Title: Report of IPTV-TSR during the IPTV-GSI Event during
(Geneva, 12-16 September 2016)

1. Introduction

In accordance with the schedule of ITU Telecommunication Standardization Sector meetings for 2016 (see <http://www.itu.int/md/T13-TSB-CIR-0227>), and confirmed by the management of the concerned study groups, the 24th ITU-T IPTV-GSI event took place in Geneva, Switzerland, Geneva, 12-16 September 2016.

2. Objective

The objective of the TSR process is to ensure technical coherence within the ongoing studies of ITU-T to provide strategic and technical co-ordination of the IPTV work across the Questions, Working Parties and Study Groups of the ITU-T that form the IPTV-Global Standardization Initiative (GSI). The TSR is expected to reinforce the role of the IPTV-Joint Coordination Activity (JCA) <http://www.itu.int/en/ITU-T/jca/iptv/Pages/default.aspx>, by ensuring the visibility and technical coherence of the studies, during IPTV-GSI events. More information on the role of IPTV-GSI can be found at: <http://www.itu.int/ITU-T/iptv>.

As IPTV-GSI has been very active and the scope of its work has been expanded, the work of IPTV-GSI is expected to be continued not only in each of the Questions involved but also in the form of the newly established JCA-(multimedia)-eservices, which will encompass more groups in future.

IPTV-GSI TSR Coordinator would like to express his sincere appreciation to all the participants to IPTV-GSI over the years. IPTV-GSI owes its success to these active participants.
