

**Service Orchestration of  
Complex Networks and  
Virtualized Services**

*MEF's standards and implementation activities*

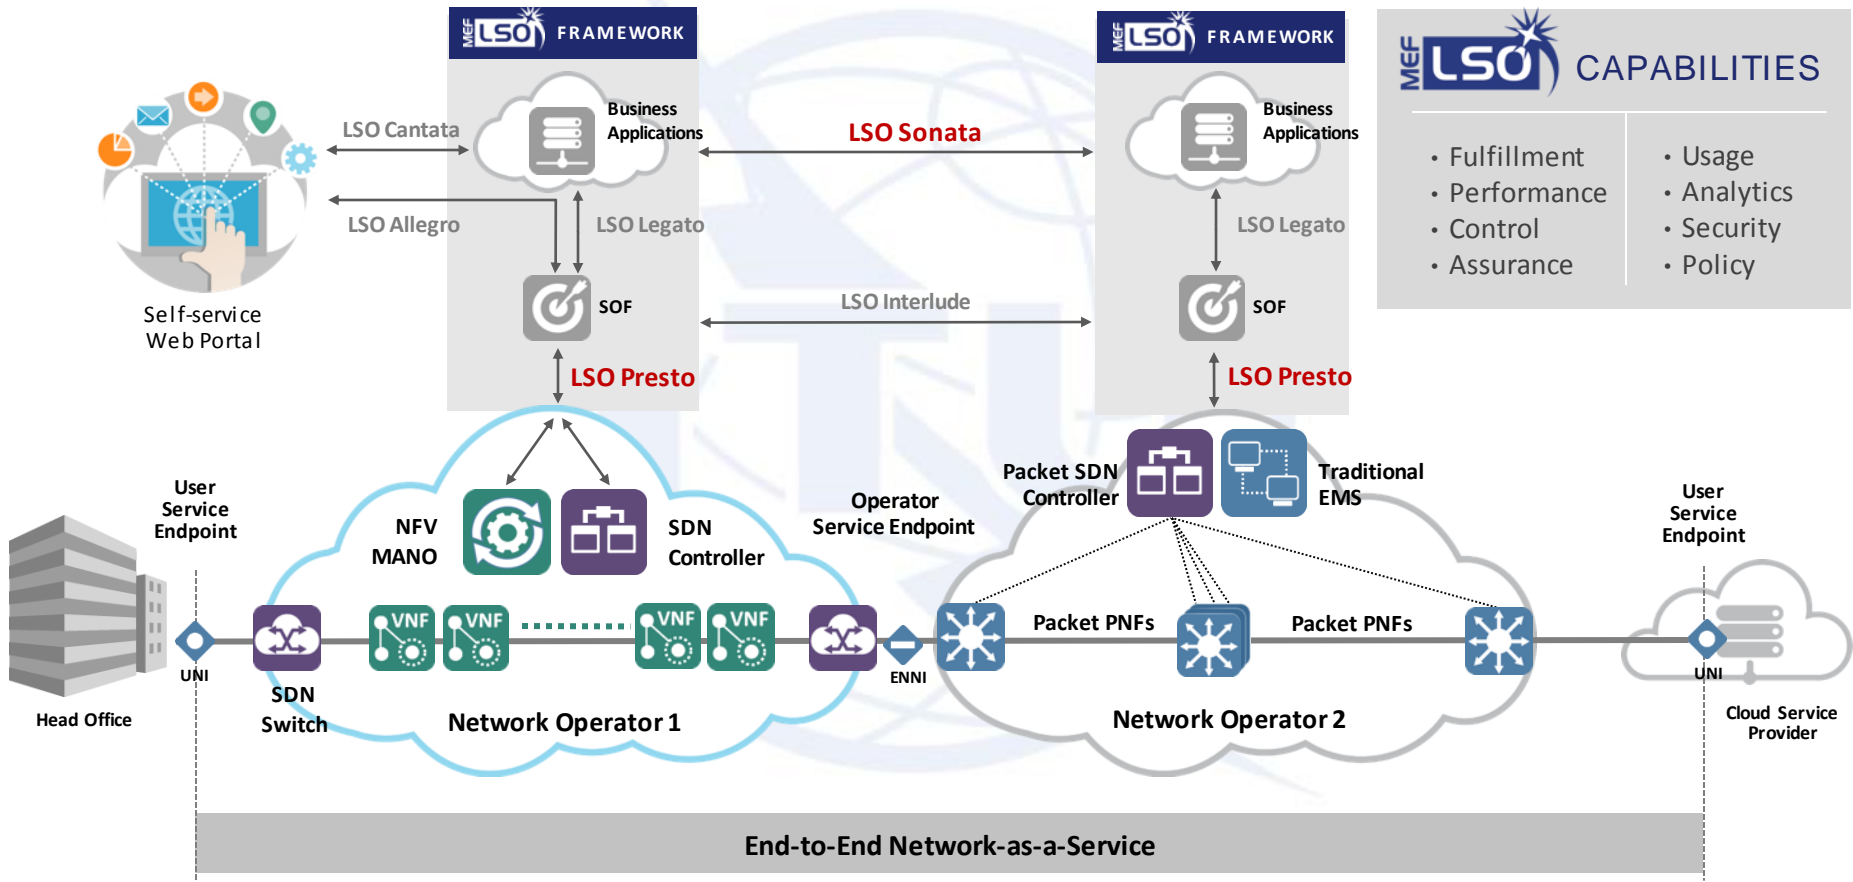

# Introducing MEF 3.0 Services Framework

# MEF 3.0 Services

# MEF 3.0 and LSO

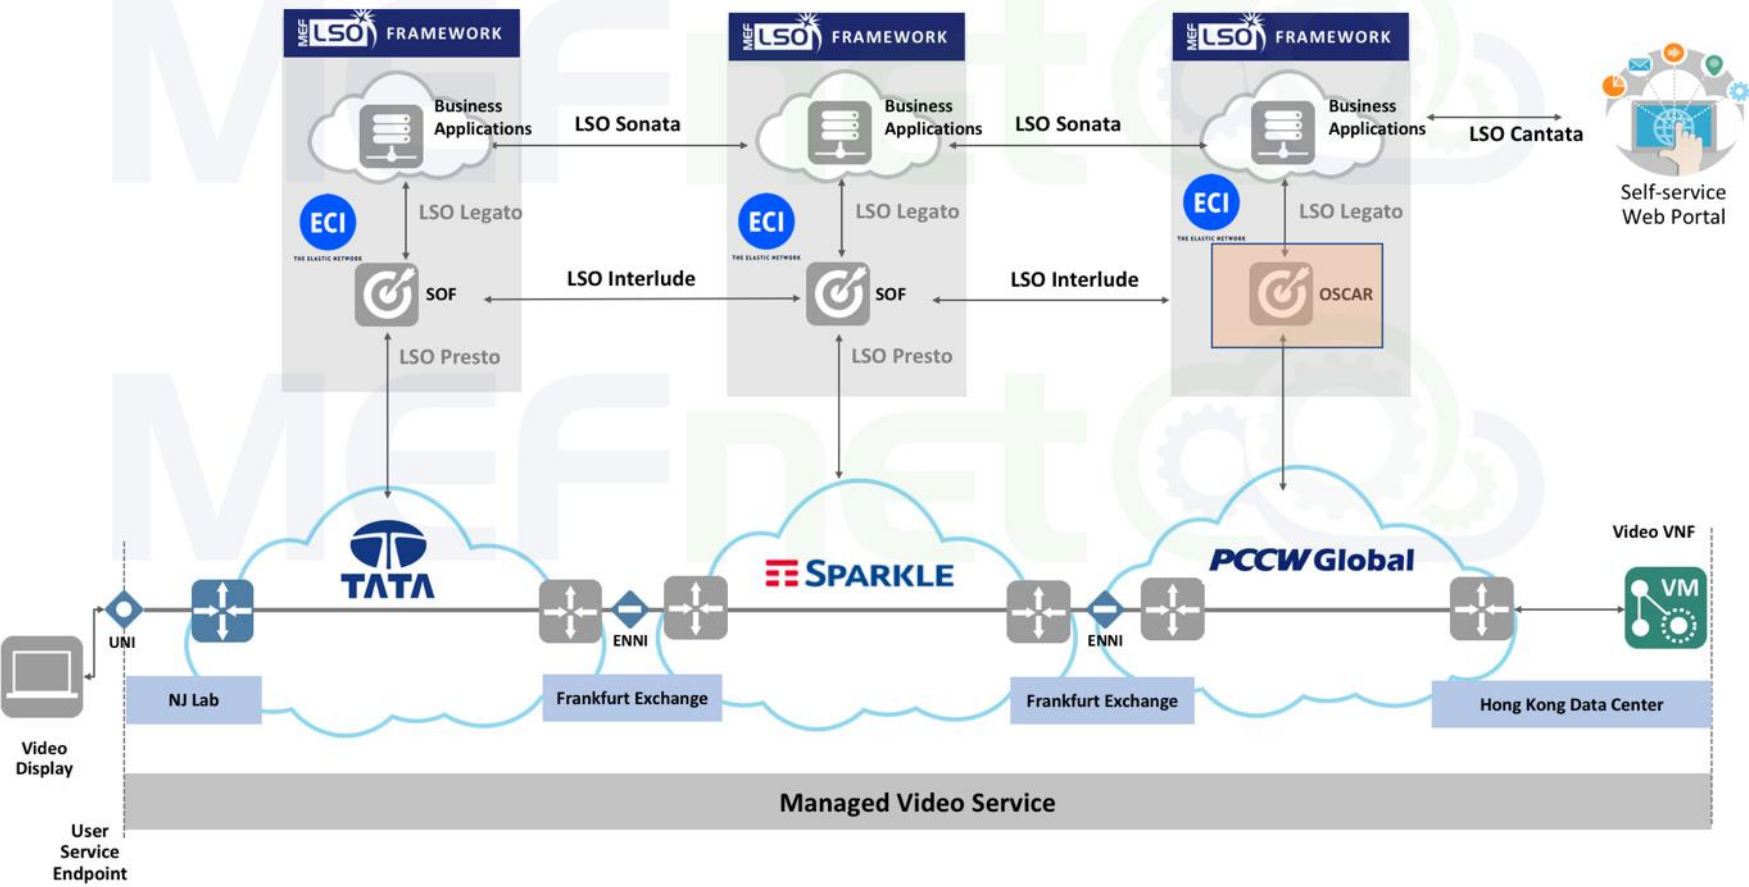

- MEF LSO CAPABILITIES**
- Fulfillment
  - Performance
  - Control
  - Assurance
  - Usage
  - Analytics
  - Security
  - Policy

