To GSC-12 Participants and colleagues

Dear Colleagues,

**AN INVITATION TO PARTICIPATE**

You may recall that **GSC-12/Resolution 10: (GRSC) GSC ITS Task Force**

**Resolves:**

- 1) to endorse the continuation of the GSC ITS Task Force hosted by ITU-T APSC TELEMov and requests the Task Force to;
  - a. use the recommendations in the report as the basis for ongoing work;
  - b. serve as a coordination point for global standardization activities and further the recommendations noted in the report;
  - c. make recommendations to GSC on related spectrum issues and technologies for VSC, including an approach for development of specific ITS protocols to support VSC at 700 MHz;
  - d. recommend the scope for specific standards needed to enable Software Reconfigurable Radio (SRR) for automotive applications at the next GSC meeting; and
  - e. report on progress in each of these areas at the next GSC meeting; and
- 2) to request the Participating Standards Organisations to review the GSC ITS Task Force report and their national/regional activities in each of the topic areas and report on progress.

The task force has been working on developing the required deliverables to meet this resolution since September. A first round of working draft deliverables has been developed.

**THE TASK FORCE URGENTLY NEEDS VOLUNTEERS TO REVIEW THE WORK DONE SO FAR AND TO CONTRIBUTE TO THEIR FURTHER DEVELOPMENT AND IMPROVEMENT.**

***This message is a direct request to you and your colleagues to participate in the work of this group.***

All work is by email and there is no need to physically attend meetings.

Please contact the Task Force Chairman, Valerie Shuman directly in order to participate. You will be welcomed. Her contact information is :
