---

*“To effectively enhance the Telecommunication Service Quality for an improved consumer Experience while sustaining a competitive market in the Kingdom”*

# Framework

## QoS Framework

### Consumer Experience Enhancement

### Operators Related Enhancement

QoS Regulation

End to End Process

QoE Testing

QoS Reporting Tools

Licenses Review

QoS Monitoring Tools

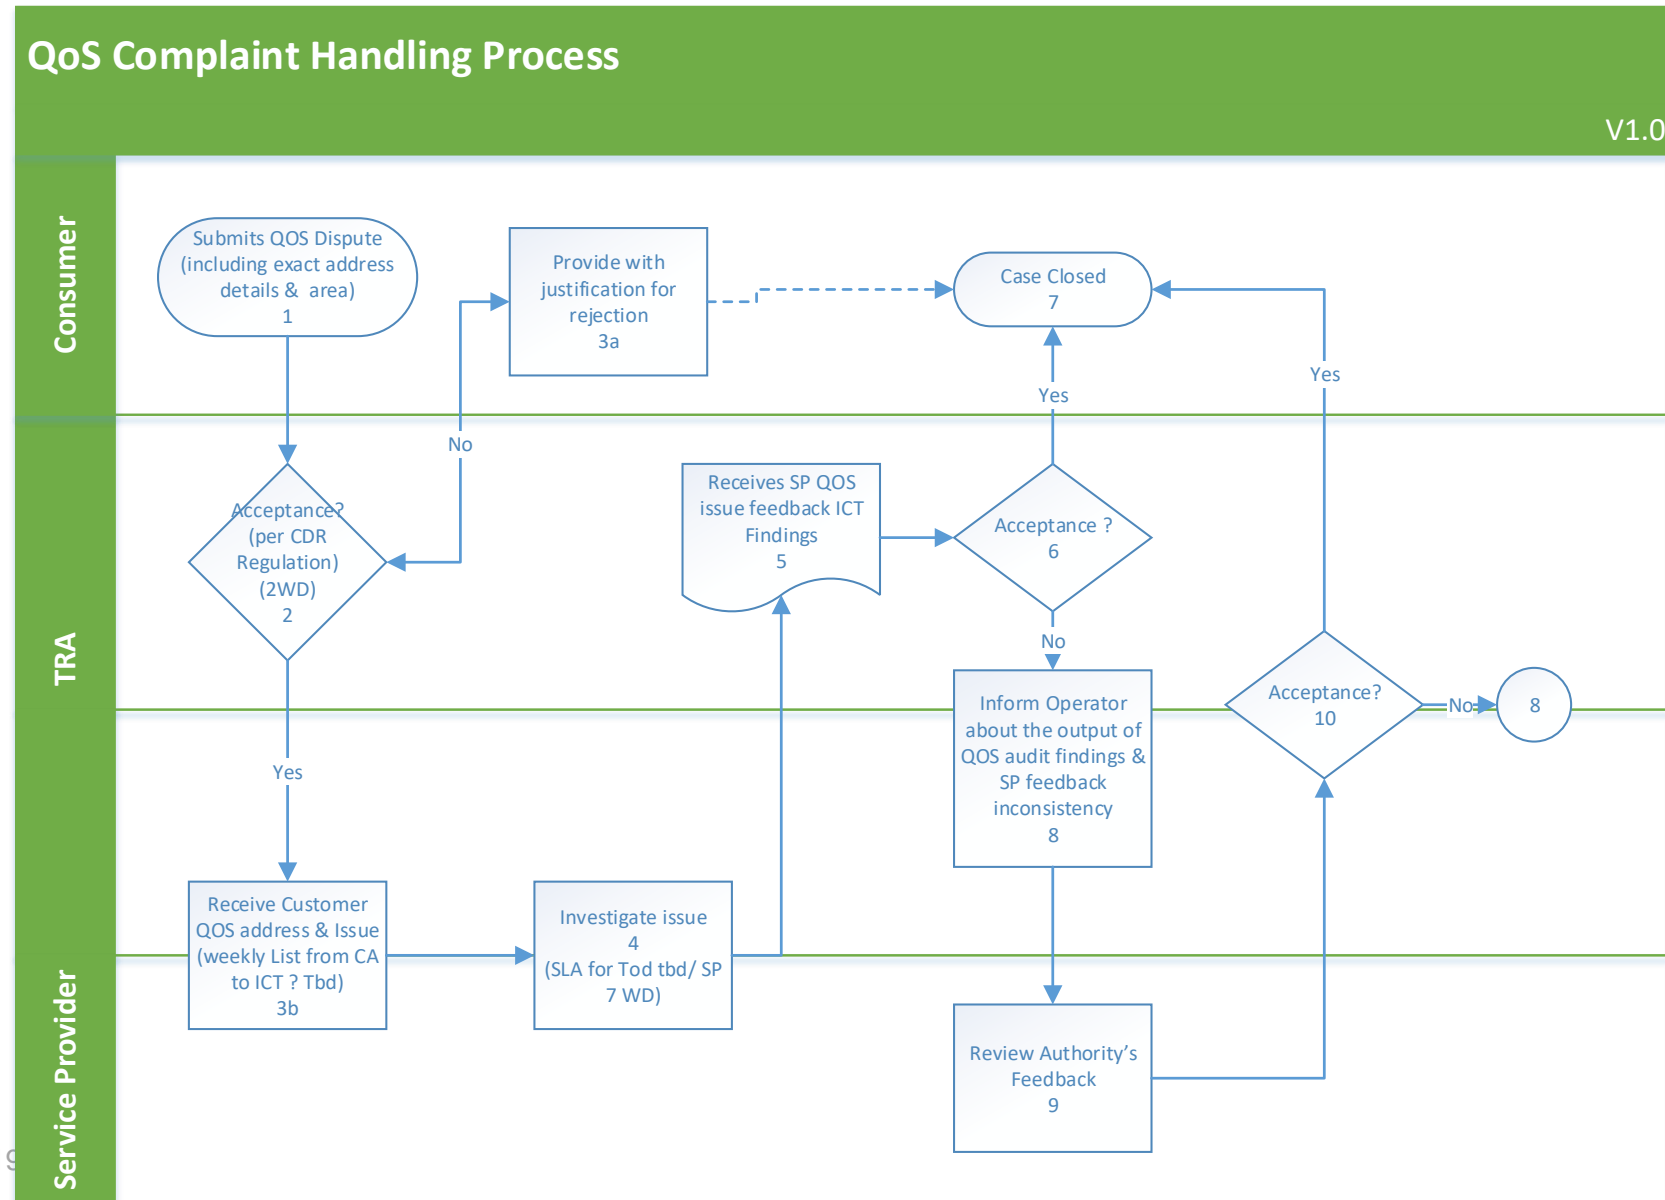

Annual Drive Audit Report

## Framework

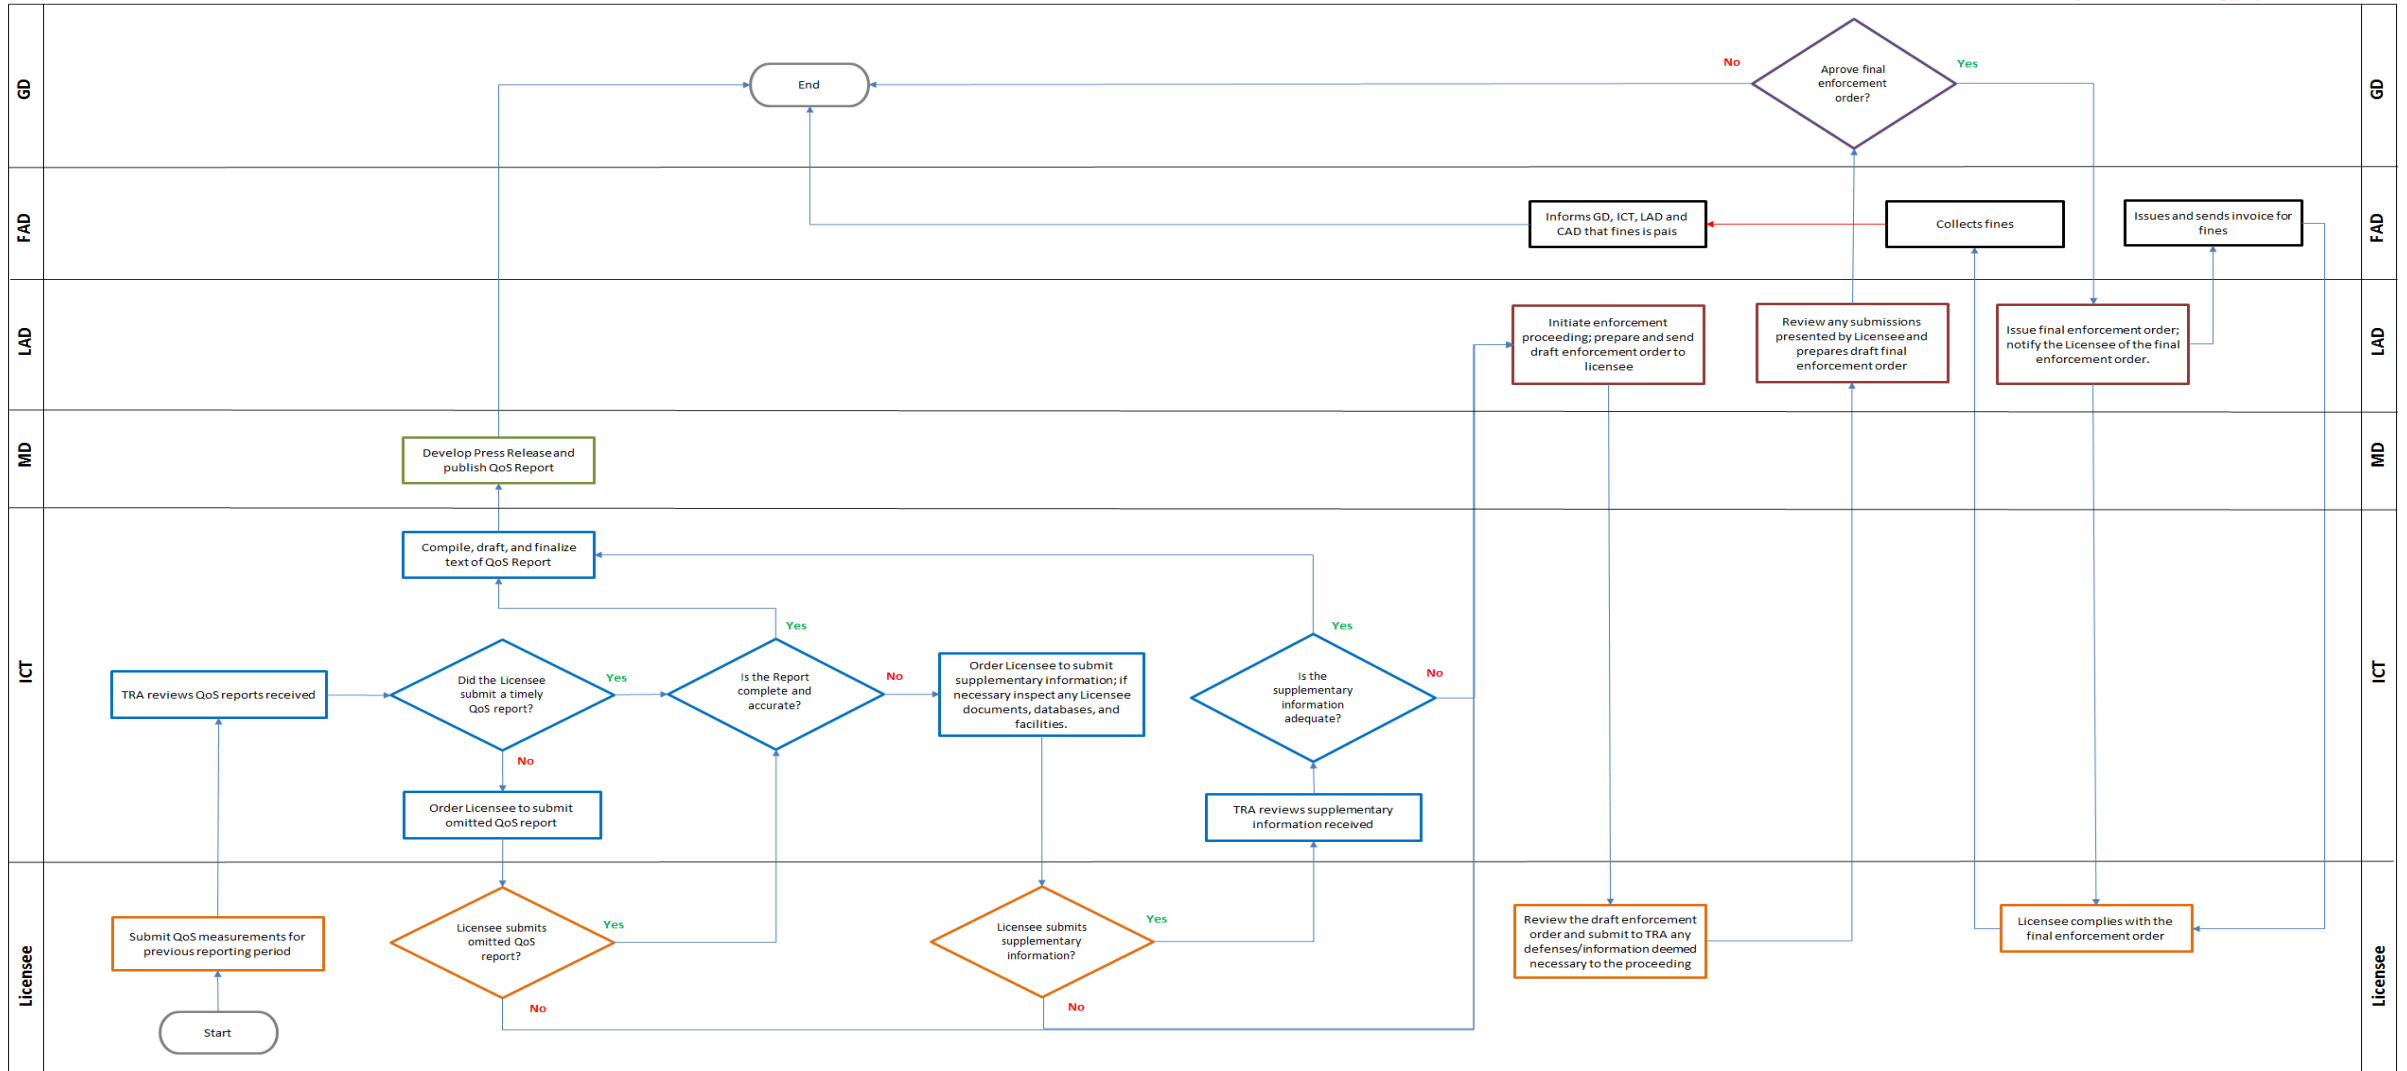

---

- QoS Regulation to efficiently manage resources.
- Develop and launch consumer-friendly portals and apps to perform benchmarking.
- Monitor and measure the effectiveness of the tools, reports and Regulation developed.
- Policies & Guidelines to enhance consumer's QoE.
- Develop obligation enforcement checklist.
- Develop a layered Telecommunications QoS Dashboard to monitor major QoS Indicators.
- Deploy KPI/Dashboard monitoring system.
- Monitor the successful deployment of QoS projects.
- Enhance consumer QoS Trouble ticketing tools.

# Process - TOD/CA QoS Complaint Handling