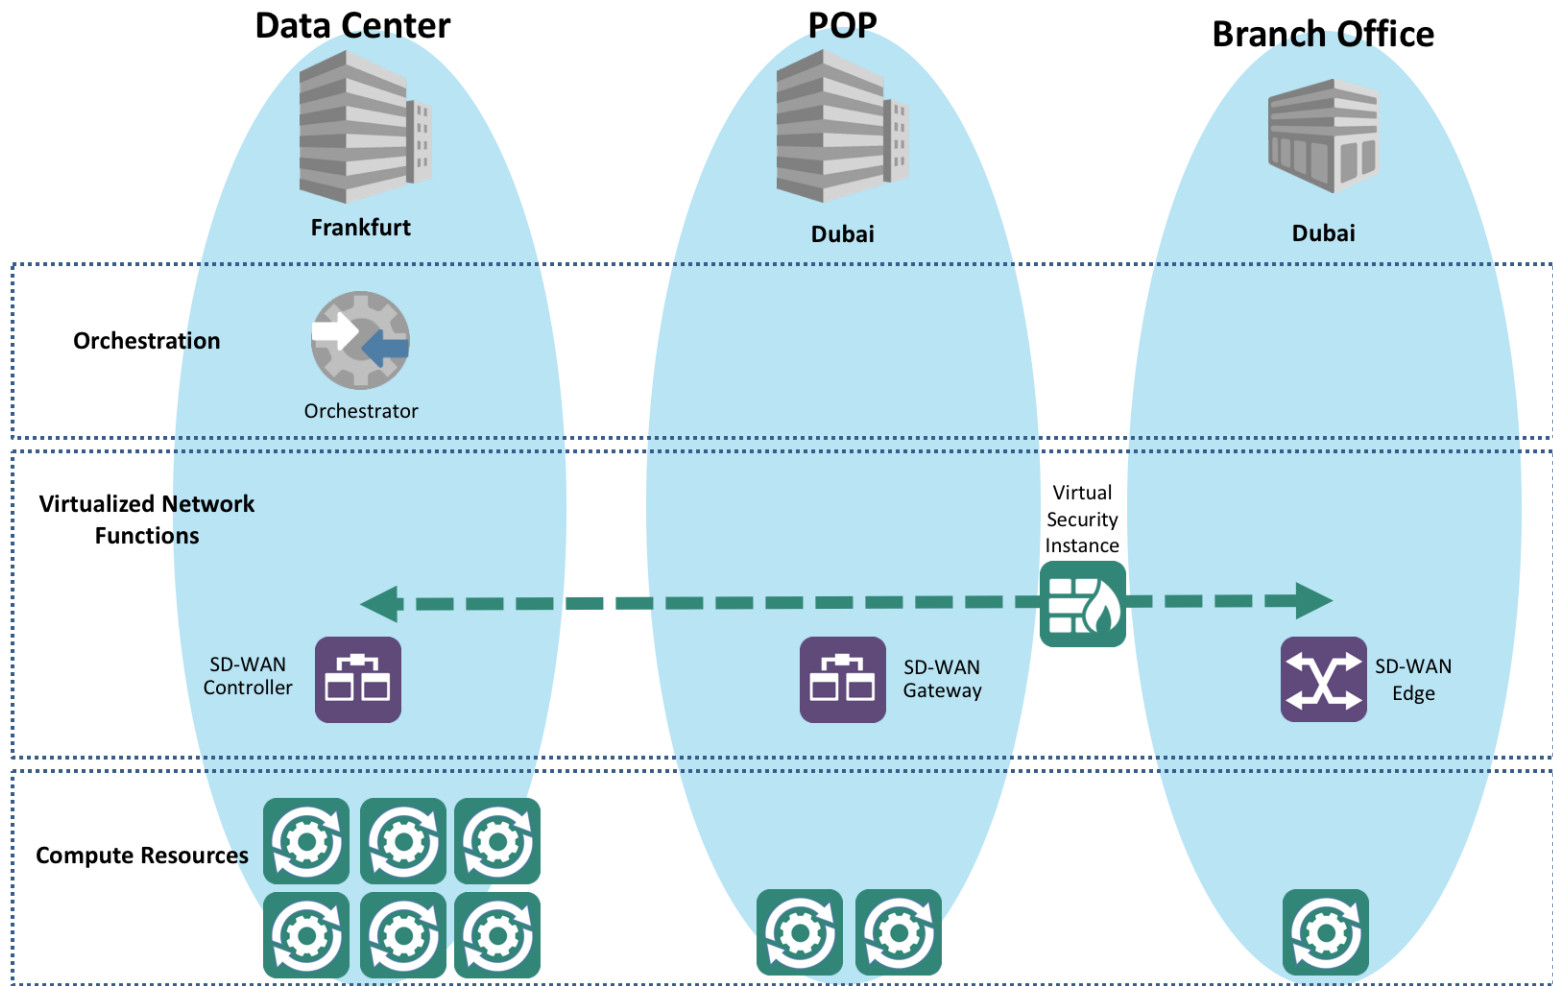

EMS: Element Management System    PNF: Physical Network Function    SOF: Service Orchestration Function

