# Everything changes. Again.

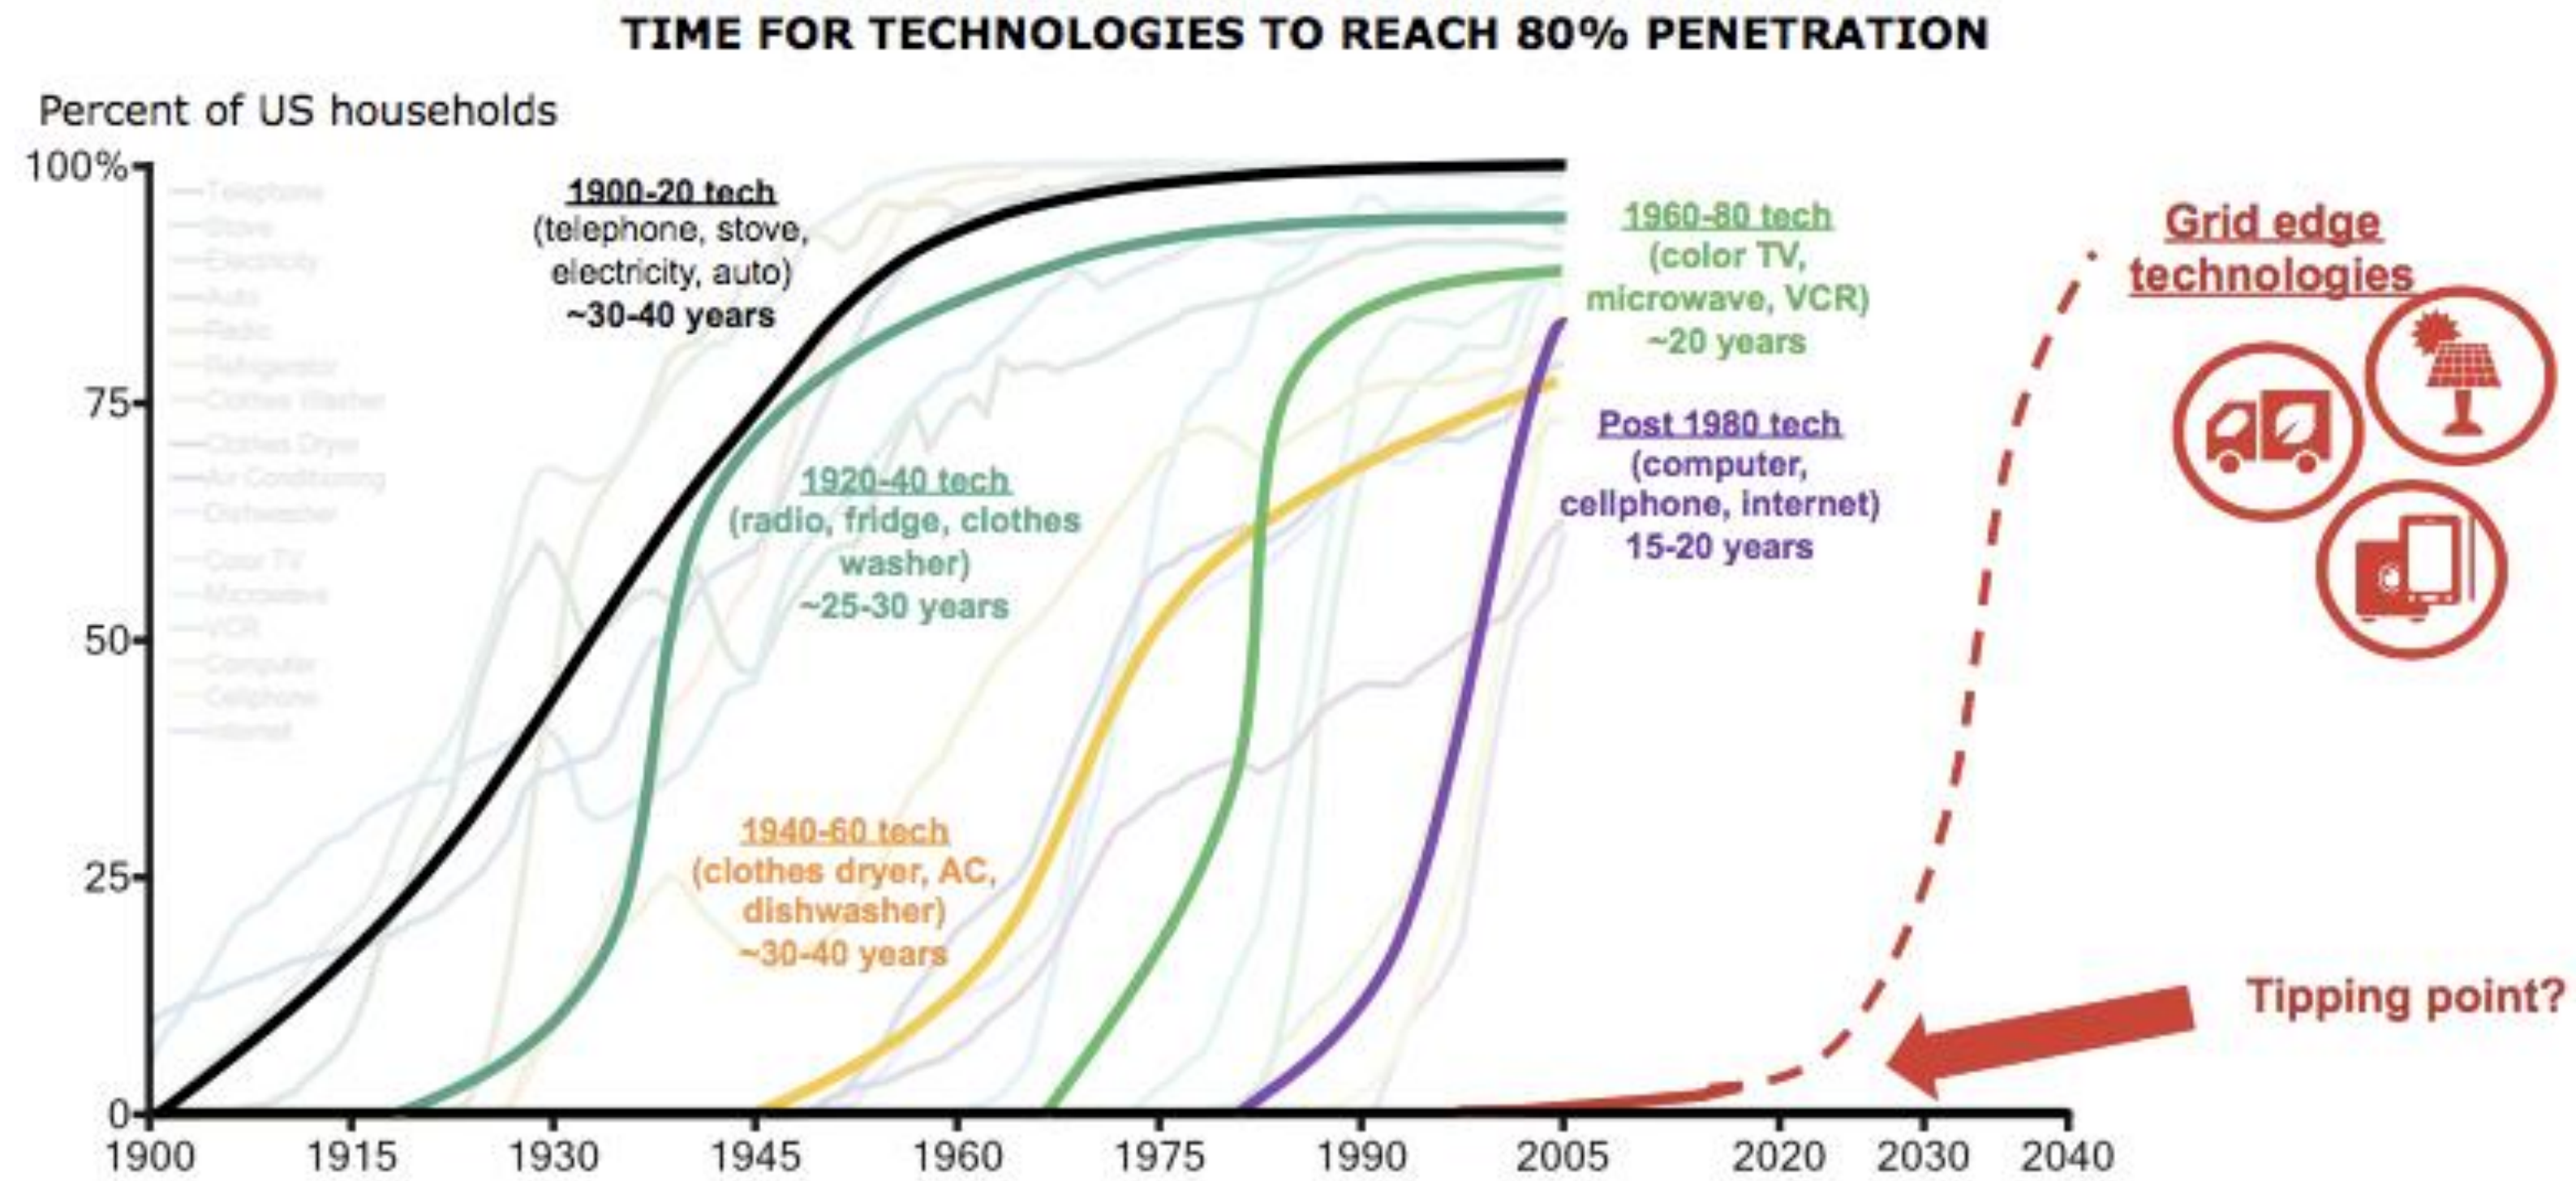

New value creation models for a digitally & electrically transformed world.

