, for which the SC and its Working Party initiate studies on procedural and regulatory text based on inputs from the Study Groups/Working Parties and contributions from the membership; the initial meeting of the SC or its Working Party on this category b) will be held in consultation with the CPM Chairman and the Study Groups and their Working Parties.

▶ NOTE 2 - In addition to responsible groups, concerned ITU-R groups have been identified. A concerned ITU-R group may be either a contributing group on a specific item, or an interested group that will follow the work on a specific issue and act as appropriate (see Annex 8 of Administrative Circular CA/201).

Other Notes

▶ (a) See the CPM15-1 Decision on the Establishment and Terms of Reference of Joint Task Group 4-5-6-7 (see Annex 10 of Administrative Circular CA/201).
▶ (b) based on spectrum requirements from WP 5A.
▶ (c) Technical and Regulatory aspects.
▶ (d) Regulatory and Procedural aspects.
▶ (e) see NOTE 1.
▶ (f) Depending on contributions from administrations.

World Radiocommunication Conferences (WRC)

Scope

World radiocommunication conferences (WRC) are held every three to four years. It is the job of WRC to review, and, if necessary, revise the Radio Regulations, the international treaty governing the use of the radio-frequency spectrum and the geostationary-satellite and non-geostationary-satellite orbits. Revisions are made on the basis of an agenda determined by the ITU Council, which takes into account recommendations made by previous world radiocommunication conferences.

The general scope of the agenda of world radiocommunication conferences is established four to six years in advance, with the final agenda set by the ITU Council two years before the conference, with the concurrence of a majority of Member States.

Under the terms of the ITU Constitution, a WRC can:

▶ revise the Radio Regulations and any associated Frequency assignment and allotment Plans;

▶ address any radiocommunication matter of worldwide character;

▶ instruct the Radio Regulations Board and the Radiocommunication Bureau, and review their activities;

▶ determine Questions for study by the Radiocommunication Assembly and its Study Groups in preparation for future Radiocommunication Conferences.

On the basis of contributions from administrations, the Special Committee, the Radiocommunication Study Groups, and other sources (see Article 19 of the Convention (Geneva, 1992)) concerning the regulatory, technical, operational and procedural matters to be considered by World and Regional Radiocommunication Conferences, the Conference Preparatory Meeting (CPM) shall prepare a consolidated report to be used in support of the work of such conferences.

▶ World Radiocommunication Conference 2015 (WRC-15)

▶ World Radiocommunication Conference 2012 (WRC-12)

Monitoring studies on ITU-R Resolutions:
The BR Director, in consultation with the Study Group Chairmen, is invited to compile a list of those SGs already conducting studies on ITU-R Resolutions, with foreseen dates and expected ITU-R deliverables, and report to the next RAG meetings.
