

Casual Payroll Team

Clement Muhirwa : Tech entrepreneur and software developer with a computer science degree from the University of Rwanda. His interest is in how technology can revolutionize financial-inclusion.

Serge Danson Ndekezi: He holds a degree of IT and Business from Mount Kenya University. By working with leading software development companies in Rwanda, Serge has developed strong experience in software engineering. Serge is highly interested in Artificial Intelligence and Internet of Things.

Inabeza Gladys: Technology enthusiast with a software development experience in Reactjs. After graduating from university in computer science, she developed 2 apps in finance that aim to help people transfer money across borders as well as receive home loans easily. She is currently working on Casual Payroll to facilitate casual workers receiving their salaries easily using their phones.
