

5th ITU-T Workshop on Network 2030

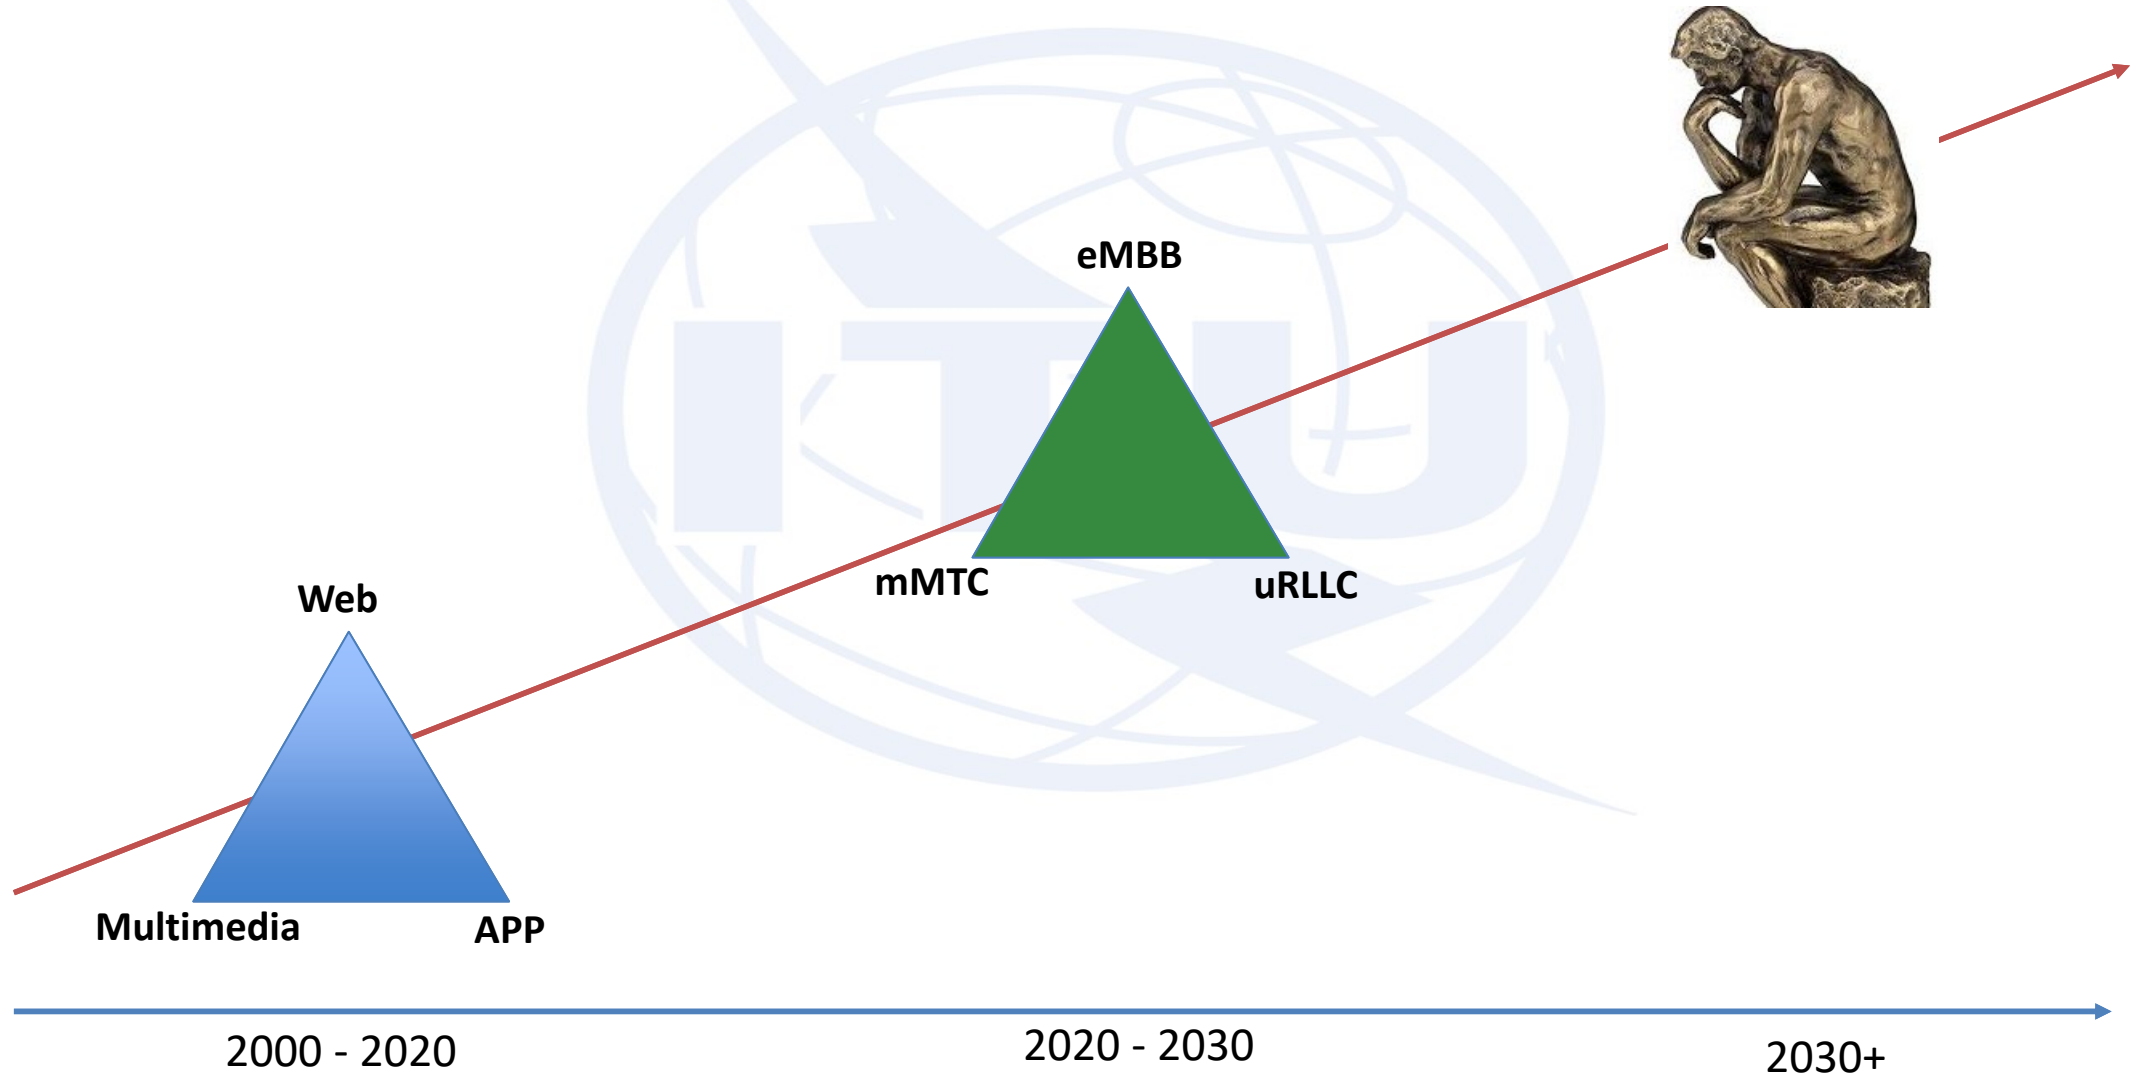

Concluding Remarks

Richard Li, Ph.D.
Chairman, ITU-T FG Network 2030
Chief Scientist and Vice-President of Network Technologies, Huawei