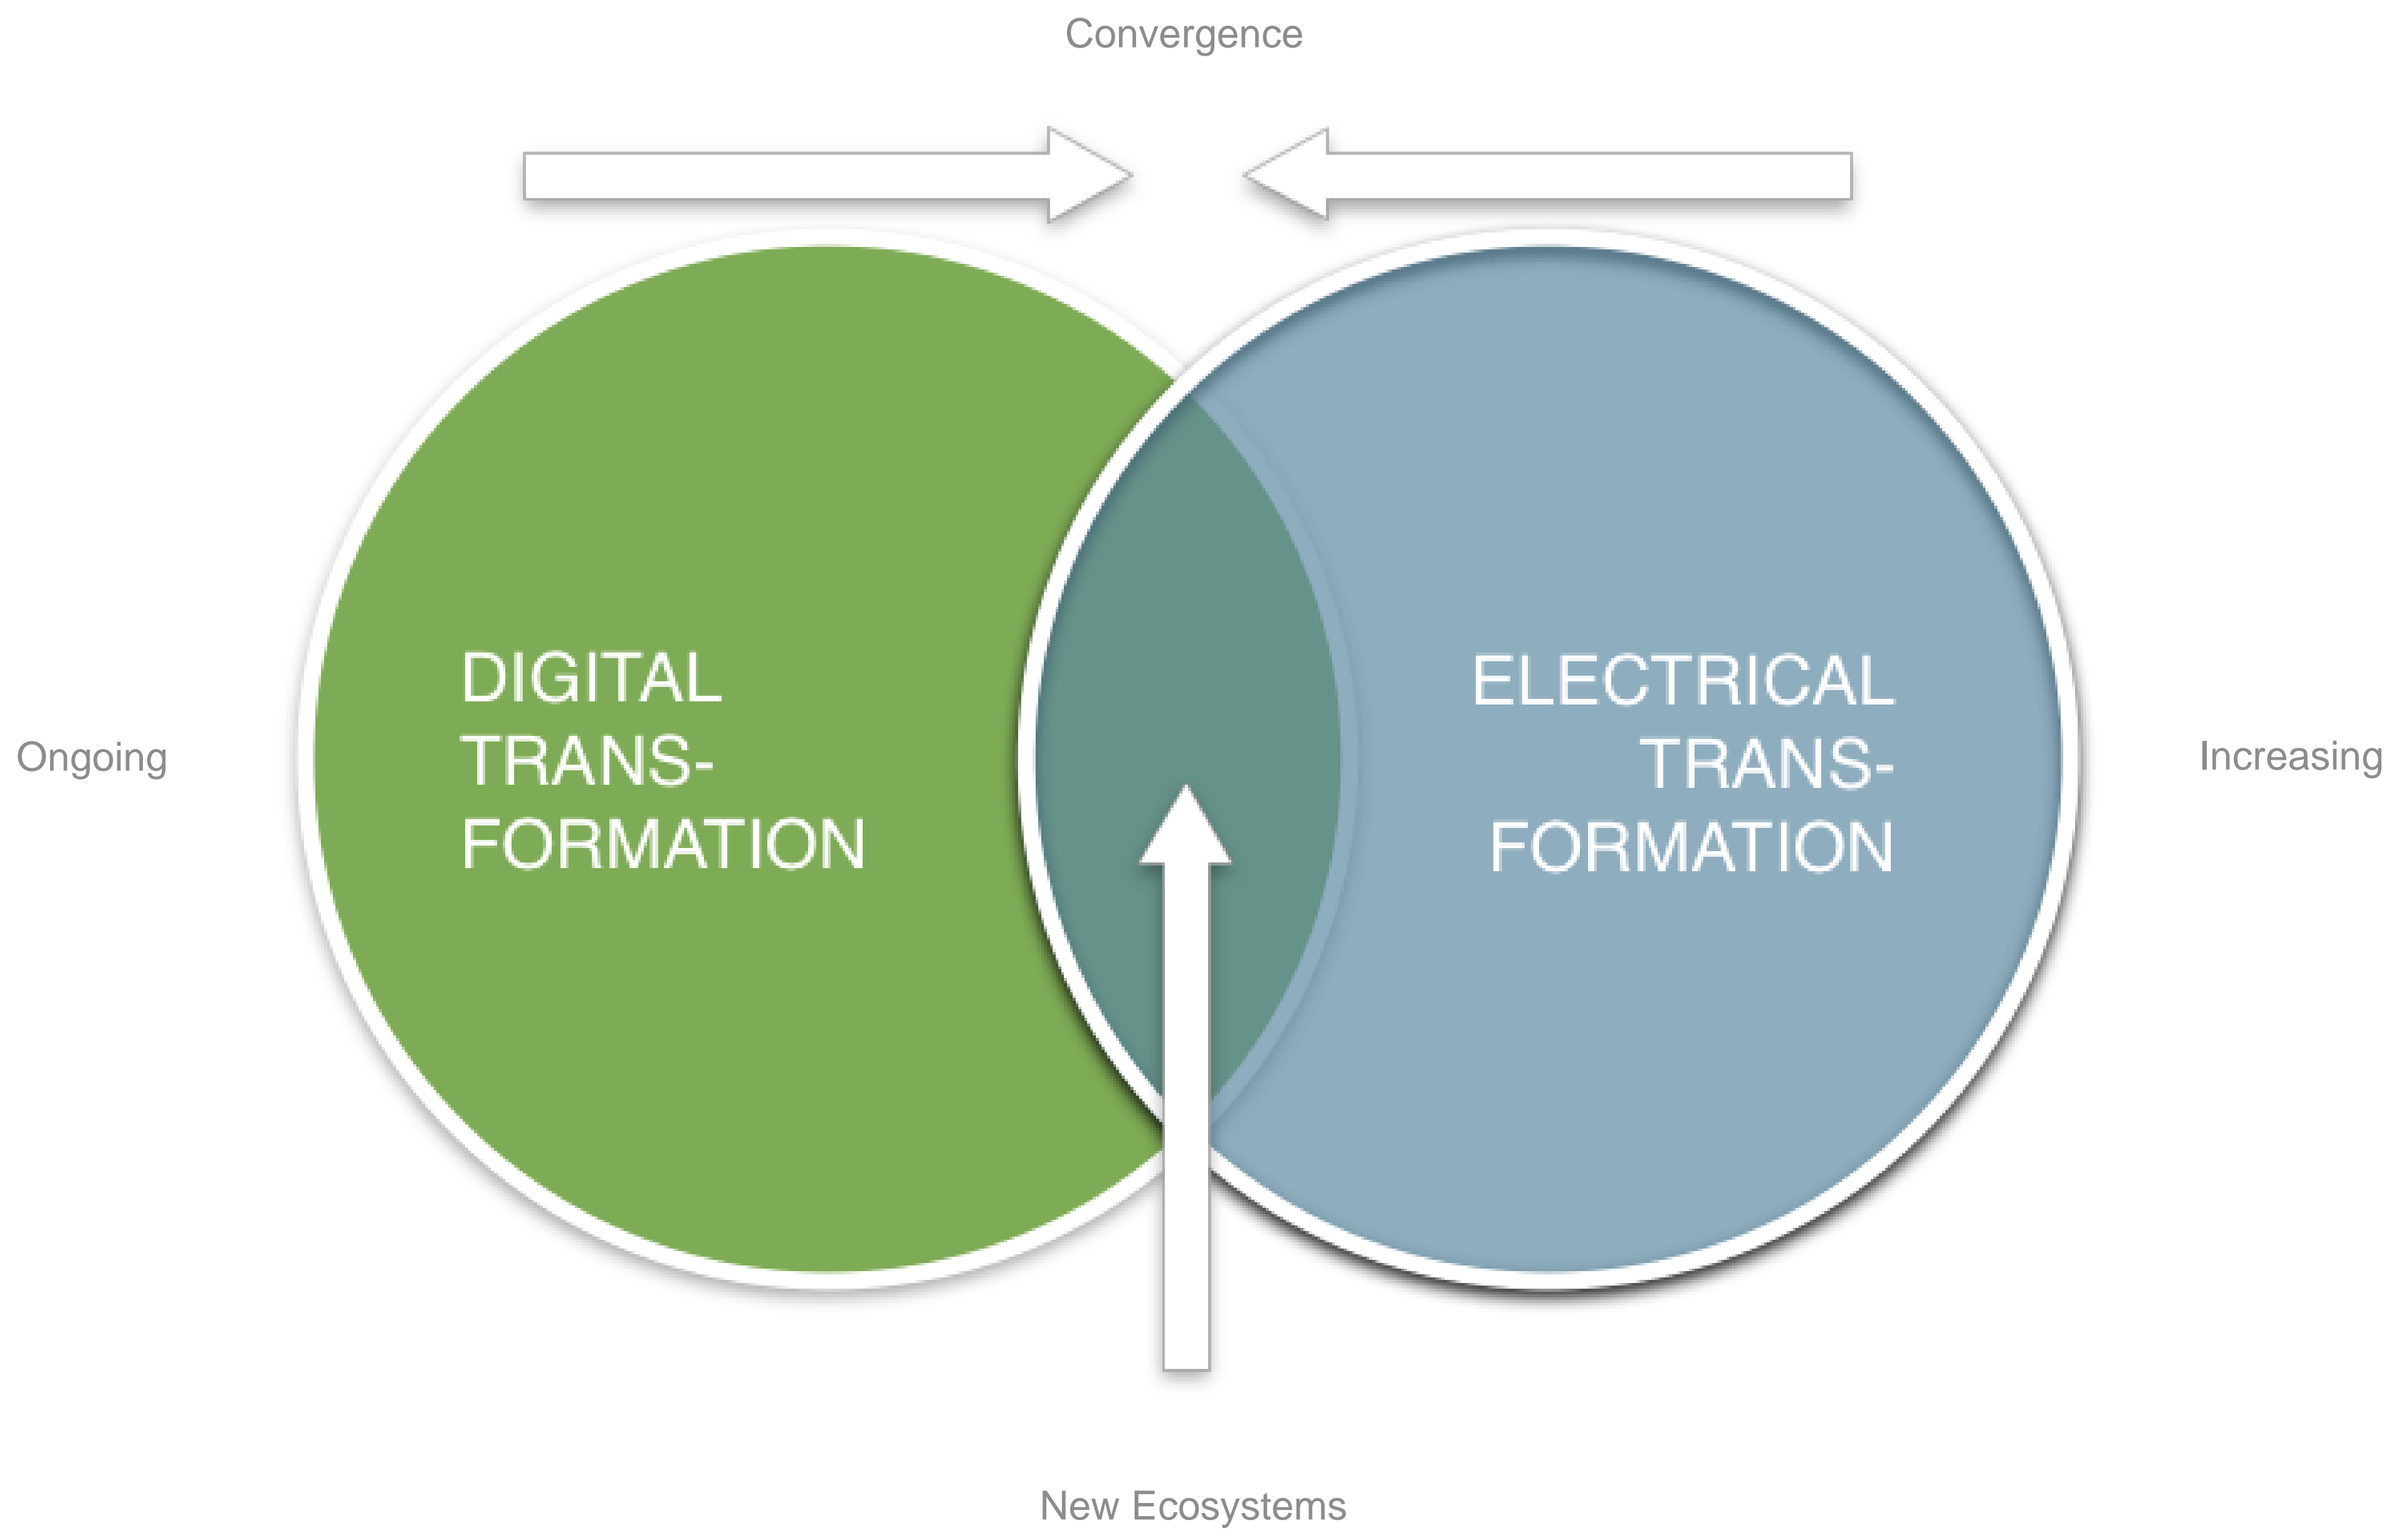

# The future is electric...

...and after the S-Curve of digital revolution we're right at the beginning of the next S-Curve, which will again change everything:

The electrification of the world.