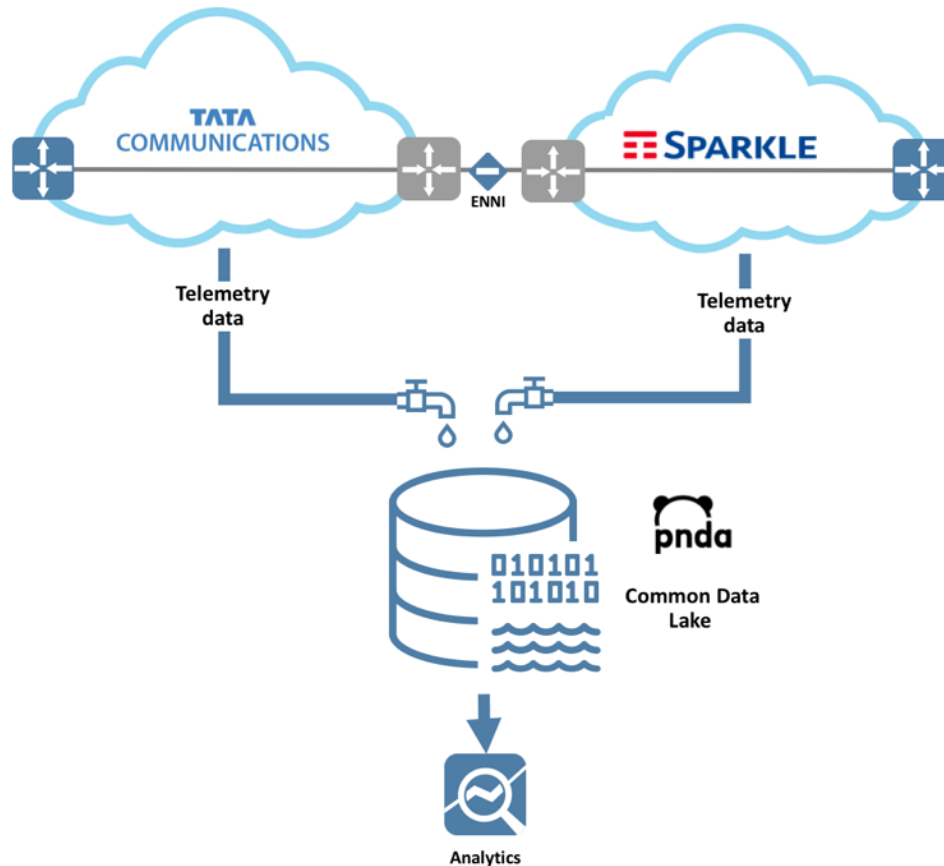

# Example: MEF 3.0 Fulfilment & Activation

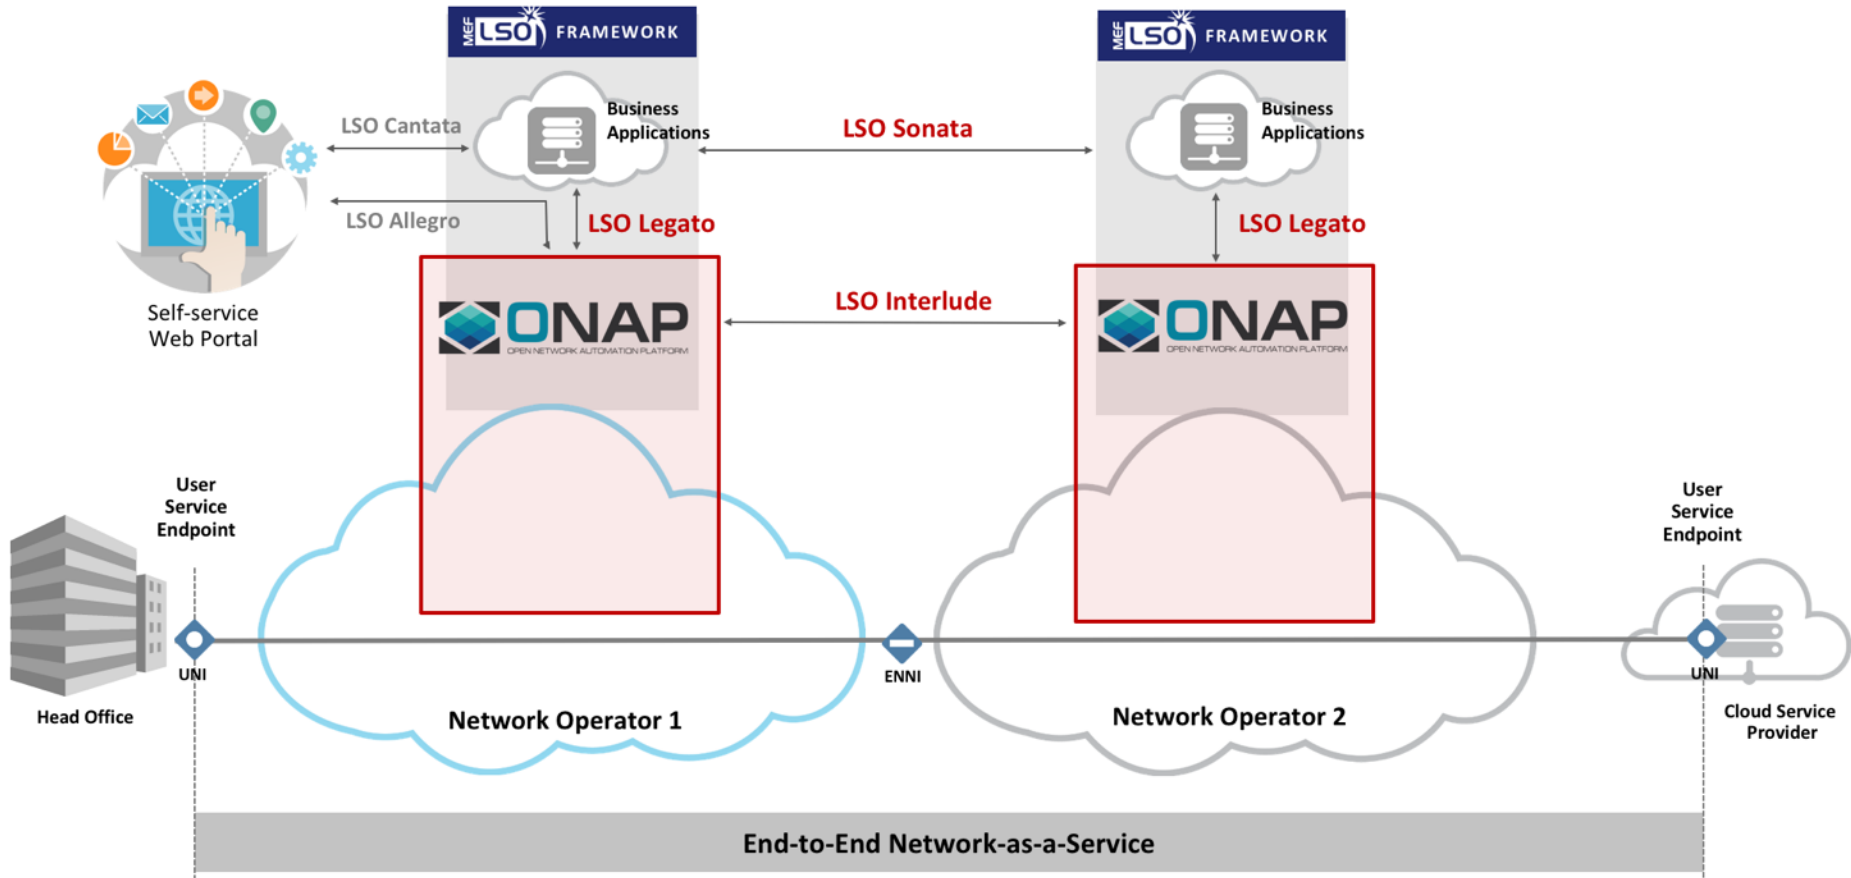

# Example: MEF 3.0 SECaaS

# Example: MEF 3.0 Service Telemetry

# Example: Multi-Operator ONAP

# Next Steps

- Continued liaison to introduce MEF 3.0-related specifications into ITU-T standards
- Coordination on
  - 5G
  - Network Slicing
