

# Ed Scheidt

**Convenor**

**ISO TC68 SC2 (Bank Security)**

**Working Group 17**

## Introductory Remarks

ISO has led the world in “building trust”

# Ed Scheidt

- ISO supports the **global financial ecosystem** future viability & prosperity and the open, transparent & interoperable payments across both ecosystems, all DC types & countries

# 1

ISO, a Standardization Development Organization (SDO) like ITU **recognizes** that technology is advancing in an **incredible** rapid pace

## 2

---

A digital currency ecosystem  
**will need to recognize**  
fiat & non-fiat advances that  
include security

# 3

ISO Standard's development work is building a **collection of financial capabilities** that include various components **needed** for a **future digital currency representation & collaboration**

# STANDARDS

4

ISO Technical Standard **23526**  
TC68 SC2 WG17 Bank Security

## 5 In conclusion

---

- SDOs are global consensus-based organizations which are slow by nature
- Higher level **SDO** working group co-participation could bridge information exchange beyond
  - **ISO TC68 SC2 (Bank Security)**  
Working Group 17  
*Liaison to*
  - **ITU-DCGI Security & Assurance WG**
