

Session 4 Introduction

YANG and Data Modelling

Scott Mansfield (Ericsson)
Moderator

Presenters

- Stephan Kehrer
 - Senior Technology Architect, Belden: YANG Introduction – Introduction to NETCONF, RESTCONF, CORECONF, and YANG basics
- Scott Mansfield, Ericsson
 - Advancements in YANG – Provide a review of the latest guidelines and functionality enhancements from the IETF
- Martin Mittelberger, System Architect, Siemens AG
 - Writing YANG Profiles – Example of using profiles of IEEE YANG in Industrial Applications
- Don Fedyk, Distinguished Engineer, LabN Consulting, L.L.C.
 - Examples of YANG-based Configuration using IEEE and IETF Models – Practical examples and tooling
- Kam Lam, CICT
 - YANG in other Standards Bodies – How IEEE YANG is being leveraged in other SDOs