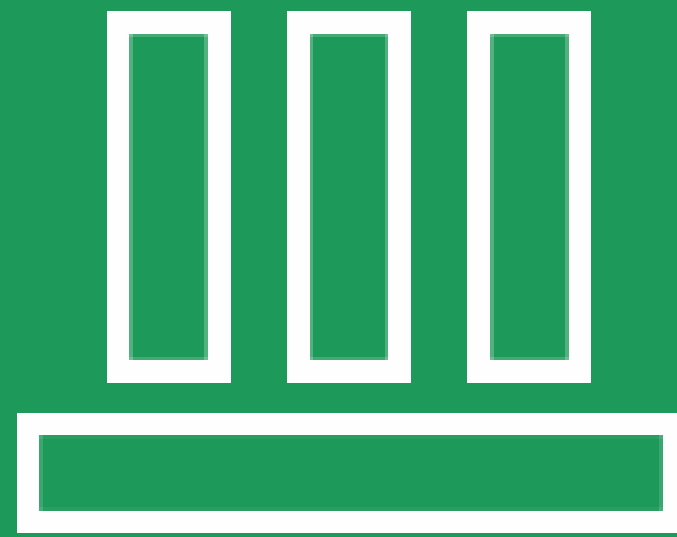

# Linking all these new ecosystems

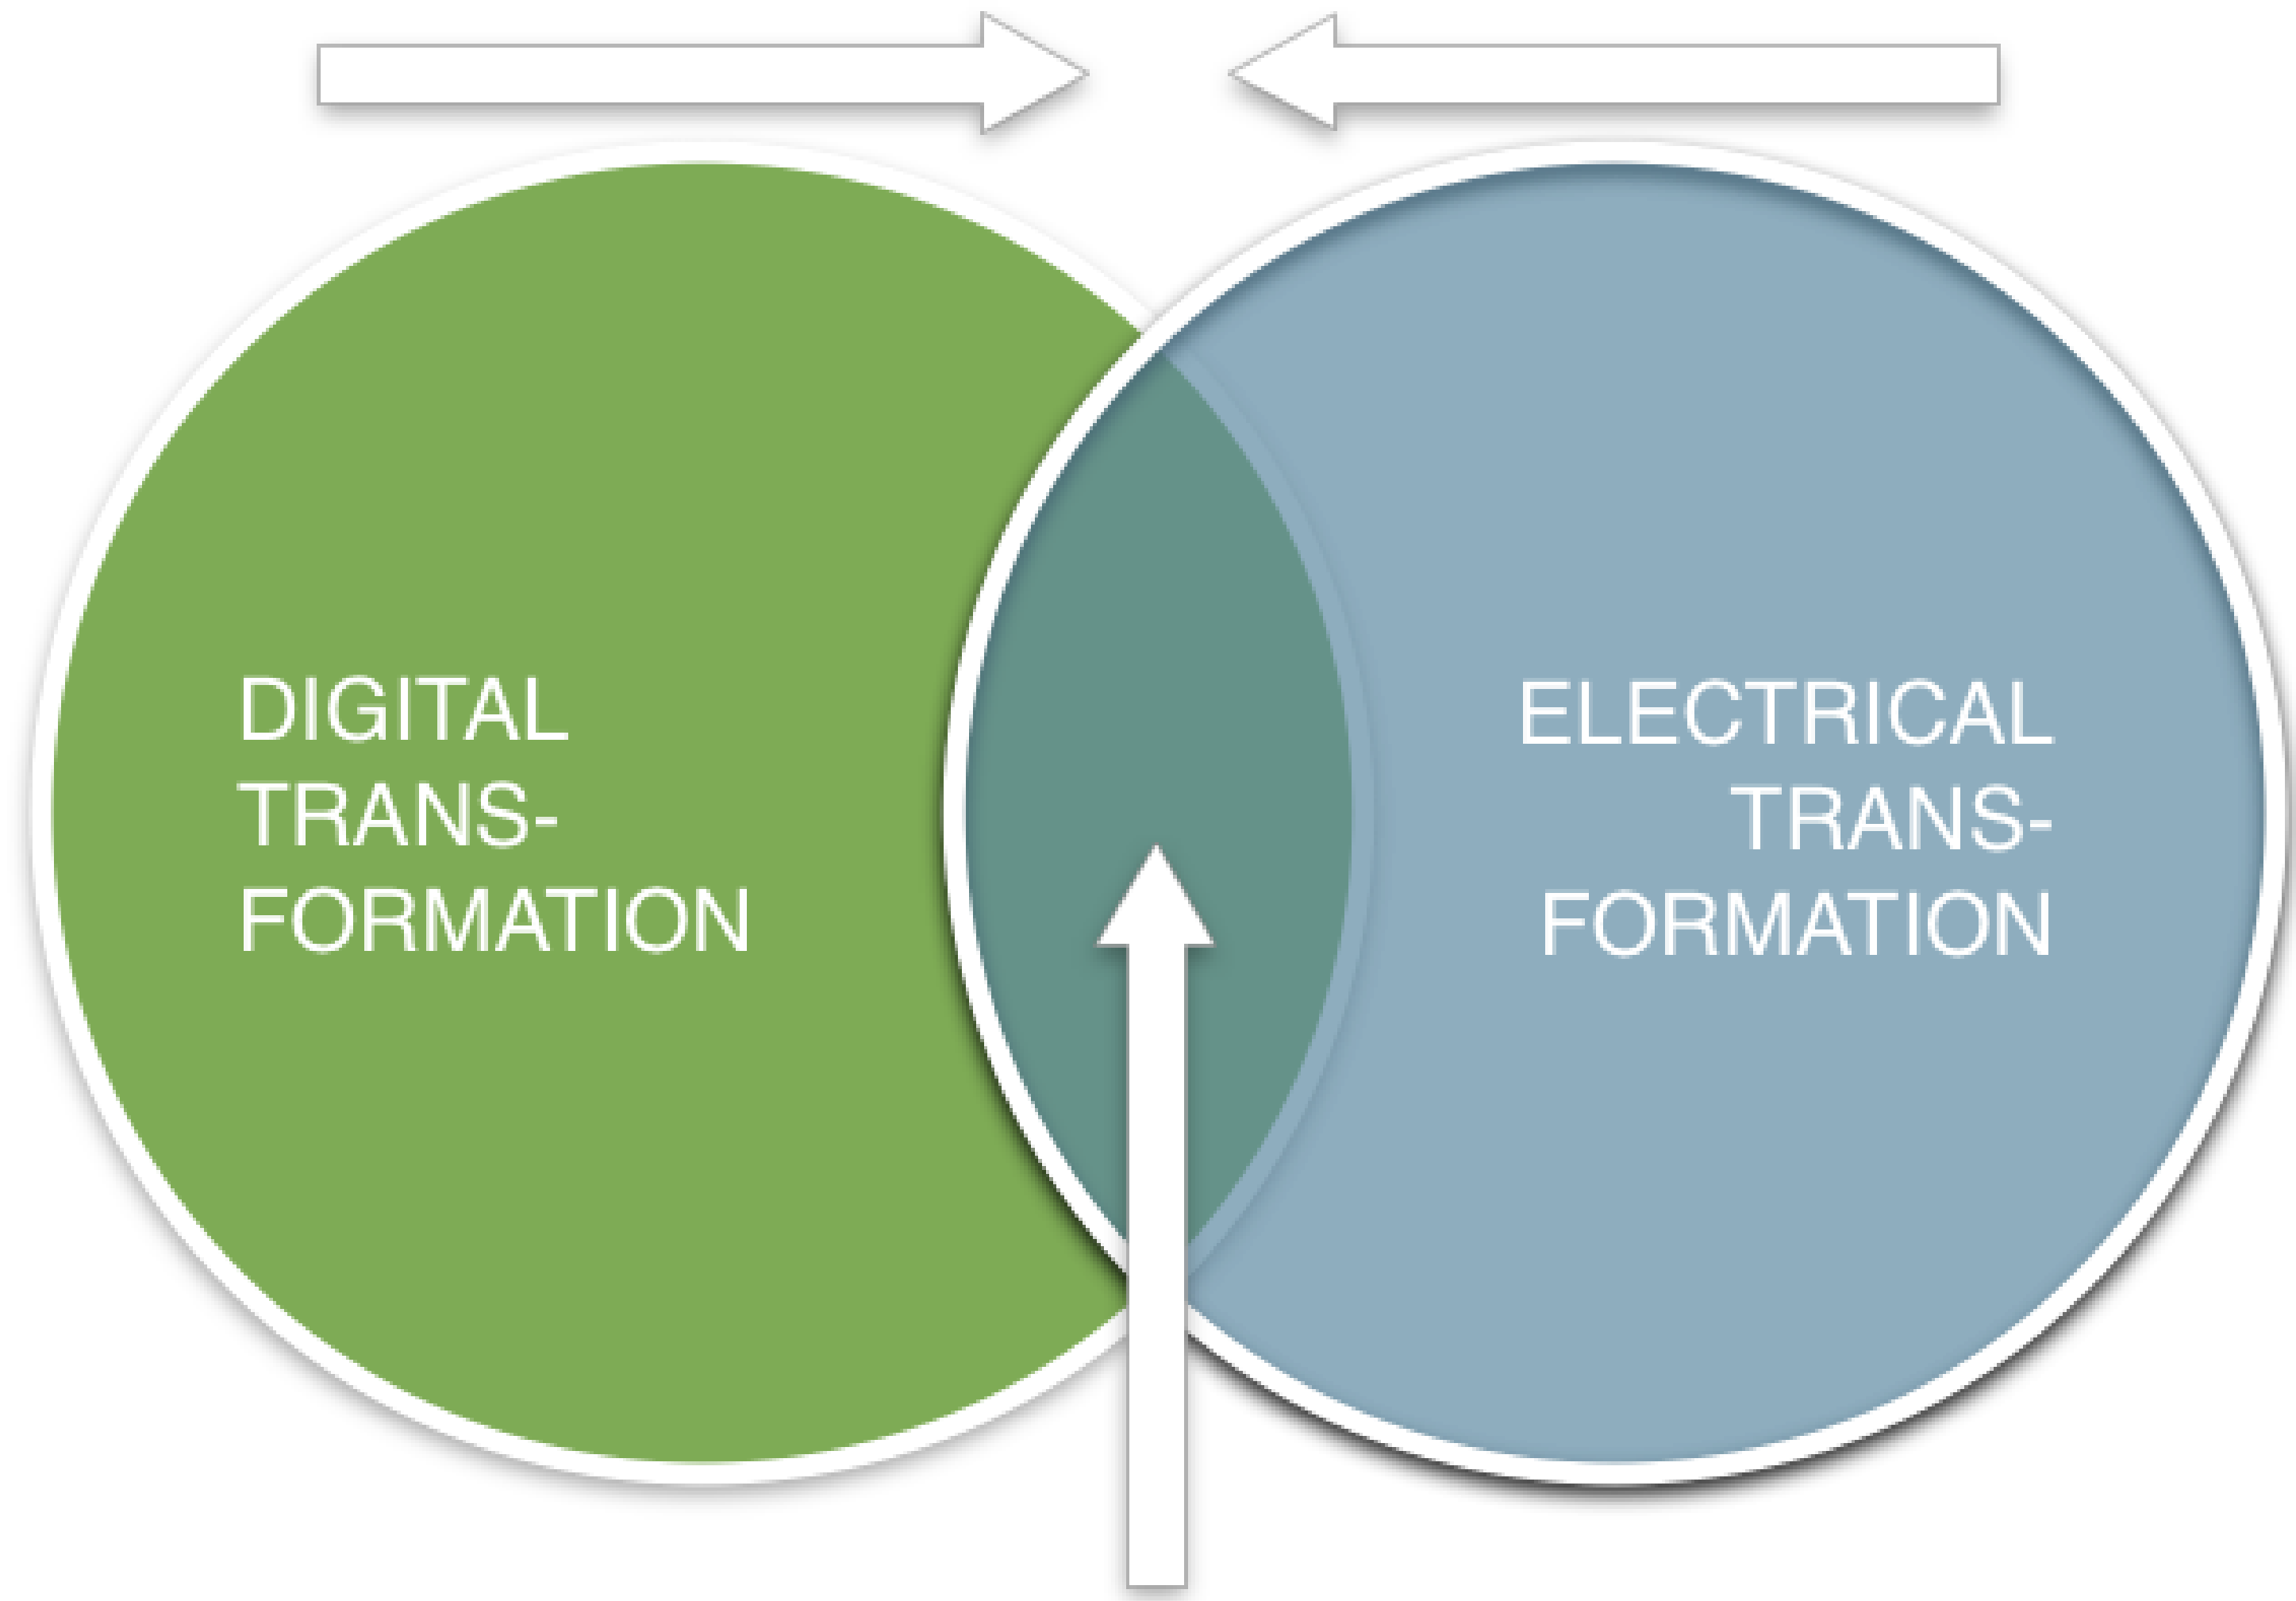

results in new value creation models for all stakeholders.

backbone.one

# backbone.one is the platform

for new vertical value creation models in digitally & electrically transformed world.