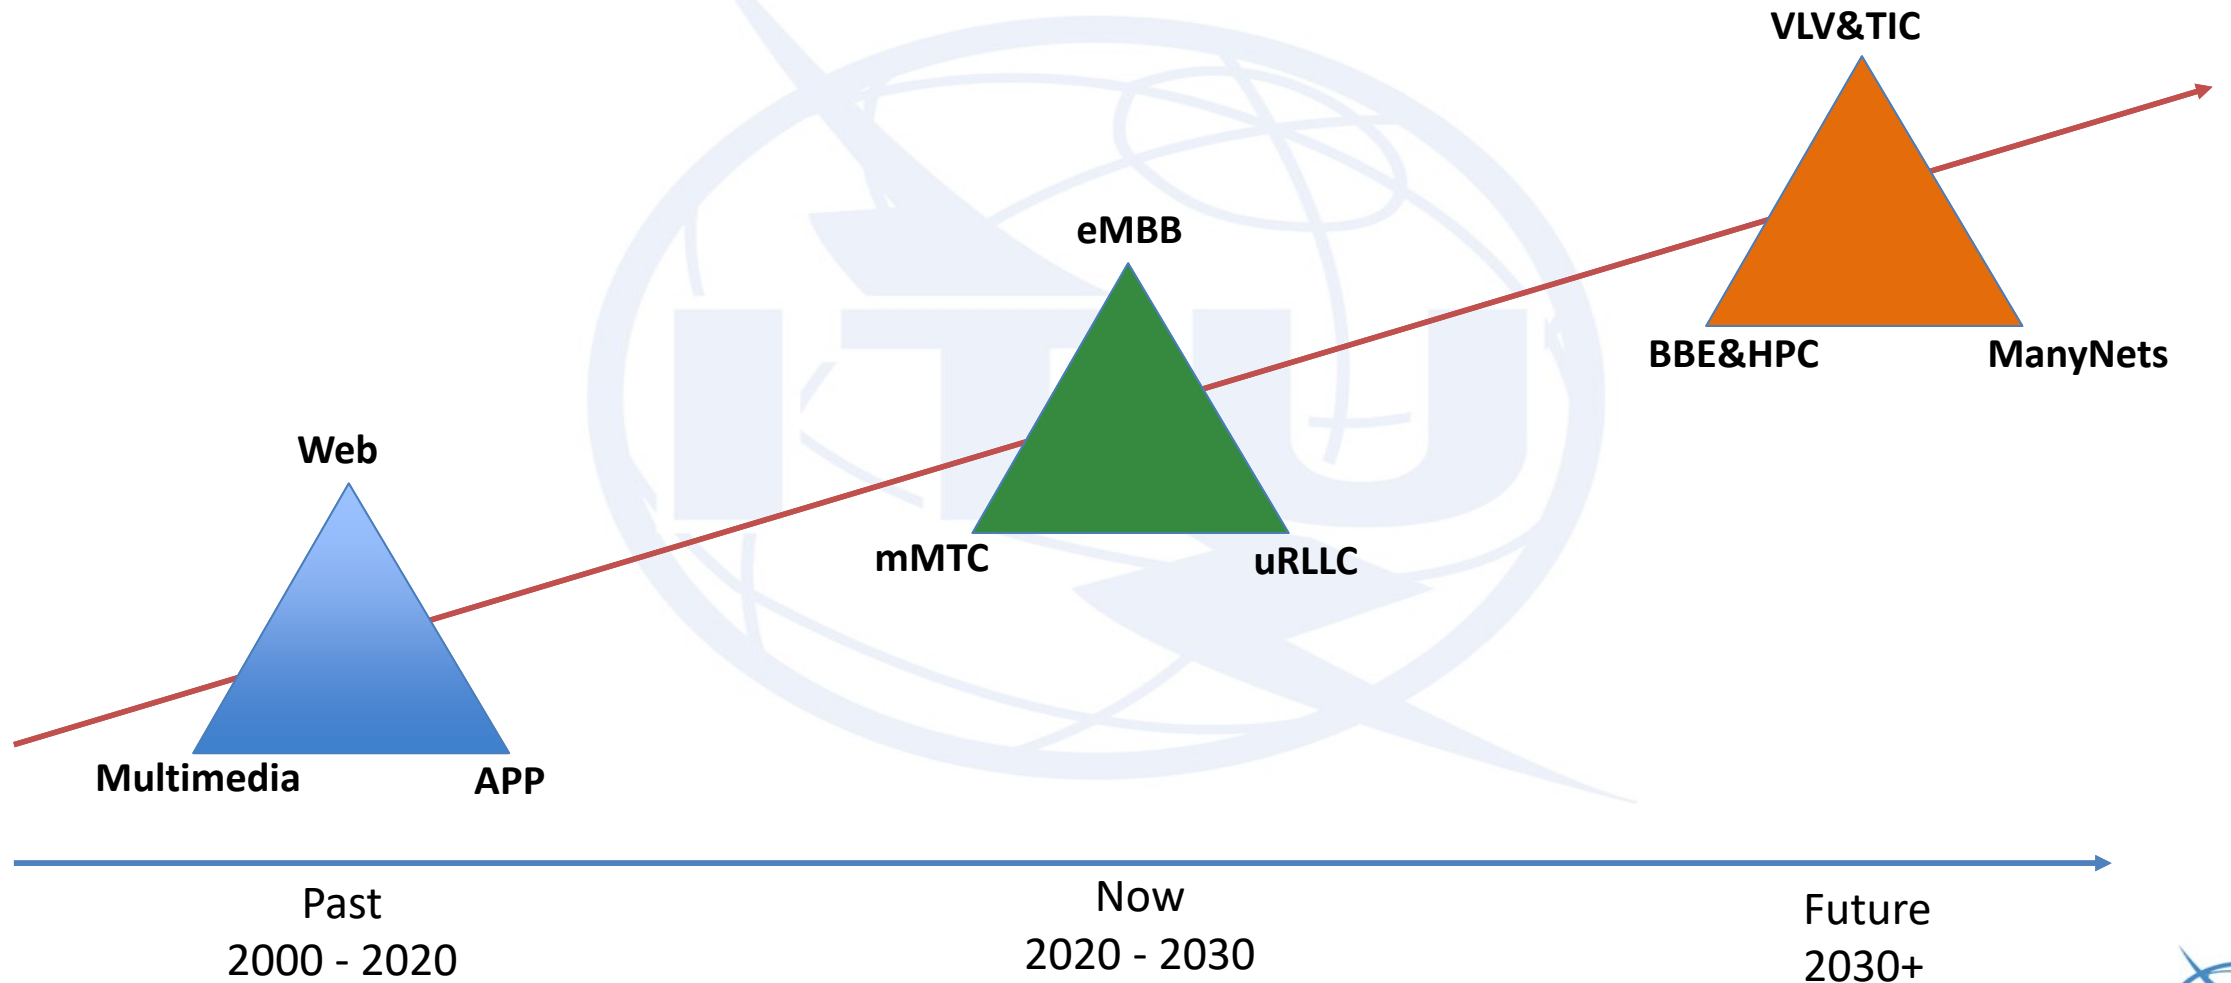

5th ITU-T Workshop on Network 2030
Geneva, Switzerland, October 14-16, 2019

One year ago in 2018, we asked ourselves:

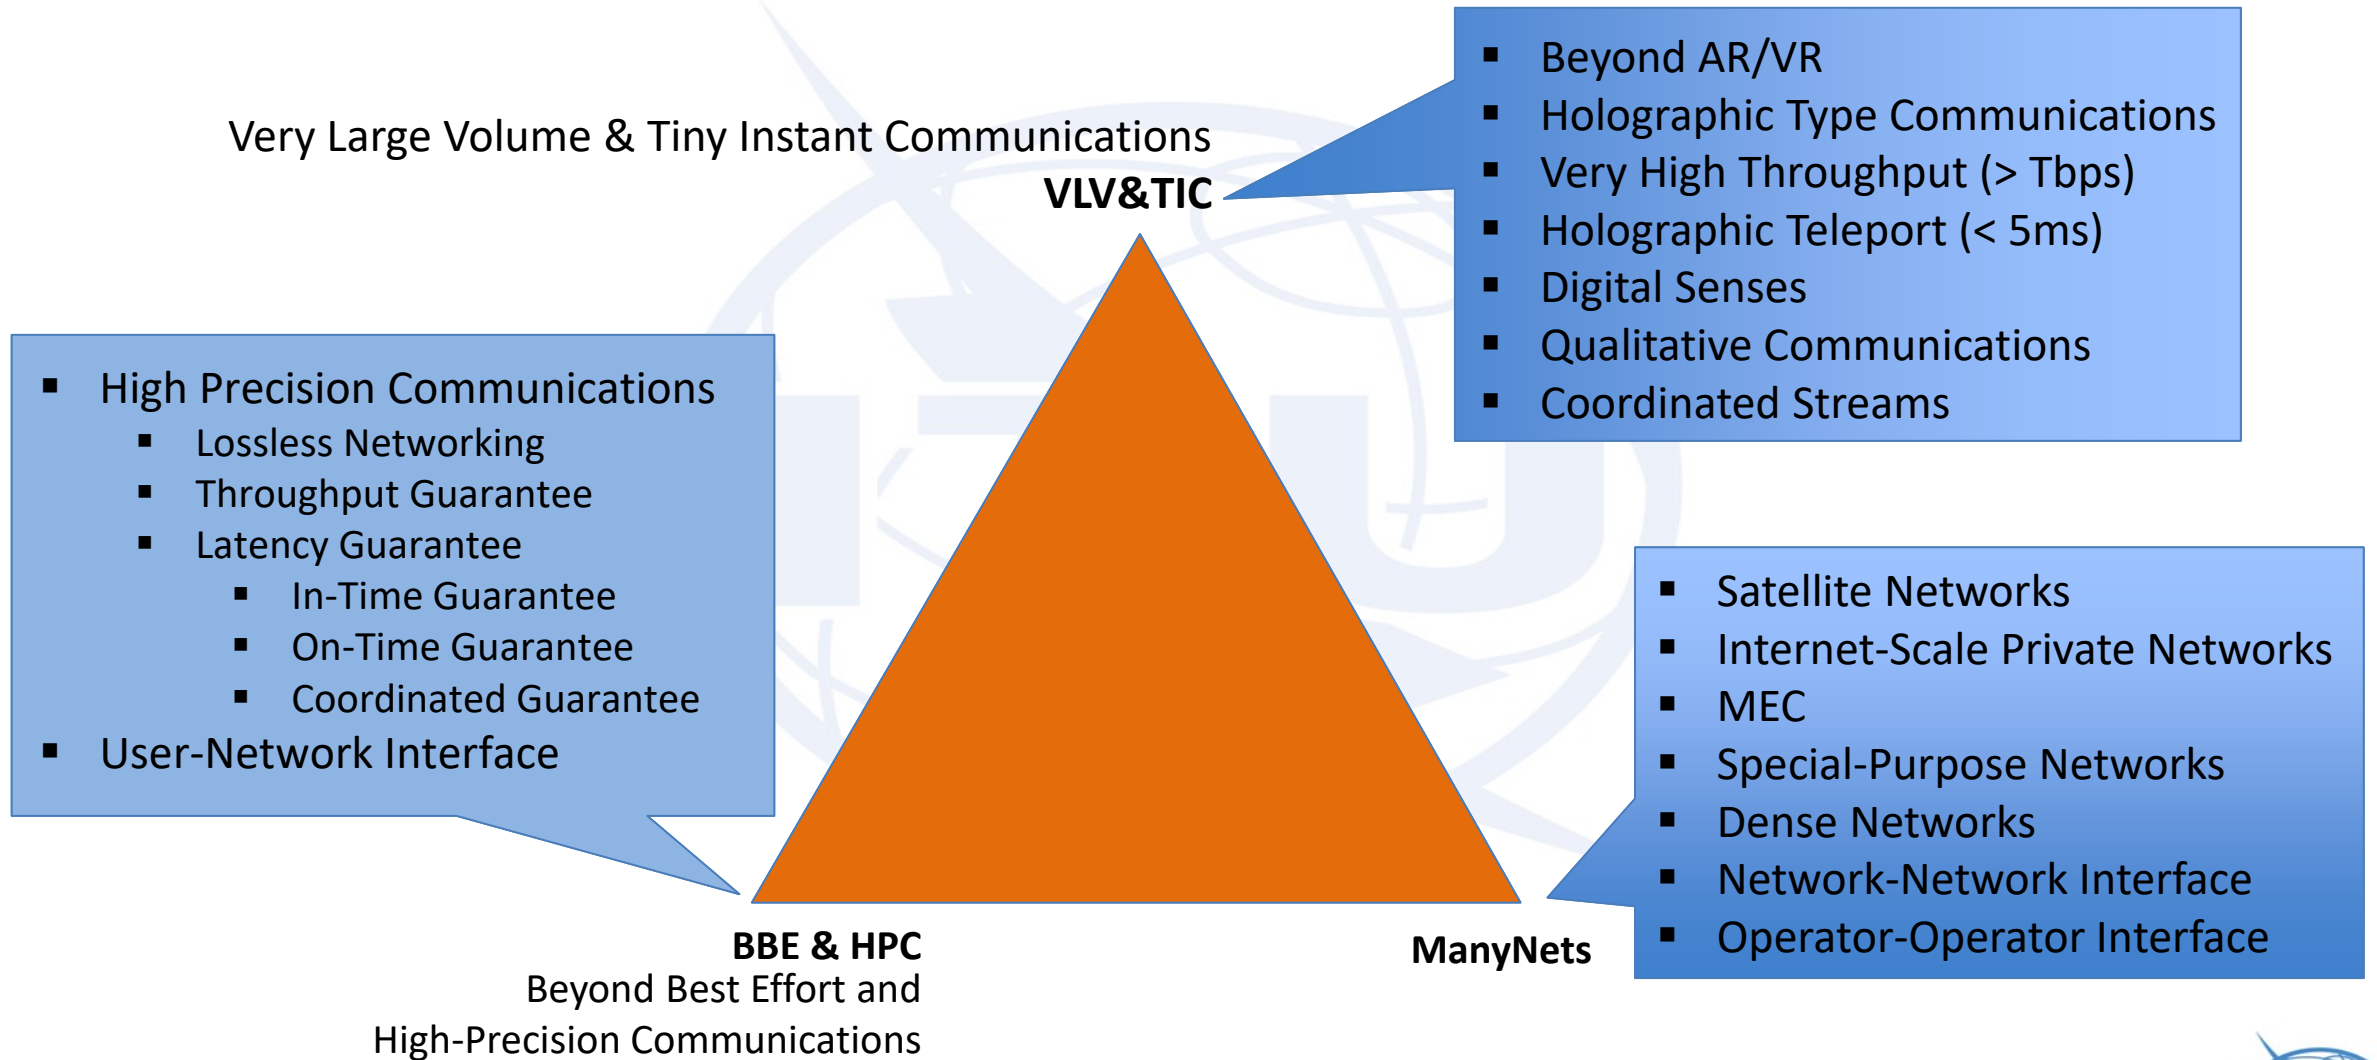

2030 and beyond: What will be?

After one year's journey, now we see something in the future

It's still a very looong journey to make it into a reality

The Focus Group is entering its 2nd year

- Our vision has yet to be tested
- More of your contributions are still in need
- In addition to speeches, we will open up for Demos, starting from the 6th workshop, planned in Lisbon, January 2020, hosted by Prof. Rui Aguiar and his team