Retail

Tourism

Utilities

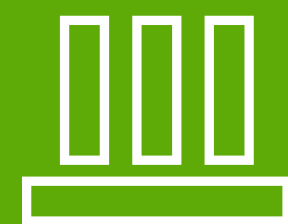

Real Estate

Community

Mobility

Insurance

Banking

backbone.one

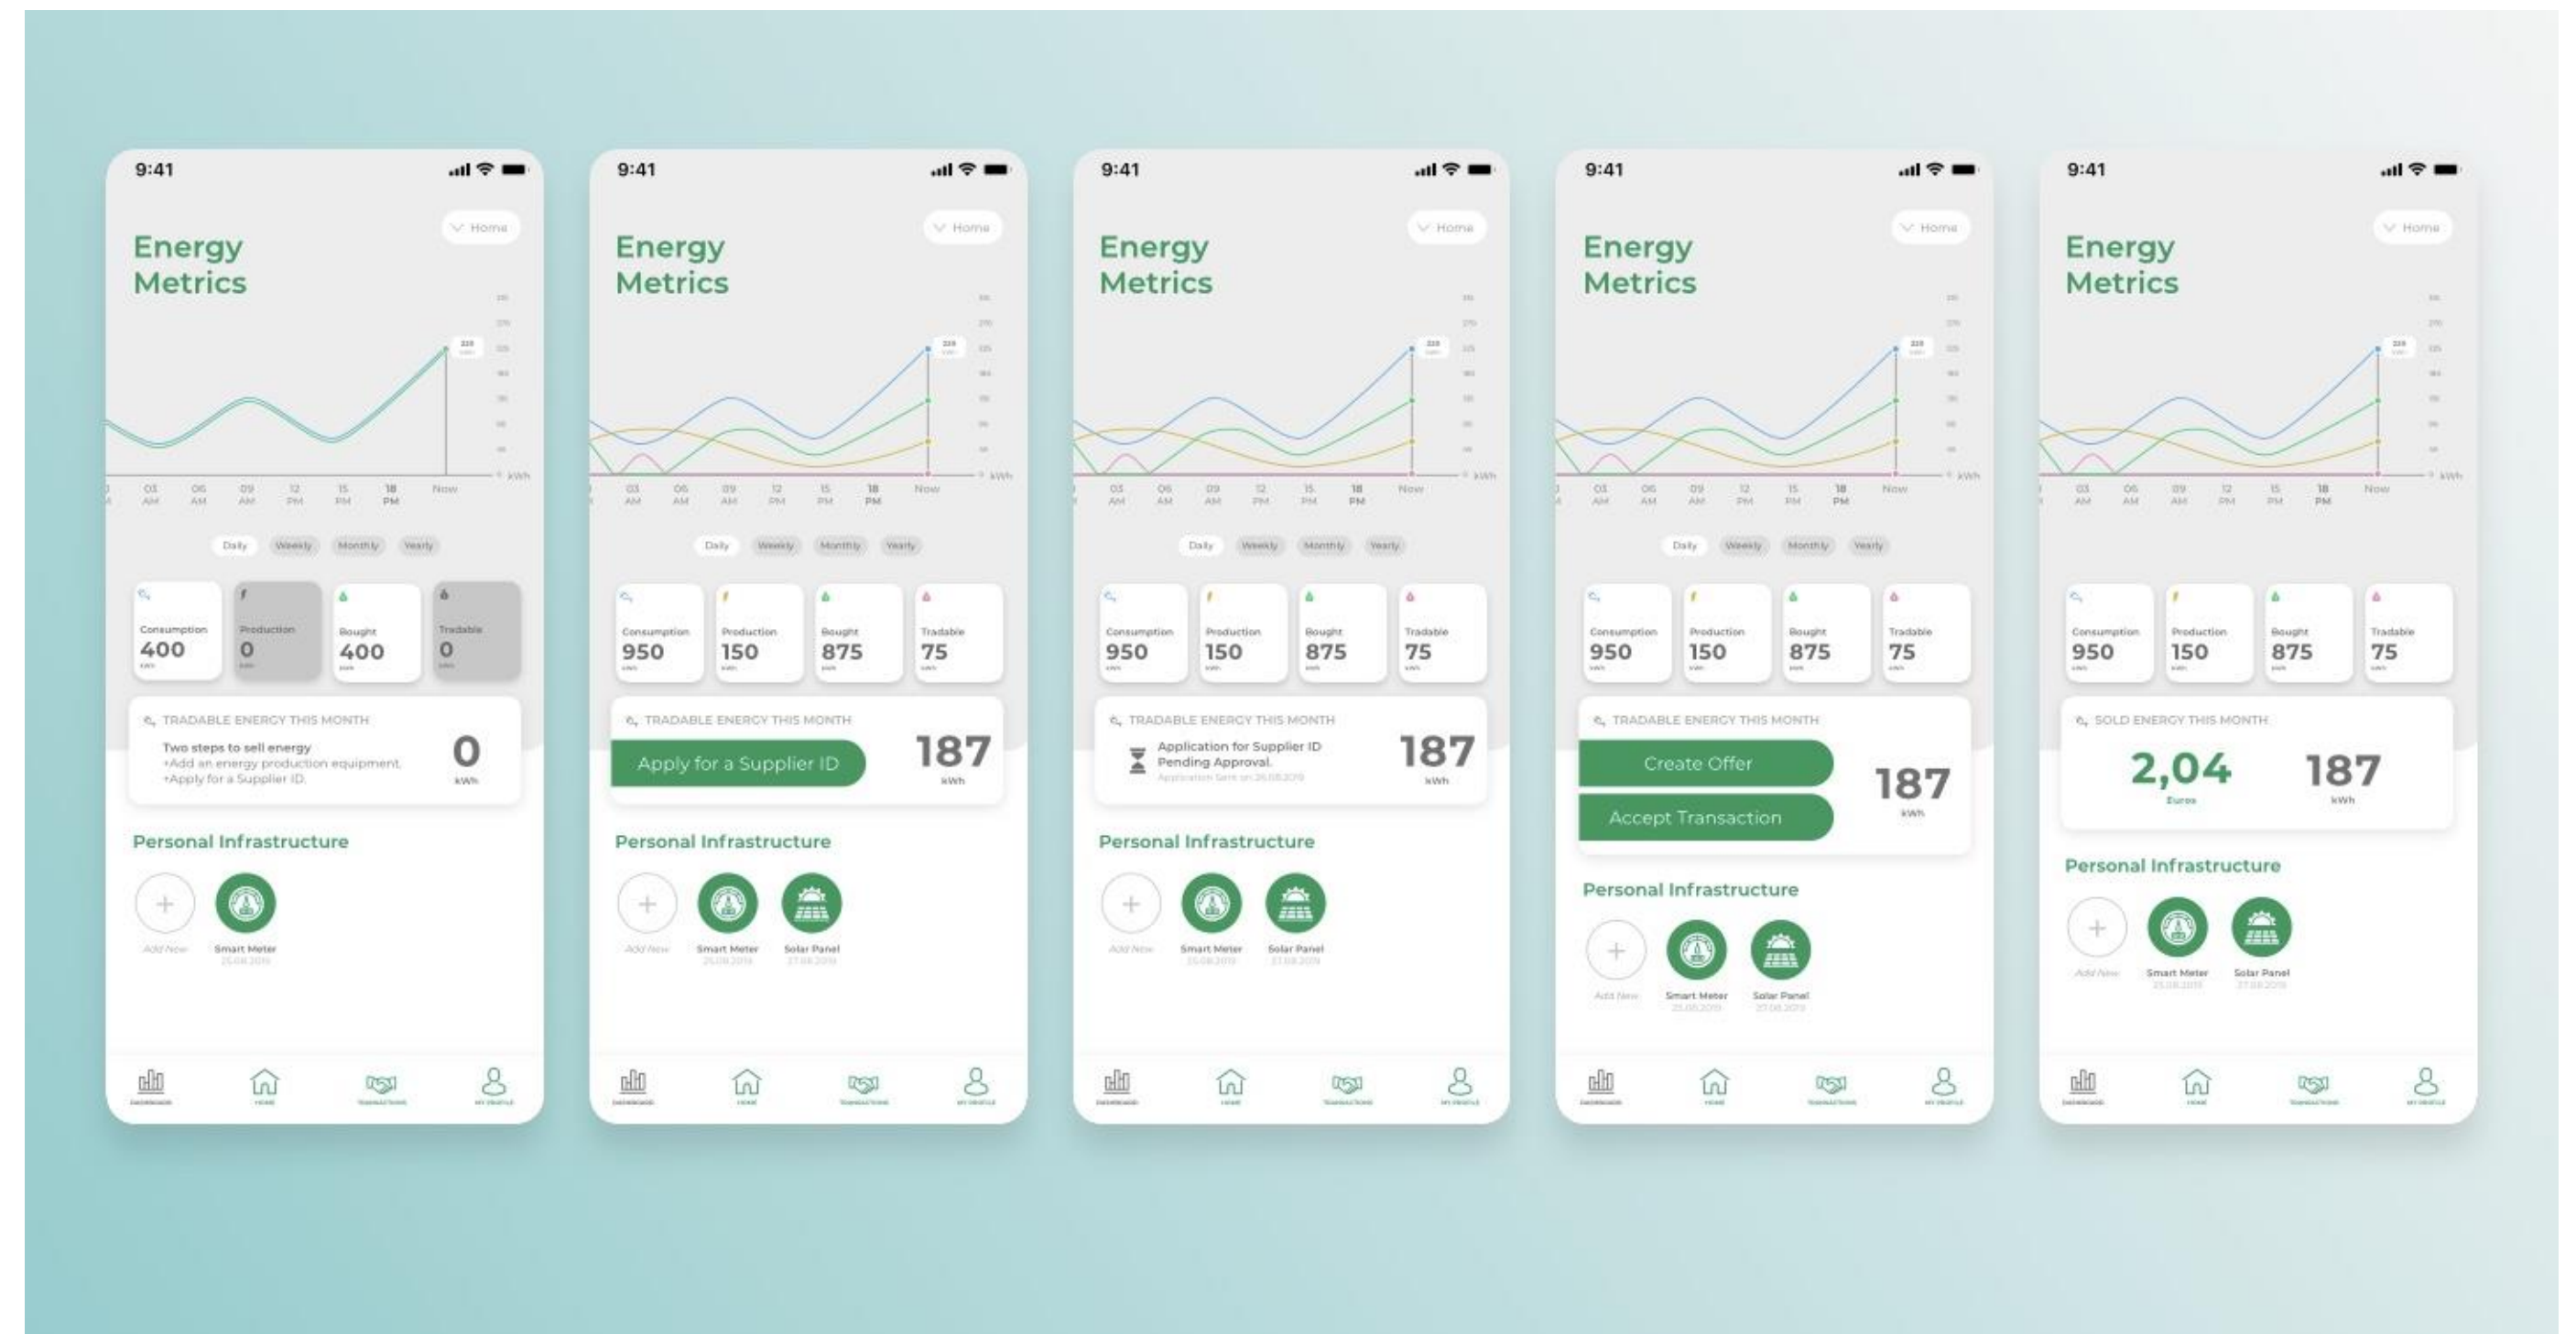

# backbone.one is the OS

for the horizontal integration of these new vertical value creation models.

 backbone.one

- ☰ All stakeholders are encouraged to invest in hardware infrastructure in order to produce and to store renewable energy.
- ☰ They become increasingly self-sufficient, save money, stabilize the energy grid and become interconnected.
- ☰ And they generate value by either selling surpluses of self-produced renewable energy.
- ☰ Or by providing spare storage capacities for peak shaving of the energy grid.

SUSTAINABLE DEVELOPMENT GOALS  
17 GOALS TO TRANSFORM OUR WORLD
